BELOVED, IT IS MORN.

Beloved, it is morn! A redder berry on the thorn; A deeper yellow on the corn.

Beloved it is night, Thy heart and mine are full of light; Thy spirit shineth clear and white.

Those who find agony in the workings of the direct primary law grasp at every suggestion

It Must Be offered towards sub-Working Well. In Washington a state convention is being held, not to nominate candidates, but to adopt a platform saying what their various candidates shall think on current subjects.

How kind of these politicians to get together and say what the policies of the republican party in Washington shall be and what public men shall stand for.

When Huerta takes Vera Cruz from the Americans the East Oregonian will announce the fact by sending up a pink balloon with an elephant as pilot.

Success Talks to Young Men—The "Good Fellow."

Don't look askance at the title "good fellow" if it is applied in the right way—with the accent on the "good."

For there are two kinds of "good fellows." If your acquaintances give you that name because you are a "free spender," stand firm!

Whatever may be the secret back of the present assault on the primary law the move is complimentary to that law. Such complaints indicate the direct primary is working well.

Undeniably there has been a deep suspicion of Americans and American motives on the part Learning More of the average Mexican. About Us. It is evidently based on the same logic used by an old Indian chief

According to the Engineering and Mining Journal, the Mexican's hatred of the "gringo" and American contempt for the "greaser" are due to an inadequate mutual understanding between the better types of the two peoples.

In Vera Cruz today, according to most reports regarding the state of local sentiment, the Americans are popular with the better types of Mexicans.

A GEORGIA REFRAIN. "It's hot on high, and it's hot below, And the devil's in the weather when the wind won't blow."

has shown the Mexicans that adventurers and mine owners are not the only Americans. The efficiency methods that had been used in the cleaning up of the former plague spot which now is the Panama canal zone have demonstrated their excellence in Vera Cruz before the eyes of the residents.

Human experience shows that nearly all national antipathies arise because of restricted acquaintance. Where the human race is split up into small tribes, holding little or no intercourse one with another, each tribe hates and fears all the rest.

After half the world has acquired with much difficulty the new dancing steps, or stunts, Group Dancing which ever the right word may be, there now comes the disconcerting news that the dancing style will undergo another radical change.

The fact Villa is to be in supreme command of the troops on the way to Mexico City may greatly hasten Huerta's desire for peace.

The administration can afford to ignore manufactured appeals to let the trust laws alone. The biggest part of our trouble comes from the fact the trusts were left alone too much.

With the warm weather period upon us there is copulation in the fact the new water system will soon be ready for use.

Pastime-Sunday Only. Possibly one of the biggest three reel features ever shown at our theater will take the screen Sunday. It is a Selig special release entitled "The Lily of the Valley."

\$600,000,000 Automobiles

The trade estimates that the sales of automobiles for 1914 will aggregate a total of \$600,000,000.

And yet some pessimists talk about dull times.

It is interesting to note that this immense volume of business has been largely built up through persistent advertising linked with consistent salesmanship

And more enlightening still is the fact that much the larger percentage of automobile advertising is used in the daily newspapers.

The newspaper advertising which in most cases is directly linked up with the name of the local dealer is the sales message that brings direct results.

The automobile is a useful servant, but had there not been such aggressive and intelligent advertising its manufacturers would still be among the infant industries.

Weak Women!

Some women are weak because of ills that are common in Girlhood—Womanhood and Motherhood

The prescription which Dr. R. V. Pierce uses most successfully—in diseases of women—which has stood the test of nearly half a century—is

Dr. Pierce's Favorite Prescription

Take this in liquid or tablet form as a tonic and regulator!

Mrs. Kate D. Richardson, of Beasley, Essex Co., Va., says: "I esteem it a pleasure to testify to the wonderful curative qualities of Dr. Pierce's Favorite Prescription. For some years I suffered greatly with weakness peculiar to my sex. I was treated by several physicians but gradually grew worse. One of my friends told me of the good results of your 'Favorite Prescription.' I went to the drug store and got a bottle, and after taking it with the 'Pleasant Pellets' I commenced to get better. I never knew what happiness was, for I was always sick and complaining and made others as well as myself unhappy. So you see what a debt I owe you!"
