Ninety-four Franklin Cars Averaged 32.8 Miles on One Gallon of Gasoline

The Story

Franklin dealers all over the United States and Canada with stock Franklin Six-Thirty touring cars conducted a one-gallon economy contest on May 1. In each case the run was made over such a course that the finish was as close to the starting point as possible, and the results were certified to before a Notary Public by both driver and two official observers.

Ninety-four different cars, with as many different drivers, and in as many different places, regardless of weather or road conditions, and with the various grades of gasoline, went on one gallon of gasoline from 17.2 to 51.2 miles.
