Master Arthur Bramwell and sister, Gladys, left this morning for Pendleton, where they will visit at the home of Mr. and Mrs. D. C. Graybill until Sunday.—La Grande Observer.

LAUNDRY IS EQUIPPED IN AN IDEAL FASHION

J. E. Robinson Anticipates New Laws and Improves Plant to Meet Demands—Has Spent Thousands of Dollars in Past Year in Modern Machinery.

J. E. Robinson, proprietor and owner of the Domestic Laundry, has just completed a year's program of improvements to buildings and equipment which makes him the proud master of one of the best plants of its kind in the northwest. He has spent a good many thousand dollars in this work but believes the investment will be a profitable one to him.

The changes in his laundry are the result of his foresight, being made to meet the new standards established by new laws. Two years ago he saw the drift of legislation and set about to get his laundry in condition so that he could operate it in conformance with the new demands and still realize a profit from his business. The changes in his building and the addition of new machinery has taken the teeth out of the nine-hour, employer's liability, minimum wage and sanitation laws.

The addition which he built to his brick building on the corner of Court and Thompson street as well as the purchase of an additional lot has more than doubled his floor space so that there is no congestion any place. Every worker has plenty of elbow room. By means of high windows and big fans, a system of ventilation that gets rid of the steam and suffocating heat has been introduced that takes the laundry far out of the sweatshop class.

Most Improved Machinery. The new machinery which gives Mr. Robinson almost a complete new equipment, has been arriving at intervals during the past year but last week the last and largest shipment arrived and is now in place. It consisted of an entire carload. The principal piece of machinery in this car was one of the Troy Laundry Machinery Company's famous Trojan Flatwork Ironers for ironing sheets, pillowslips, towels, napkins, etc., being the modern successor to the old styled mangle which has been a terror in name and fact to laundromen for many years.

The machine weighs over five tons and is a huge affair. It has an ironing width of 120 inches which means that three feeders can be used at all times, two on sheets, and one on towels or napkins. With towels and napkins not over 19 inches wide, six feeders can be used. Inasmuch as a folder is required opposite each feeder and four shakers necessary, sixteen workers can be used at one time on this machine at rush times such as during the Round-up. And one of the beautiful features of it is that these workers are protected from injury by a guard rail in front of the rollers which throws the entire machine out of gear as soon as the hand touches it.

This style of Trojan ironer has a capacity that can hardly be overtaxed. One of these machines in the laundry of the Blackstone Hotel, Chicago, turned out 16,270 pieces in 10 hours and one in the Middlesex Steam Laundry of Lowell, Mass., 6000 towels in one hour. Besides having the capacity, the machines do superb work, giving a finish equal if not better than the average hand work and at one-fourth the price.

In addition to the flatwork ironer, included in the car last week were a Huebsch clothes dampener, a machine that throws a hot spray over the starched goods and prepares them for rolling in a cotton blanket for seasoning, a collar and cuff ironing machine, collar shapers and body irons.

With this modern machinery, Mr. Robinson is able to work his employees the nine hours, which is the limit placed by law, and still get out his work for his patrons in this city and other parts of eastern Oregon without delay. He is now employing thirty people in his plant and his weekly payroll runs from \$325 to \$400. Some of his employees have been with him for twelve and fourteen years and it is upon them as well as his new improvements that he relies for efficiency of service.

BULGIN GIVEN OVATION WHEN HE OPENS MEETINGS

(Continued from Page 1.)
men, get that. I have used a woolen-wool known your town for many years. I have my way of hitting sin, but not the town. I ask your help in hitting these sins hard. The moral town will grow, it will enhance the values of business and real estate.

Pardon me, but I am long in different ways. Besides being six feet two, I am from the mountains of North Carolina. I am a "Tar Heel." That tar is still on my heel and it sticks to the platform pretty long. While assistant for Dwight L. Moody in Chicago, I preached for two years in the penitentiary. Though I often spoke for two hours, they were very respectful; nobody went out. I may preach long, but we want to lay foundations first. Men won't endure too much sound doctrine these days, and begin to get restless under it. When many left homes in the east they said, "Good-bye, Jesus." Now we want to meet him again. I don't intend to frighten anybody with death bed stories. I repeat, my method of work is to love everybody, to hit sin hard, to make Pendleton a better place for you and your children to grow up in and to invite strangers to live in, to buy your products and real estate. I remind you, as I intimated, I am from the south. There we are never really well acquainted until our feet meet under the same table a time or two.

For a theme last evening Dr. Bulgin took "The Impossible Demands of Unbelief." To follow Dr. Bulgin and

A Big Carload Just Received, of Fresh Poultry Supplies

Everything in foods, tonics and remedies for your chickens and stock now to be found here in endless variety.

Our stock is large, yet kept fresh by fast selling. Low prices account for this and our low prices are made possible by our buying direct from the largest wholesale houses on the Pacific coast in carloads for spot cash and thereby getting jobber's discounts.

Our goods are guaranteed to be of the best.

The hen is a noble bird, but it takes Proper Food to Make the Hens Lay

The analysis of the dry matter in any egg averages: protein 12 per cent, carbohydrates 11 per cent, shell and ash 11 per cent.

On this basis our "EGG PRODUCER" is composed and constructed—first, to nourish the hen's body, and second, to provide additional material and energy from which she constructs and presents you with eggs. All experienced poultrymen will bear witness: To get eggs, the feed you give your chickens must contain the right amount of the right food elements in digestible form; otherwise, NO EGGS.

The hen is a noble bird. Her worthy inclination to reproduce the species gives millions of people eggs for breakfast. YOU must provide her with the proper foods to get best results for all concerned.

Tone up your hens now for Spring hatching

To get good, strong and health chicks that will mature into good profitable layers you should commence at once to put your pullets into the prime of condition—we have all the necessary ingredients.

TRY OUR PLANT FOOD, an odorless fertilizer for house and potted plants—it does the work.

KORINEK'S STOCK FOODS AND TONICS. Every farmer needs these to put his stock in good condition for spring work.

ALFALFA LEAVES AND BLOSSOMS, a ground-up green natural food free from stems, for old and young chicks.

We sell the BEST, laid down in Pendleton at lower prices, and guaranteed.

Public Notice.

To all whom it may concern: I will not be responsible for any bills or debts contracted by Annie Kriser from the said date of notice.

PETER KRISER. (Adv.) Feb. 16, 1914.

TROOP HORSES POISONED.

Strychnine Found in Water During Pursuit of Mexicans.

EL PASO, Tex. Feb. 20.—The presence of strychnine in the water given some of the horses of the American troopers on guard at Yaleta was discovered.

Three horses died Wednesday night when the Americans were rushed to Yaleta in pursuit of the Mexican federal recruits who escaped across the river. Since then seven more have died and a post mortem examination disclosed the cause.

WILLIAMS IS PREPARED FOR COMPTROLLER'S WORK

WASHINGTON, Feb. 20.—With the federal reserve bank organization committee expected to return here on Sunday, from its trip through the West where regional bank hearings were conducted in many of the big cities, Acting Secretary John Skelton Williams today was prepared to step into his new position as Comptroller of the currency. Immediately after the committee returns he will resign as assistant secretary of the treasury and be inducted into his new office.

More than one-half of the money derived from England's income tax is collected from Londoners.

DRYS USE MOVIES TO HELP THEIR CAUSE

NEW YORK, Feb. 20.—The Presbyterian church will send 250 temperance workers into Washington, Oregon, California and Colorado in an effort to swing these states into the "dry" column at the next fall election.

They take with them motion picture films teaching lessons against the sale of alcohol. Plans for the crusade were perfected today at a meeting for the Presbyterian board of temperance.

POOL HALLS ARE OUSTED.

Students at University of Kansas Can Play No More.

LAWRENCE, Kan., Feb. 20.—Temptations of the pool hall are to be unknown to the students of the University of Kansas after the present year.

The Lawrence city council last night passed an ordinance ousting the halls January 1, 1915. Thousands of citizens have signed petitions for the abolishing of the pool halls, declaring them detrimental to the youth of the city and the university students.

"Pink Tea" Held Illegal.

BUTTE, Mont., Feb. 21.—County Attorney McCaffery rendered an opinion to the county commissioners that the proposed pink tea to be given Saturday in the offices of the commissioners to the women of Butte as they enter the courthouse to register for the approaching school election will be a violation of the corrupt practices act passed by the last legislature.

The county attorney further states that if the tea is held as planned and complaints are made to him he will prosecute the women promoting the tea and those accepting a drink.

To Regulate Vivisection.

WASHINGTON, Feb. 19.—Senator Gallinger said he would introduce a bill regulating vivisection more strictly and making medical experimenting with human beings a felony.

The Skin and Not the Blood.

Until recently it has been a generally accepted theory that eczema is a disease of the blood. Scientific investigations have taught us that eczema is positively a skin disease and curable through the skin alone. Meritol Eczema Remedy is applied directly to the diseased skin. Do not delay trying Meritol Eczema Remedy.

A Strong Indorsement.

W. H. Holmes of the Decorah, Ia. Journal, says: "I have been a sufferer from Piles and Hemorrhoids for years. I got no relief until my druggist recommended Meritol Pile Remedy. Before I had taken half the package the distress was gone and I have had no trouble since. I would not take a thousand dollars and be back in former condition."

TALLMAN & COMPANY Exclusive Agency.

FRENCH COUNTESS'S COSTUMES STARTLE WASHINGTON SOCIETY

Countess de Bertier, wife of an attaché of the French Embassy at Washington, has started society with her costumes direct from Paris. Having just arrived, the countess comes with the latest things turned out by the Paris designers, and she has shown some of her extreme fashions.

While many women in Washington wear fashionable clothes, they had not seen anything except in pictures, just like the countess wears. The position of her husband, of course, brought her into society at once, and the matrons and young women have watched her many changes with great interest.

Students at University of Kansas Can Play No More.

ADDITIONAL SOCIETY.

A pleasant surprise was given Mrs. Harold Stewart at her home by about thirty ladies of the Baptist church Aid Society, the occasion being her birthday. The afternoon was spent in conversation, music and sewing. Mrs. Stewart was the recipient of a beautiful potted plant. Those present were Mesdames Wilcox, Goedecke, Hall, Lampkin, Jones, May, Priest, Martin, Brown, March, Bentley, Ferguson, L. E. Penland, C. E. Penland, Will Penland, Davis, Myrick, C. Stewart, Miller, Norris, and the Misses Gibson, Hall, Martin, Daphne, and Marie Stewart. Delicious refreshments were served.

The Cause of Love.

PARIS, Feb. 21.—Because a walnut went to Germany instead of England a romantic young French girl is being overwhelmed with offers of marriage from Germans, much to the disgust of her patriotic relatives. During the Christmas festivities at Halle, Germany, a wealthy manufacturer had a huge Christmas tree laden with presents, candies, etc., and when the tree was being dispensed one of the guests took a walnut from the branches. Instead of a kernel, the surprised German found a letter in French signed "Alfredine Maurand, of Tureane, France." The letter stated that Alfredine, having finished her school studies, wanted to perfect herself in the English language and wished to enter into correspondence with a young Englishman, and she hoped that chance would cause the walnut to reach some such destination.

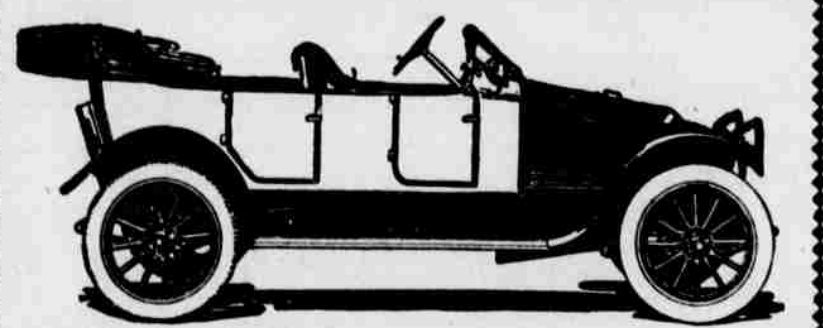

OAKLAND WILL TURN PUBLIC UTILITIES OVER

OAKLAND, Cal., Feb. 21.—Oakland has voted emphatically to turn over the control of its public utilities to the state railroad commission, with the exception of its water front, of which it retains control. The vote to give the state control of the public utilities was won by more than 2 to 1.

The vote to retain control of the water front will add great impetus to the important work now being done and an early completion of the inner harbor. This work, on which the government has spent more than \$4,000,000 and the city \$2,500,000 will be completed in time to handle the big increase in traffic that will follow the opening of the Panama canal.

Indoor Meet at Pittsburgh.

PITTSBURGH, Feb. 21.—Short dashes, relays, distance runs and broad and high jumping were features of an indoor athletic carnival held here today by the Pittsburgh Young Men's Christian association. The meet was staged at Duquesne Garden and more than 100 athletes of the association participated.

Six-Thirty Touring Car

The New Six-Thirty Franklin \$2450 Weight 2725 pounds

It is the hammer, hammer on the hard highway that kills the tires on the ordinary car.

The resilient Franklin does not hammer the tires. It is the best sprung, easiest riding car in the world.

The Franklin weighs 2725 pounds and is the only really light high-grade six-cylinder car on the market. It is equipped with 4 1/2 inch tires, the size you find on two ton cars, and gives phenomenal tire mileage.
