

HUNDREDS PROFITED TODAY AT THIS FORCED SACRIFICE!!!

The hundreds of people who visited this sale today will testify to the grim determination that is dictating every price and every value. Never in the history of this city was high grade, dependable merchandise so ruthlessly slaughtered. And never was the response so instantaneous. From miles around people came to secure their share of the bargains that we are offering. We hardly made an impression on the gigantic Livengood stock and shall redouble our efforts toward making Saturday a still greater day of this sale.

With our stock sold if we can give possession by February 20th, we have telegraphed A. H. Allen today that he must positively make good on his contract to reduce our present \$25,000 stock to \$8,000 by February 20th. F. E. Livengood has disposed of his property here in Pendleton and will leave the city as soon as the change in ownership takes place. Definite plans for the future have been made and nothing will be allowed to stand in his way. This stock must positively and absolutely be reduced to \$8,000 without thought or regard to the financial loss to us. Profit by our predicament. Secure some of this Livengood Merchandise at less than the manufacturer's cost.
