At night baby should wear a clean band and shirt, napkins, long flannel nightgown and booties. Restless children require more clothing than those who sleep peacefully. They should be provided with felt gowns long enough to be turned up at the bottom and fastened with buttons. In houses where the temperature falls below 60 degrees Fahrenheit, a flannel jacket may be worn over the nightdress. Warmly dressed in this manner, the bedroom windows may be safely left open an inch or two at the top and bottom without there being any fear of the baby taking cold.

SOCIETY

The first meeting of the Luncheon Bridge Club since the beginning of the Lenten season was held last Friday at the home of Mrs. Tillman D. Taylor on College street.

One of the happiest evenings of J. B. Coleman's life was spent by him yesterday and it was all unplanned and unanticipated by him. The occasion was made by others, his co-workers in the Baptist church. Thirty-seven of them walked in upon him at his West Court street home unannounced to give him a farewell party, as he leaves tomorrow evening for Kentucky for an extended visit. The evening was pleasantly spent in games and with refreshments and, as a climax to the enjoyment, Mr. Coleman was presented with a beautiful silk umbrella upon which his name had been engraved. The speech of presentation was made by G. E. Mason and the recipient of the gift was much moved.

Mrs. Julius Roesch returned this noon from a two weeks' trip to Portland, Walla Walla, Pendleton, Pilot Rock and other cities. During their stay in Portland they visited with their daughter Louise and their son Marcus, who is attending Columbia University. In Pilot Rock, Mr. Roesch visited with his sister, Mrs. Matthews, whom he had not seen in twenty-five years. Mr. Roesch did not return this noon, having been detained with business matters. He will return tonight.—La Grande Observer.

Miss Rachel Martin, daughter of Mr. and Mrs. C. H. Martin, will leave tomorrow for Michigan to spend the summer on the farm of her aunt, Miss Martin last winter suffered an almost fatal attack of typhoid and, though she has fully recovered from the disease, she has not yet entirely regained her former strength and a few months of farm life her parents think will be beneficial to her.

Mrs. Ida Hunziker of Portland, who came up last week to attend a dancing party in this city, has been visiting in Walla Walla for the past few days as the guest of Mrs. Victor Hunziker. Both ladies are expected over from that city today to remain the balance of the week here.

Mrs. C. S. Jerard is entertaining the ladies of the South Hill Bridge Club at her home on South Main street this afternoon.

Mrs. Ada Spencer and daughter, Miss Grace Spencer of Astoria are in Pendleton and will remain through the summer.

Mrs. J. G. Miller left this morning for Cecil near which place her husband owns a ranch.

Mr. and Mrs. Abner White and son have returned from Walla Walla where they spent a month.

Home Hints and Recipes

Home Helps.
When it is necessary to beat upholstered furniture and it cannot be taken outdoors, a good way is to cover it with a damp cloth and beat; the dust clings to the cloth.

When using a dish pan, turn the handles so that the dishes will not be nicked by striking against the handles.

Coarse sand paper kept near at hand will save much scraping of dishes which are scratched.

When hemming children's dresses on the machine use very fine thread, then when the time comes for lengthening a pull will break the threads.

Underskirts made of the same kind of goods as the work dress are neat and always look better than a petticoat of another color.—St. Louis Star.

Fired Furniture.
It is now considered desirable to have much of the furniture built in to save buying, says the Philadelphia North American. This also preserves a consistent decorative scheme. In the construction of houses fireproofing is given renewed consideration because of its excellent decorative possibilities.

More Knockers.
We have heard a great deal about the quaintness of the door knocker, but not until now have builders given it a practical place in building plans.

The result is that the interior door knocker is specified for this and that door among the details of the house plans.

The Care of Children

As for a baby's clothing in hot weather, the most important thing to be remembered is that at all times the head should be kept cool and the feet warm, no matter how hot it may be, for there is nothing that will cause colic sooner than cold feet. Also, that no matter how warm it is, so that no matter how warm it is, the little flannel shirt and band should be left on, as it is absolutely imperative that there be flannel next to a little baby's skin. On the other hand the unnecessary swathing of a baby in flannel is to be avoided, and even if the weather is not intensely hot, the baby need not have on both its flannel petticoat and flannel pinnings-blanket. When the flannel petticoat is worn the white one is not necessary, or if it has on its pinnings-blanket the flannel petticoat may be left off and a white one substituted.

TELEGRAPHIC BRIEFS

PORTLAND, April 21.—Following a series of conferences with Police Chief Clark and City Physician Zeigler, Municipal Judge Stevenson announced that users of health destroying drugs are to be treated at the city's expense under municipal supervision. It is believed this will be the first time a city has directly undertaken the reclamation of drug users.

SALEM, Ore., April 21.—State Treasurer Kay is preparing to issue a call for all outstanding state warrants endorsed prior to January 1, 1914. These warrants amount to about \$425,000. This will leave \$675,000 of warrants still outstanding and drawing interest at the rate of six percent.

SALEM, Ore., April 21.—That he will take personal charge of a campaign for initiating constitutional amendments and measures intended to bring relief to the taxpayers after the primary election May 15, was the announcement of Governor West. These measures will provide for the abolishment or consolidation of various offices and boards and commissions, which he believes are useless or extravagant under existing conditions.

Union Campaign is Slow.
Little Interest Shown in Election to Fill County Offices.
LA GRANDE, Ore., April 21.—Little interest has been shown in the coming election to fill the county and precinct offices and with the exception of three or four important offices, the filing of candidates practically indicates their election.

QUIT MEAT IF YOUR KIDNEYS ACT BADLY

TAKE TABLESPOONFUL OF SALTS IF BACK HURTS OR BLADDER BOTHERS.
We are a nation of meat eaters and our blood is filled with uric acid, says a well-known authority, who warns us to be constantly on guard against kidney trouble.
The kidneys do their utmost to free the blood of this irritating acid, but become weak from the overwork; they get sluggish; the eliminative tissues clog and thus the waste is retained in the blood to poison the entire system.

When your kidneys ache and feel like lumps of lead, and you have stinging pains in the back, or the urine is cloudy full of sediment, or the bladder is irritable, obliging you to seek relief during the night; when you have severe headaches, nervous and dizzy spells, sleeplessness, acid stomach or rheumatism in bad weather, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning and in a few days your kidneys will act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys, to neutralize the acids in urine so it is no longer a source of irritation, thus ending urinary and bladder disorders.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink, and nobody can make a mistake by taking a little occasionally to keep the kidneys clean and active.
