NEWS OF FARM AND RANGE

ENGLISH MILLS ARE AFTER COAST WOOL

FIRST TIME IN HISTORY INQUIRIES COME AS TO NORTH-WEST CLIPS.

Bradburn Interests Attracted by Lower Level Here Than Abroad—Wool Market Stronger Than Growers Realize.

Every day that passes brings fresh evidence of the fact the wool market is stronger and that northwest growers are not yet being offered prices really justified by the eastern market and by the English market. Prices are advancing, however, and the market is firmer than some growers realize as the buyers are making efforts to minimize prices.

The most startling news today is

that foreign interests are taking an interest in Pacific coast wool, attracted by the fact the price level is lower here than abroad. A story in last evening's Journal said:

Indications are pointing rather strongly to business in wool with foreign interests in American markets before long. Already there are reports that Bradford, England, firms are inquiring regarding supplies on the Pacific coast, and it is said to be the intention of the foreigners to purchase wool on the Pacific coast in competition with the Boston, Philadelphia and New York interests.

With English woolen prices still considerably above the American parity, even though quite liberal advances have been made here to date this season, the foreign interests intend to go after American offerings.

While no confirmed sales are reported as yet to English interests to date this season, the fact that Bradford houses are inquiring leads to the conclusion that they are very much interested. This is the first time known that English interests have even inquired regarding the Pacific coast woolen trade.

L. A. Esteb, attorney for the ladies who comprise the Ladies' Club of No. 10, has filed a motion to set aside the verdict secured last week by Thomas Kerr against his client on the grounds that the jury disregarded the law and the instructions and on the grounds that the club was not a legally organized corporation.

The local school will have a contestant in oratorical contest to be held in the evening. He is Ernest Crockett. The oratorical contest is to be held in the high school auditorium.

Some Literary Gem.

Speaking of literary gems, Walter Adams, local agent for the Northern Pacific, has received a letter from a workman asking for a time check and it shows originality. It follows: "Will you kindly please let me know if you can do for sent my Check Money orders let me know I could sent my Identification. If you don't please keep him for me to pay day 15 of April. I set my Number 80 you be sure of time check 27. I remain your answer, yours truly."

Work May Be Delayed.

Owing to the fact work on the pipe line of the new water system is not progressing as fast as originally expected the gravity system will probably not be completed by June 1, says Engineer Frank C. Kelsay who made a trip of inspection over the system yesterday. The work on the conduit along the bluff near Thorn Hollow is now proceeding faster than formerly and Jeffrey & Burton have their contract two thirds completed. The work of laying the main pipe line may also be delayed unless the contractor makes use of more pipe making molds than at present. He is now using 80 molds but the manufacture of the pipe cannot keep up with the work of laying the same.

"Dogs Is Dogs"

A dog is a dog regardless of age, shape, pedigree or tone of voice. That is virtually the ruling of City Attorney Charles H. Carter and he has advised Harry Hart, the dogcatcher, to be no respecter of canines. The ruling is brought about by the fact that most residents have had the impression that pups under six months of age are exempt from taxation. There

is nothing in the ordinance that the city attorney can find to warrant this impression and he has promised to prosecute all who refuse to pay the license fee because of an age limit. William Mosby, a colored employe of the Warren Construction Co., was the first to be arrested and he promptly paid up. A number of other pup owners have done likewise today.

Hold-up Men Are Next.

Montgomery and McDonald, the two men alleged to have held up a man in this city in broad daylight a week ago Sunday, will come up for trial next in the circuit court.

Young Man Arraigned.

Donald Phelps, a young man of Milton, was arraigned last evening on a charge of giving liquor to a minor girl. The young man claims that the only time he ever gave liquor to a girl was once in Walla Walla when he gave a girl a drink of blackberry brandy and if investigation proves this to be true, the charge will probably be dropped, inasmuch as the act was done outside the state.

Crockett Is Winner.

In the tryout to select a representative of the Pendleton high school in the county oratorical contest next Friday, Ernest Crockett yesterday was declared the winner. The tryouts were held with the faculty members as judges. Young Crockett has had a good deal of experience in public speaking and has a splendid delivery. The oratorical meet will be held in connection with the county track meet to be staged in this city Saturday.

Will Improve Between Tracks.

That the Northern Pacific will start May 1 to improve two blocks of the company's track on Webb street by use of vitrified brick was stated yesterday by E. C. Blanchard, general manager and T. C. Coyle, superintendent, who were here during the day. The paved district will be between Garden and Cottonwood streets. The right of way not planked within the city limits will be planked.

Two Are Found Guilty.

Both Frank Van Loten and Lafayette Christian were yesterday found guilty of the charges against them, Van Loten of soliciting minor girls and Christian of non-support. The jury in the former case was out about three hours while Christian was found guilty of neglecting his family in a short time. Both will appear tomorrow morning at 9 o'clock for sentence and at the same time Mrs. Mildred McFadden, convicted of larceny, is scheduled to appear for sentence.

School District Not Liable.

By a decision of Judge L. T. Harris, acting for Judge Phelps, the Pendleton school district is held not liable for the \$200 bill which the high school contractors left unpaid with the Northwest Steel Co. Judge Harris sustained the demurrer filed by Charles H. Carter, attorney for the district, and this practically disposes of the case unless appeal is taken. The contracting company became insolvent and thus was unable to pay the Northwest Steel company, which held the district liable.

Returns From Convention.

Supt. J. S. Landers of the local schools and E. L. Smith, a member of the Pendleton school board, have returned from Spokane where they attended the annual convention of the Inland Empire Teachers' association. Supt. Landers states the convention was perhaps the most successful in the history of the institution. Mr. Smith was one of a committee selected to determine whether or not the school directors should meet each year with the teachers. The next convention will probably be held at Spokane also. President Geo. A. Black of the Idaho state normal school was chosen president for the ensuing year. Supt. Landers was chosen as third vice-president and thus placed in line for the presidency.

Plant vs. Eggers Case On.

The jury is today listening to evidence calculated to fix the responsibility for an auto collision on Court street about a year ago. The cars of Walter Planting and John Eggers came together at the corner of Court and Johnson and both cars sustained some damage. Planting claims it cost \$255 to put his car back in shape. Both charge the other with negligence while asserting proper observance of the rules of travel for himself. Judge Lowell and Col. Raley are the opposing attorneys and Judge Harris is trying the case in order to permit Judge Phelps to listen to the arguments on the demurrers to the indictments returned against saloonmen.

INDICTMENT DEMURRERS ARGUED BEFORE COURT

Contenting that under the home rule amendment, the city has exclusive control over the liquor traffic within its corporate limits, attorneys for the seven local saloonmen under indictment for selling liquor to minors, this morning entered and argued demurrers to the indictments. Judge Phelps, however, overruled the demurrers, refusing to deny the state's jurisdiction over licensed saloons. The attorneys intimated that they would appeal the cases to the supreme court for a ruling upon this point. Judge Phelps has given the defendants until tomorrow morning to plead. Assuming that the pleas will not be guilty, the defendants may either stipulate the facts in the cases or try them out in the local court before appealing. The same point was raised last summer when Governor West's agents arrested a number of local lodging house and restaurant keepers on charges of selling liquor on Sunday. Judge Phelps at that time made a like ruling and the defendants thereafter pleaded guilty.

nightfall he will give the powers advance notification of a blockade at Vera Cruz. The notification, it was stated, will precede the actual establishment of a blockade probably by 24 hours.

WASHINGTON, April 21.—Numerous rumors were current during the cabinet sessions today. HUERTA DECLARES HE WILL PROTECT AMERICANS

MEXICO CITY, April 21.—Americans have anxiously awaited news from Washington today regarding the action taken by congress in response to the president's message. Huerta assured the American transportation committee that even if war comes he will give Americans all possible aid. Sir Lionel Garden, recently appointed British minister to Brazil, is expected to reach Mexico City during the day. Diplomats hoped he will persuade Huerta to yield to the United States, but they doubted that the dictator would be influenced to accede to the demands.

Americans in Danger.

WASHINGTON, April 21.—Fears are expressed in official circles that the inhabitants of American towns on the northern Mexico border are in danger. Garrison admitted that telegrams from two towns have been received saying that murder and rapine are apprehended. General Bliss has been instructed to furnish military protection if necessary.

FORMER LOCAL MAN WILL FACE CHARGE OF LARCENY

DR. F. M. COE WILL BE BROUGHT BACK HERE UNDER AN INDICTMENT.

Just when he was about to enter into a proposition with the business men of The Dalles to stage a pseudo-Round-up in that city, Dr. F. M. Coe, former local veterinarian who recently went into bankruptcy, was snatched by the arm of the law and will be whisked back to this city to face a charge of larceny by bailfe.

He was indicted by the last grand jury but when the officers went to look for him, they learned that he had vanished supposedly for Spokane. It is charged that he sold a team of horses not belonging to him but which had been placed in his charge. It is said that he was authorized to sell one of the horses but instead sold both and kept the proceeds.

This morning a local business man received a call from a business man of The Dalles asking information relative to the standing of Dr. Coe in this community. The sheriff's office was consulted with the result that instead of sending down a certificate of recommendation, Deputy Sheriff Estes telephoned Sheriff Chrisman to take Coe into custody. Thus it was that the meeting scheduled for 10 o'clock was minus one of the principals and the proposed wild west show died aborning.
