LIGHTNING CAUSE OF MANY FOREST FIRES

NATURE'S ELEMENT RANKS NEXT TO RAILROADS IN DESTRUCTION.

WASHINGTON, May 1.—Exhaustive inquiry has established the fact that lightning ranks next to railroads as a source of forest fires. Forest officers say that the increasing care with fire on the part of the railroads and the public generally tends to make lightning the largest single contributing cause.

This statement represents a change of view from that held less than a decade ago in this country when forest journals gravely argued whether lightning caused forest fires, though it was known that trees were the objects most often struck. Trees are said to be often struck simply because they are so numerous, and extending upward they shorten the distance between the ground and the clouds; further, their branches in the air and roots well into the earth invite electrical discharges.

While certain trees are said to invite lightning and others to be immune from stroke, it seems to be a fact that any kind of tree will be struck, and the most numerous tree species in any locality is the one most likely to suffer.

Other things being equal, lightning seeks the tallest tree, or an isolated tree, or one on high ground. A deep-rooted tree is a better conductor than a shallow-rooted one, and a tree full of sap, or wet with rain, is of course a better conductor than a dry one.

Lightning sets fires by igniting the tree itself, particularly when it is dead, or partly decayed and punky, or by igniting the dry humus or duff at its base. The forest soil, when dried out, ignites readily, because it is made of partly decayed twigs and leaves, and it can hold a smoldering fire for a considerable period. It is probable that most of the lightning-set fires start in the duff.

OBJECT TO EMBLEM ON ALL DOOR MATS

HARRISBURG, Pa., April 30.—The Daughters of the American Revolution in Pennsylvania were today conducting an active campaign against the use of the state's coat of arms in the walk leading from the capitol to the park here as a "foot mat." The women declare it little short of sacrilegious that people with muddy shoes should trample the emblem.

Be sure to get real Resinol

If you want to get rid of eczema, pimples, or other distressing skin eruption, you will accept no "substitute" for Resinol. Preparations similar in name or appearance are not "just the same as Resinol." Although a few unscrupulous dealers may offer them as or for Resinol, they are often crudely made, of little healing power, and some may even be dangerous to use. Buy in the original blue package.

Sun and Wind Bring Out Ugly Spots.

How to Remove Easily.

Here's a chance, Miss Freckle-face, to try a remedy for freckles with the guarantee of a reliable dealer that it will not cost you a penny unless it removes the freckles; while if it does give you a clear complexion the expense is trifling.

Simply get an ounce of othine—double strength from any druggist and a few applications should show you how easy it is to rid yourself of the homely freckles and get a beautiful complexion. Rarely is more than one ounce needed for the worst case.

Be sure to ask the druggist for the double strength othine as this is the prescription sold under guarantee of money back if it fails to remove freckles.

LADIES! LOOK YOUNG DARKEN GRAY HAIR

USE THE OLD-TIME SAGE TEA AND SULPHUR AND NO BODY WILL LKNOV.

Gray hair, however handsome, denotes advancing age. We all know the advantages of a youthful appearance. Your hair is your charm. It makes or mars the face. When it fades, turns gray and looks dry, wispy and scraggly, just a few applications of Sage Tea and Sulphur enhances its appearance a hundred fold.

Don't stay gray. Look young! Either prepare the tonic at home or get from any drug store a 50 cent bottle of "Wyeth's Sage and Sulphur Hair Remedy." Thousands of folks recommend this ready-to-use preparation because it darkens the hair beautifully and removes dandruff, stops scalp itching and falling hair; besides, no one can possibly tell, as it darkens so naturally and evenly. You moisten a sponge or soft brush with it, drawing this through the hair, taking one small strand at a time. By morning the gray hair disappears; after another application or two, its natural color is restored and it becomes thick, glossy and lustrous, and you appear years younger.
