TWO TIMELY VIEWS OF THIS STORE FOR MEN

The Style View

WE HAVE SELECTED from the leading styles of the leading makers because we know your wants. Some of you wish a touch of the extreme—some the more conservative.

WE KNOW THAT GOOD STYLE exists in both extreme and conservative, and we have brought it here for you.

YOU ARE TO JUDGE how well we have served you. We want you to look at the new spring styles—buy or not as you please.

The Business View

YOU BUY AND CONTINUE TO BUY where you receive the largest degree of value. We are thinking of the broad definition of the word "value"—cost value service value, all combined.

THIS STORE AIMS TO SERVE YOU in this broad-value way and the early season buyer derives most from service and satisfaction. This more than offsets the saving in buying late season pickups. Why be uncomfortable for two or three months—buy early while choosing is good.

NEED WE SAY MORE? THE GOODS ARE HERE—THE WELCOME SIGN IS OUT.

SOCIETY

Pendleton society was out en masse yesterday morning at Round-up Park to get a glimpse of grand opera. Plenty of glimpses were afforded but never a word of song for the operatic stars of the Chicago Grand Opera Co. were at the park to be entertained and not to entertain. However, local people took much pleasure in watching the visitors and speculating upon which was which. The one disappointment was that Mary Garden, the star whom all most wished to see, did not get out of bed to see the wild west show improvised by the Round-up directors on a moment's notice. She may have wanted to see it but when she retired to her berth after presenting "La Tosca" to a Portland audience, she gave orders to her maid to awaken her not at all. An effort was made here to have her aroused by some members of the troupe but the maid knew her temperamental mistress too well to disobey orders.

Hon. and Mrs. Levi Ankeny, Mr. and Mrs. John Ankeny and their little daughter, Jane, motored over from Walla Walla yesterday to spend the day at the home of Mr. and Mrs. Nesmith Ankeny. A birthday dinner in honor of Mrs. Levi Ankeny and Levi Ankeny, Jr., son of Mr. and Mrs. Nesmith Ankeny, was enjoyed.

Mrs. B. E. Harder, formerly Miss Bessie Duncan, is visiting here this week as a guest of Mrs. Lee Moorhouse. Mr. and Mrs. Harder are to start soon upon a trip around the world.

A picture of Mrs. Walter McCredie, wife of the Portland baseball manager, appears in this morning's social news in the Oregonian. Mrs. McCredie is a daughter of George Horseman.

Mr. and Mrs. Percy Folsom moved yesterday to Burnham where they will make their home. Mr. Folsom having taken charge of the Smith ranch at that place.

Mrs. Lee Moorhouse has received news of the birth of a daughter to Mr. and Mrs. J. L. Parker. Mrs. Parker is a daughter of Major and Mrs. Moorhouse.

Mr. and Mrs. Mark Moorhouse and Mrs. Richard Mayberry, who have been visiting at the Strand ranch, returned this morning.

Miss Eleanor Beam entertained a number of her little friends Saturday afternoon, the occasion being her eighth birthday.

Miss Bess McPherson returned this morning to Hermiston after spending Sunday at the home of her parents in this city.

Mrs. George Gillette returned this morning from Pasco where she visited during the week-end.

The Care of Children

The Care of the First Teeth.

The care of the teeth begins when they are but two. The softest toothbrush it is possible to get, baby size, is purchased, and the teeth brushed night and morning. Later the brushing is best done after each meal. Tooth-powder should not be used, but a mild antiseptic is added to the water. The teeth are brushed up and down as well as from side to side. Pay as much attention to brushing the gums as you do the teeth; it keeps them in good condition. It is not necessary to pass a thread between the teeth, if their contour is good, but if they are irregular or have once started to decay, use the thread after each meal.

The causes of decayed teeth are three in number: errors in diet, lack of proper cleaning, and disease, by which I mean the absence of hard, chewable food in the diet. The diet should be nourishing and contain the proper proportions of meat, eggs, vegetables, fruits, starches and fats. There should be no eating between meals, and a minimum amount of sweets should be taken. Cereals and soft, mushy food should not be given to the exclusion of hard food. Bread toasted in the oven, zwieback, hard crackers, are an important part of the dietary, and they should be chewed without masticating, so the child can harden his teeth.

When there is a decayed spot in the first teeth, it should be filled at once. The teeth should thereafter be inspected once or twice a year by a dentist. The temporary teeth should not be extracted before their time unless it is absolutely impossible to fill them. Remember that the six year old molars are permanent teeth, and take special care of them. Brittle teeth are sometimes caused by adenoids. Protruding teeth are most often caused by finger-sucking. Irregularity of the second teeth should be attended to by the dentist.

Don't Worry About Summer Teething. Teething during the summer is often dreaded by the mother, but if her child is properly nourished and well cared for, she need not fear any great amount of disturbance. Teething is a natural process, as normal as the development of the bones or muscles or any part of the body; but it is so easy to say a child has this or that, because he is teething. It is in the great majority of my cases that I see much disturbance from this cause. Perhaps a few days' discomfort is experienced, and the tooth comes

through. However, when the gums are red and swollen, and the child is irritable or even sick from the discomfort, we should help the eruption of the tooth by rubbing the inflamed gums with a rough towel. Such a procedure is usually welcomed by the uncomfortable baby, and may bring the tooth through quickly.

Home Hints and Recipes

Time Saver for Sewing Room.

A supply of extra bobbins for your sewing machine may be bought for a few cents each, and saves much time that is ordinarily spent in emptying and refilling, writes a contributor to the Delineator. I keep eight on hand for staple sewing, filled respectively with white cotton from 50 to 100, and white and black silk, with six others for special work. A convenient rack for keeping bobbins so that the white thread may be numbered may be made from a small block of wood with parallel grooves, each groove made to hold one bobbin, and numbered with the size of its thread. If for circular bobbins, a strip of wood with nails driven into it so as to stand up will answer the purpose and each nail may be numbered at its base with the size of thread that its bobbin is to carry.

Boys' Blouses.

When boys' blouses are brought ready-made, it is a good plan to cut off the narrow hem, and sew on a narrow belt that just fits around the waist, says the Washington Herald. Finish with button and buttonhole. The time saved afterward, putting in strings, more than repays for the few minutes' work required to alter blouse.

GLORIOUS HAIR

Girls and women of all ages want to be beautiful and attractive, but unsightly, thin and lifeless hair, destroys half the beauty of a pretty face.

If your hair is losing its natural color, is falling out, dull, streaky, full of dandruff, too dry, or if the scalp itches and burns do not be alarmed, use Parisian Sage. Rub it well into the scalp. It will go right to the hair roots, nourish them, and stimulate the hair to grow long and beautiful. It removes dandruff with one application, stops itching scalp, falling hair and makes the head feel fine. Parisian Sage supplies the hair with what is needed to make it soft, fluffy, thick and gloriously radiant. It is sold in fifty cent bottles by Tailman & Co. and at all drug counters. Look for the trade mark—"The Girl With the Auburn Hair." Accept no other.
