Found Buttercups.
That spring is at hand in Pendleton despite the fact it is still February is indicated by the fact the buttercups are now in bloom. They are no-blooming everywhere, however, but Mr. and Mrs. W. S. Baley found a host of the little flowers Sunday down near Pilot Rock junction.

Plaintiff Gets Judgment.
In the case of Mabel Bason vs George M. and Flora Hays et al, Judge Phelps yesterday handed down a judgment for the plaintiff for \$1500 interest, \$125 attorney fees and \$250 costs. A mortgage was ordered fore-closed and the property sold to satisfy the judgment.

An exemplification of the utility of the parcel post since the weight limit has been raised was furnished today when Eugene Molitor, manager of the grocery department of Alexander's shipped out a barrel of flour to E. Athena Burglar Was Cold.
Local officers were this morning notified that a burglar had robbed the house of Cleve Myers in Athena on Friday or Saturday night and had appropriated 12 or 15 home-made quilts and comforters, thus indicating that some honest person had prob-ably been turned into a thief by Jack Frost. The officers have but little clue to the culprit but naturally de-duce the fact that he was a single man and that he probably lives in a cheap boarding house where a sheet and a blanket are all that protects the sleeping body from the chilly ozone.

NEWS OF FARM AND RANGE

CATTLE PRICES IDENTICAL WITH PRICES YEAR AGO

YET LOCAL FEEDERS PAID HIGH FOR STOCK AND NEED MORE MONEY.

Prices for cattle in the Portland market have been looking up of late and on paper the quotations are now identical with the quotations of one year ago. At this time last Febru-ary the offerings for best fed steers ranged from \$7.85 to \$8 and those identical figures were quoted yester-day. Best hay fed steers bring \$7.50, the exact quotation for February 10, 1910. The poorer grades of stuff are just a fraction stronger than a year ago.

Yet even with the market improved over the situation of several weeks ago the prices offered provide no profits for west end men who have been feeding good hay to cattle this winter. Higher prices were paid for cattle last fall and so far the feeder to make anything he should get some-thing like a half cent more than last year's prices.

Umatilla county feeders as a rule are holding their beef, hoping for bet-ter prices. A carload was shipped from the Umatilla project yesterday by L. S. Irvin.

McClure is Optimistic—Senator J. N. Burgess, manager of the Cunning-ham Sheep & Land Co., has received the following letter from Dr. S. W. McClure, secretary of the National Woolgrowers' Association: "My advice from Boston is to the effect that the market has been prac-tically cleaned up on all domestic wools. The mills are enjoying pros-perity both here and abroad. In Lon-don the January sales closed stronger than they have at any time in the last twelve months. American buy-ers bought considerable quantities. Since the sale has closed, wool con-tinues to advance. Statistically wool is in a stronger position today than at any time for years.

"About January 20, eastern wool buyers began contracting wool in Utah and Idaho. Already 8,000,000 pounds have been contracted at prices the same as last year, and in some cases a half cent higher; 16 3-4 cents has been paid for Soda Springs wool and 16 cents for Utah. I am unable of course to predict the future course of prices, but I believe that these facts should be given to your wool growers."

Rabbits Hard to Poison—Ray T. Jackson, expert with the department of agriculture, who has come to this county for the purpose of poisoning rabbits is now at work in the Echo country but has not had much suc-cess thus far. Mr. Jackson was out on Butter creek yesterday but found that with so much green feed for rabbits to eat they are slow to nib-ble on his poisoned grain. Mr. Jack-son is in Echo today and is expecting to go out into the Cold Springs coun-try within a few days. In the pub-lished report of the formula he ad-vises the amount of saccharine in the formula was given wrong. Instead of one-fourth pint of saccharine the formula calls for one fourth tea-spoonful.

Reservoir Helps Adjacent Land—That the presence of the Cold Springs reservoir is proving of benefit to wheat farmers some miles away from the big pond is declared by farmers. They say it means more moisture. One farmer declares that on late spring mornings he can go through his fields and the moisture will be so great he will get his feet wet. Be-fore the government project was built the fields would be very dry.

New Fruitmen's Association—At a mass meeting of 300 fruitgrowers of the Milton district yesterday it was voted to abandon the Milton Fruit-growers' Union and the Walla Walla Valley Fruitgrowers' association and to establish a new shipping agency, to be known as the Milton Fruitgrow-ers' association.

Shipped Carload Sheep—Swagert & Mills of Ione yesterday shipped a car of sheep to the Portland market, selling them at 5 1-2 cents.

Grain Bags Stronger—According to Portland quotations, grain bags are now selling at eight cents there, the market being a trifle stronger than a few days ago.

Railroad Change Opposed.
SPRINGFIELD, Ore., Feb. 10.—The Business Men's club of this city met and sent resolutions to Governor West in regard to action taken by him in calling a meeting to investi-gate the action of the federal govern-ment in regard to dissolution of the Southern Pacific and Central Pacific railroads. The message to the gov-ernor is signed by John Kestley, president, and J. A. Seavey, secretary of the club.

The club went firmly on record in opposition to the government's plan to unmerge the two railroads, urging that the business interests of the two states would suffer if the two rail-road systems are separated.

Roseburg Starts "Dry" Campaign.
ROSEBURG, Ore., Feb. 10.—"Ore-gon Dry in 1914" was the keynote of a monster mass meeting held at the First Presbyterian church here. J. M. Glass, a temperance orator of some note, delivered an address, in which he scored liquor and its advocates. It is estimated that fully 600 people attended the meeting. Mr. Glass' ad-dress practically opened the state-wide campaign for a "dry" regime, as far as Douglas county is concerned.

Women to Swat the Fly.
GRANTS PASS, Ore., Feb. 10.—The Ladies' Auxiliary of the Commercial club has decided to carry on a swat-the-fly campaign. Thirty-five dollars was contributed by the club to start the movement.

Another important matter to come before the ladies was that of park-ing the public school grounds. Profes-sor Gregg of the agricultural col-lege from Michigan, is likely to do the landscape gardening. Last year the auxiliary planted several beds of roses.
