The public is cordially invited to be present

## Newsy Notes of Pendleton

### Flue Burned Out.

The burning out of a flue yesterday afternoon threatened danger for a while to the home of Thomas Fitz Gerald, 513 Johnson street, but the use of a garden hose prevented the dry roof from igniting.

### Foot of Snow at Meacham.

There is now a foot of snow at Meacham and five inches at Huron, according to Ira Hughes who came down this morning on No. 5. Mr. Hughes has a crew of 32 men busily engaged in cutting cordwood at Meacham and will be thus occupied for some time.

### Portland Bankers May Come.

While here last week, Tom Richardson, Portland booster, stated that Portland bankers and other business men are contemplating making a junket trip to eastern Oregon during the spring. Secretary Cranston has written to a number of the prominent men of Portland asking them to be sure and include Pendleton and Umatilla county on their itinerary should they decide definitely on the trip.

### Two New Bungalows.

Two new bungalows are to be built in Pendleton in the immediate future. Yesterday a building permit was issued to D. Turner for a one-story, full basement bungalow at his lot, 804 East Court street, and another was issued to H. M. Sloan to build a one-story, one-half basement, 28x48 bungalow at the corner of East Alta and College street. Each bungalow will cost \$2000.

### Dust Storm on Tutuilla.

One of the heaviest dust storms in recent years swept down Tutuilla creek yesterday morning, according to Rev. J. M. Cornelson. He states that the sand blows there smoked like volcanoes and that the dust filled the air so thickly that it was impossible to see but a short distance. People kept indoors but even there could not get away from the dust. He was surprised that the storm did not reach Pendleton as it was headed this way, he said. A high wind blew here most of the day yesterday but there was no great amount of dust in the air.

### Will Make Eastern Trip.

Charles Bond of the firm of Bond Bros., men's clothiers, will leave Sunday evening on an extensive buying and educating trip. He will stop in Philadelphia for some time as the guest of C. Hensel of the John B. Stetson Co. and David Kishbaum, wholesale clothier, and will visit the factories of each. In New York he will be the guest of George Kreiger of the Alfred Benjamin Co. and will likewise visit the factory of that company. He contemplates being absent a month and while gone will purchase large stocks for spring and fall delivery. He will return by way of New Orleans.

### Church is Thankful.

Rev. T. F. Weaver of the First Christian church today declared that in behalf of the church, which is now out of debt and which burned the long-standing note with appropriate services on Sunday, he wished to express thanks to the public for the cooperation shown and which helped to make possible the liquidation of the debt. Fearing some contributor might have been overlooked when the invitations to the services were sent out Mr. Weaver said that if such was the case it was purely an oversight, and drew attention to the general invitation which was made through the press.

### Verdict for Defendant.

The jury in the case of the First National Bank of Athena vs. Joseph Hodgson this morning returned a verdict for the defendant. The case was for the collection of a note made by George Ferguson to the defendant, who contended that he had sold it outright to the plaintiff. He had endorsed it on the back but claimed that he had never been notified when it became due. Ferguson testified that the note had been given in payment for four horses and that the plaintiff had since attached the horses. He stated that it was his understanding that when he turned over the horses and other chattels that his indebtedness was cancelled. The court is this afternoon trying the case of J. M. Wagner vs. Marion Jack.

## INSANE PATIENT IS KILLED IN TUSSEL

SALEM, Ore., Jan. 13.—Frank E. Wallace, a patient at the state hospital for the insane was killed as a result of a fall while tussling with Oliver Whitney, an attendant, whom Wallace attacked. Coroner Clough who investigated said no blame was attached to Whitney. While struggling both fell across a wooden block, a corner striking Wallace in the pit of the stomach.

### Appealed from the Justice Court.

It involves \$37.50 wages claimed by the plaintiff. Defendant claims he paid \$25 to Riley & Riley upon the order of the plaintiff and has offered him the balance of \$12.50.

### Sells 100 Acres.

James Johns and wife have sold to John W. Bloom 100 acres lying in section 7, township 3, N. R. 36.

### Deputy Officially Appointed.

County Treasurer Bradley today filed his appointment of John Beam as his official deputy. Mr. Beam will have charge of the tax collection department.

### Moving Library.

The Umatilla county library is temporarily closed while the books and shelves are being moved into the new quarters in the city hall. Miss Mason, the new librarian, is expected to arrive tomorrow.

### Paper at Umatilla.

The Umatilla New Era is the name of a paper that has been started at Umatilla by Willis J. Pegg. The first issue of the paper was published January 8 and is highly creditable both in the handling of news and in mechanical appearance. The publisher was formerly located at Huntington.

### Safe Blowing Was Good Job.

That the men who blew open the safe of the M. L. Morrison store in Helix Sunday night were expert yeggmen is the opinion of Sheriff T. D. Taylor after an investigation. Nitro-glycerine was used and was employed in a way that takes experience.

### Hermiston Booster Meeting.

At Hermiston this evening the Commercial club of that place will hold a big booster banquet for the purpose of generating enthusiasm for the further development of that section. Dr. H. W. Coe and Dr. W. G. Cole of Portland are both there and will attend.

### Ministerial Association.

The local ministerial association held a meeting yesterday, the session being held at the Baptist parsonage. Questions of community interest were discussed and it is announced that regular meetings of the association will be held in the future.

### Bank for Umatilla.

It is currently reported that a bank is soon to be organized at Umatilla. According to the report the incorporators will be W. L. Thompson, F. E. Judd and J. B. McCook, all officials of the American National Bank of this city. D. C. Brownell of Umatilla is interested in the move.

### Tom Mylin Breaks Jail.

Tom Mylin, formerly of this city and against whom a charge is still pending here figured in a jailbreak at La Grande yesterday. He was serving a sentence in the county jail for assault and was facing an additional charge of rape. With Tom King, a burglar, he saved his way to liberty early in the morning, friends from without having evidently provided them with tools. The last word from La Grande was that the officers had them located.

### Cases Set for Trial.

Judge Phelps this afternoon set the following additional cases for trial: January 26, Mary B. Ireland vs. City of Athena; January 27, W. A. Kerr vs. Ivan O'Hara; January 28, G. F. Simley vs. J. E. Temple; January 29, August Otkie vs. Frank Pedro; January 30, Umatilla Storage Co. vs. S. S. Bassett; January 30, Peter Norquist vs. S. S. Bassett. The cases already set for trial and the criminal cases growing out of the grand jury investigation will consume the time until the 26th, so that this session of court promises to be a long one.

### Mexico Will Pay Debt.

MEXICO CITY, Jan. 13.—Declaring the country's pacification is the thing to be thought of above all else, Huerta announced the semi-annual interest payment, nearly due on Mexico's external debt will be passed. The money, he said, will be spent on the army. Foreign Secretary Moheña was instructed to notify the powers of Huerta's decision.

### Got Money from Corporations.

NEW YORK, Jan. 13.—Arthur McLean of Newburg, New York, treasurer of the democratic state committee, pleaded guilty before the state supreme court to an indictment charging him with receiving campaign contributions from corporations.

### Levinsky-Flynn Bout.

NEW YORK, Jan. 13.—Battling Levinsky's followers today expected him to continue his climb up the pugilistic ladder in his scheduled ten-round fight tonight at Tom O'Rourke's club with Porky Flynn, of Boston. Levinsky, with a winning streak almost as long as a Walter Johnson's or a Jeff Tesreau's, is expected to be matched with Gunboat Smith if he wins decisively tonight. If the battler loses to Flynn, it will practically put him out of the running, although it won't help Flynn so much. Flynn's manager today issued a statement declaring that Flynn is in great shape and will give the battler the fight of his life.

## NEWS OF FARM AND RANGE

# MUCH TILLABLE LAND NOT BEING UTILIZED

### ONLY 27 PER CENT NOW UNDER CULTIVATION, SAY GOVERNMENT EXPERTS.

### Department Estimates Nearly Billion Acres Not Now Cultivated—21 Per Cent of Land Not Fit for Use.

Only 27 per cent of the tillable land of the United States is actually under cultivation, according to estimates of the department of agriculture, based upon reports of 35,000 correspondents. These reports were obtained in order to gain information as to the tillable area of the United States; the amount of land that cannot be used for crops that have to be plowed, but available for pasture or fruits, and the total number of acres that never can be used for agricultural purposes. From the returns, which were generally very consistent, preliminary estimates have been made for each state and for the United States. Further investigation in the far western states may modify somewhat the present estimate for those states.

The entire United States, excluding foreign possessions, contains about 1,900,000,000 acres. Of this area about 60 per cent or 1,140,000,000 acres is estimated to be tillable, that is, capable of being brought under cultivation by means of the plow. This includes land already under such cultivation and that which in the future may be brought under cultivation by clearing, drainage, irrigation, etc.

261,000,000 acres or 13 per cent, are estimated to be non-tillable but valuable for pasture or fruits. Only 21 per cent, or 399,000,000 acres, was estimated to be of no use for agriculture present or future.

According to the census of 1909, the land area in crops where acreage was given was 311,000,000 acres. This is about 16 per cent of the total land area or about 27 per cent of the estimated potential tillable area as given was 311,000,000 acres, foreign possessions.

Oregon has 41 million acres of land. Of this amount 38 per cent is tilled; 32 per cent is classed as non-tillable agricultural land and 30 per cent is non agricultural.

### Farmers' Creamery Association—

With 17 members at the start, the Farmers' Creamery Association of the Walla Walla valley was formed at Fruitvale in eastern Umatilla county last week. Henry Effert is president of the company; H. A. Powell, vice president, and Louis Hodgson, secretary.

### To Try Cooperation—

An effort is being made by farmers in the vicinity of Madras, Crook county, to get together on a plan of cooperating about shipping cream and milk to the creameries in that section.

### North Powder Cream—

The North Powder News boasts that during the year 1913, 137,433 pounds of cream were shipped out of that place. Converted into butter this cream brought the ranchers a total of \$11,910.

### 15 Cents Per Acre Maintenance—

At a meeting of the board of directors of the Klamath Watershed Association it was decided to charge a sum of 15 cents per acre as a maintenance charge during the year 1914.

### Wind Dried Wheat Land—

The strong winds that ensued for several days, ending last night, caused the ground in the farming sections to lose much of its surface moisture. It has been noticeable that dust has blown considerably during the last two days. However, the wind has not been cold and there are no reports of any frozen grain though it is possible some grain in exposed districts was blown from the ground.

### May Build New Road—

It is possible the reclamation service may build a hard surface road from Umatilla to the diversion dam above that place, says the Umatilla New Era. The road would be used for handling the materials for the dam, but incidentally the road would be a link in a hard surface highway from Umatilla to Pendleton.

## WIRELESS EYE FAILS TO SEE THROUGH FRAUD

OAKLAND, Cal., Jan. 13.—Complaints charging Samuel Spitz, alleged inventor of the "Wireless Eye," said by wireless experts to be a fraud with obtaining money by false pretenses by selling \$5000 worth of stock in the Wireless Spitzscope company, Inc., on the strength of his scheme, will be sworn to, according to a statement issued by Captain of Police Agnew.

### GANGSTERS IN FIGHT KILL INNOCENT MAN

NEW YORK, Jan. 10.—Frederick Strauss, 65 years old, a prominent German and a veteran of the Franco-Prussian war and for the last 25 years a clerk in the city court, was instantly killed by a bullet as he was approaching the scene of a street fight in which shots were exchanged by gangsters. Several arrests were made.
