SOCIETY

Dr. and Mrs. F. W. Vincent are sending out invitations for the wedding of their daughter, Miss Eleanor Vincent, to John Thomas Urquhart which will be celebrated on Wednesday, July eighth, and for the wedding reception which will be given at the home, 403 Water street, from 4:30 to 6 in the afternoon. Miss Vincent is one of the most charming and accomplished young ladies of Pendleton and her fiancé, who is now manager of the power company in Vancouver, Washington, was formerly one of the popular young men of Pendleton.

Miss Evelyn Sommerville is in Portland to attend the farewell reception given to President Wilson of Portland Academy by the alumni of that institution. While there she is the guest of Miss Owendine Smith.

Mrs. William Slusher and son, Dale Slusher, left today in their automobile for an overland trip to Portland.

Miss Edna Wissler returned yesterday from La Grande where she was the guest for several days of Miss Irene Murphy.

Col. and Mrs. H. G. Newport of Hermiston, came up from their home yesterday.

Miss Caroline Sharp of Athena, visited in Pendleton yesterday.

Library News

Twenty new books on miscellaneous subjects were placed on the display shelves today.

Bartholomew—Literary and historical atlas.

Bennett—The plain man and his wife.

Conyngton—How to help.

Farewell—Village improvement.

Fowler—Art of letter writing.

Hall—How to get a position and how to keep it.

Hutton—Hot water supply and kitchen boiler connections.

Kenyon—Kindling.

Klickman—Craft of the crochet hook.

McLean—Formation of charity organization societies in smaller cities.

McVey—Making of a town.

Marks—Vacation camping for girls.

Miller—Songs of the Sierras.

Munby—Simple experiments in magnetism and electricity.

Ringwalt—Briefs on public questions.

Roberts—Haunters of the silence.

Root—Automobile troubles and how to remedy them.

Ross—My personal experience with tuberculosis.

Williams—Sunday suppers.

Wolcott—Five hundred ways to help your church.

Home Hints and Recipes

When You Sweep.

For sweeping a room neatly there is nothing like newspaper aid. Take a page of newspaper or other convenient paper, wet in hot water and squeeze until it ceases to drip. Tear into pieces the size of one's hand, cast them all over the carpet, then sweep, and most of the dust in the room, if you use your broom judiciously, will be gathered into the papers. After a velvet or other heavy pile carpet is thoroughly swept, a sponging with ammonia and water will preserve its brightness wonderfully.

Dictates of Fashion.

Washable tulle blouses, prettily embroidered and lined with some faint color, are enchanting.

Children's frocks are made of flowered crepon, one of the loveliest of materials for a little girl's frock.

One of the interesting shades of the season is known as Pafrair rose, a deep pink shading to an almost red.

The color of the moment is "majesty blue," which may be described as a pale hydrangea blue, but must not be mistaken for the pale blue hydrangea.

Indications point toward an extensive use of satin for fall dresses, to succeed in a measure the now favored taffetas. Among the novelties promised are wool black satins available for suitings.

Quite the least inexpensive evening slippers are of plain colored satins, also those of white and black with Spanish and Louis heels. These are variously priced from \$3 to \$5 and \$6, according to the quality of the make.

While slippers guileless of decoration are worn, the addition of embroidery in silks and beadwork are eagerly sought after by those who can afford this decoration. Here is a hint to clever needle women.

Like One of the Family.

Mary, the domestic servant employed in a suburban household the members whereof are not on the most amicable of terms, recently tendered her resignation, much to the distress of the lady of the house.

"So you are going to leave us?" asked the mistress, sadly. "What's the matter, Mary? Haven't we always treated you like one of the family?"

"Yes, ma'am," replied Mary: "Indeed you have, and I've stood it as long as I'm going to."

Accused of Beating Indians.

SAN FRANCISCO, Cal., June 25.—Charges of cruelty to Indian children and of mistreating money belonging to Indians and other complaints have been filed against Thomas B. Wilson, superintendent of the Round Valley reservation Indian school of Hendocino county, Cal., it was learned here. The charges have been forwarded to the bureau of Indian affairs at Washington by J. W. Henderson of San Francisco, attorney for the Indian board of cooperation.

Included in the charges is Omar Bates, a clerk under Wilson, who is said to have whipped Indian children. Bates has resigned and Wilson is said to have made preparations to quit July 1st.

REWARDED FOR WORK AT VERA CRUZ BY PROMOTION

Rear Admiral Frank F. Fletcher WASHINGTON, June 25.—Rear Admiral Frank Friday Fletcher is slated for the command of the entire Atlantic fleet of the United States navy, following the official commendation of his conduct during the taking of Vera Cruz in April. He will succeed Rear Admiral Charles S. Badger who will soon end his fixed tour as first officer of the navy on sea duty. The commander-in-chief of the American navy is ranked only by Admiral Dewey and Rear Admiral Fletcher's promotion is intended to be a direct recognition of his work.

Valuable Convict Paroled.

TOPEKA, June 25.—Edward Madison, convicted in January, 1910, for participation in the robbery of the Milan state bank in Sumner county, was paroled by Governor Hodges.

Madison is a bricklayer and cement worker and it is said his services have been more valuable than those of any other inmate of the prison. When the penitentiary twine plant burned he was made foreman in charge of the rebuilding. He took raw prison laborers, taught them the bricklayers' trade and superintended the construction of the plant. He also built a brick retaining wall in the prison mine.

Four Lost in Arctic Gale.

SEATTLE, Wash., June 25.—Four sailors lost in dories in an Arctic gale from the Seattle coastguard schooner Fanny Dutar are told of in a letter received here from Captain John Grotle of the schooner John A.

The Dutar was fishing off Slime Banks, in Hering Sea, on May 18, the letter says, when a northeast gale swept down on the vessel. Three of the dories were unable to return to the ship. Each had two men aboard. Of the three one was picked up by the gas boat Kenmore in False Pass, Bering Sea. The two men in it were weak from exposure and in need of food. The fate of the four men in the two missing dories is unknown.

Advertising Clubs Close Convention

TORONTO, Canada, June 25.—After sessions lasting five days the annual convention of the Associated Advertising Clubs of America adjourned here. Many of the delegates will remain over and leave early Saturday morning for their homes.

"Tell Me the Secret"

"How do you make such delicious muffins? Mine are always so dry. And if I make the batter thin they fall. How do you do it?"

"I make them about as you do, only I use K C Baking Powder. Mine always turn out well, so it must be the baking powder."

It is the baking powder. To make muffins, cakes and pastry rich and moist, yet light and feathery, a modern double acting baking powder must be used—one that will give off leavening gas in the oven as well as in the mixing bowl.

KC BAKING POWDER

is really a blend of two baking powders, one of which starts to raise as soon as moisture is added. The other is inactive until heat is applied. This sustains the raise until your muffins, biscuits or cake is done.

K C Baking Powder costs less than the old fashioned quick acting kinds, yet you need use no more and it is superior to them in every way.

Try a can at our risk and be convinced.

JAPANESE QUESTION MAY GO TO THE HAGUE

CORRESPONDENCE BETWEEN NATIONS OVER ALIENS MADE PUBLIC.

WASHINGTON, June 25.—Diplomatic correspondence between the United States and Japan over the California anti-alien land law extending over a period of more than a year was published yesterday simultaneously in Washington and Tokyo by agreement of the two governments.

It disclosed that a new treaty was discussed as one way of meeting Japan's protest against what her diplomatic correspondence characterized throughout as treatment "essentially unfair and invidiously discriminatory." "Inconsistent with the sentiment of good neighborhood," "inconsistent with the treaty in force," "abridgment of vested rights" and against provisions of the California law "mortifying to the government and the people of Japan."

New Treaty Presents Difficulties.

As late as June 10, two weeks ago, the Japanese ambassador, Viscount Chinda, left with Secretary Bryan "instructions" from the Tokio foreign office that the projected treaty would tend to create new difficulties.

The Japanese government, therefore, the note said, was "determined to continue the negotiation of a convention on the lines of the project which has been under discussion, but they prefer to recur to the correspondence which were interrupted and they will now look for an answer to the note handed Mr. Bryan on August 26 last, hoping that in a renewal of the study of the case a fundamental solution of the question at issue may be found."

Bryan's Latest Reply Withheld.

The Japanese note of August 25 last, which Mr. Bryan was now asked to answer, concluded as follows: "The Imperial government claims for them (its subjects) fair and equal treatment and is unable either to acquiesce in the unjust and obnoxious discrimination complained of, or to regard the question as closed so long as the existing state of things is permitted to continue."

Two days ago Secretary Bryan replied to that communication but publication of the note was withheld yesterday because it was not included in the correspondence made public at

CASTORIA For Infants and Children.

LADIES LOOK YOUNG, DARKEN GRAY HAIR

USE THE OLD-TIME SAGE TEA AND SULPHUR AND NO BODY WILL KNOW.

Gray hair, however handsome, denotes advancing age. We all know the advantages of a youthful appearance. Your hair is your charm. It makes or mars the face. When it fades, turns gray and looks dry, wispy and scraggly, just a few applications of Sage Tea and Sulphur enhances its appearance a hundred fold.

Don't stay gray. Look young! Either prepare the tonic at home or get from any drug store a 50 cent bottle of "Wyeth's Sage and Sulphur Hair Remedy." Thousands of folks recommend this ready-to-use preparation because it darkens the hair beautifully and removes dandruff, stops scalp itching and falling hair; besides, no one can possibly tell, as it darkens so naturally and evenly. You moisten a sponge or soft brush with it, drawing this through the hair, taking one small strand at a time. By morning the gray hair disappears; after another application or two, its natural color is restored and it becomes thick, glossy and lustrous, and you appear years younger.

REAR ADMIRAL FRANK F. FLETCHER

REAR ADMIRAL FRANK F. FLETCHER

WASHINGTON, June 25.—Rear Admiral Frank Friday Fletcher is slated for the command of the entire Atlantic fleet of the United States navy, following the official commendation of his conduct during the taking of Vera Cruz in April. He will succeed Rear Admiral Charles S. Badger who will soon end his fixed tour as first officer of the navy on sea duty. The commander-in-chief of the American navy is ranked only by Admiral Dewey and Rear Admiral Fletcher's promotion is intended to be a direct recognition of his work.

Tokio. It will be published on a date to be agreed on later.

Subject Is Left Open.

It is understood that Secretary Bryan replied directly to the Japanese government's desire to take up the negotiations anew where they were suspended and reaffirmed the position of the United States, leaving the subject open for further diplomatic exchange.

So there the controversy stands, apparently at a deadlock. There are intimations in diplomatic circles that it is being worked around to a state of arbitration at The Hague. A standard arbitration treaty with Japan is now renewed. The proposed treaty, which was hailed by Japan's latest attitude, it is understood, proposed to touch on the naturalization of those Japanese already owning lands.

Resinol for unsightly skin eruptions

PIMPLES, blackheads, rashes, ringworm and, worst of all, that red, itching, scaly torment, eczema, vanish when you use Resinol Ointment and Resinol Soap. Even though your skin is so unsightly with eruption that you shun your friends and your friends shun you, Resinol is almost sure to make it clear and healthy, quickly, easily and at trifling cost. Resinol Ointment and Resinol Soap have been prescribed for nineteen years for just such skin troubles as yours.

Wherever drugs are sold you can get Resinol Ointment and Resinol Soap. For trial free, write to Dept. K, Resinol, Baltimore, Md. Avoid substitutes, they are NOT "just as good."

SCHOOLBOY IS FOUND DEAD; MAY BE SUICIDE

OREGON CITY YOUTH'S END A MYSTERY—CORONER IS INVESTIGATING.

OREGON CITY, Ore., June 25.—Alfred Marquardt, 17 years old, son of G. Marquardt, a farmer, and one of the most popular pupils of the Clark schools, was found dead in the bushes of a road near his father's home late yesterday afternoon. A pistol was found at his side and there was an ugly wound in his head.

Though suicide is said to be the accepted theory of the case, no more basis for that idea has been found than the first thought, that the boy might have been murdered.

His father is a prosperous farmer of Clark, where he has lived for the last 10 years, and the boy has been attending school in that district. Alfred was sent to the mailbox, a distance of one-half mile. When he did not return, some time afterward, a search was instituted and the body found.

The boy's mother died some time ago. He leaves his father, a brother, Ruford, and two sisters, Dora and Ella.

Coroner Wilson is investigating.

OIL FOR TROUBLED TENNIS COURTS

WASHINGTON, June 25.—To eradicate vegetation from dirt tennis courts trouble with persistent growths of grass or weeds, oil or salt are the most satisfactory harmless products. Sidewalk crevices, garden paths, gravel roads, and railroad "rights of way" where people pass frequently may also be treated with these remedies.

Fuel oil, when it can be obtained cheaply is highly satisfactory and economical for killing vegetation. It should be applied at the rate of from

100 to 150 gallons per acre. On a tennis court or other small area kerosene, although more expensive, may be used satisfactorily as the total amount needed will be small. The petroleum products are particularly effective on grass and other vegetation possessing narrow leaves.

The most economical and effective way to use the oil is to make number of comparatively light applications. One heavy application may affect the roots as well as the tops of the plants, but the several light applications kill the foliage each time and eventually the roots die.

Reward for Prison Heroes.

MILWAUKEE, Wis., June 25.—Fifty-three prisoners at the Milwaukee house of correction got their names on the honor roll when they placed their lives in jeopardy in fighting a fire which destroyed the big barn in connection with the prison farm at North Milwaukee.

Nineteen head of Holstein cattle, fourteen horses and a large amount of machinery were saved by the prisoners, while the building valued at \$12,000 was destroyed.

"The prisoners did a noble service," said Superintendent F. H. Hartke. "I believe some of the cattle might have perished if they had not pitched in the way they did. The prisoners also saved some machinery, but could not get it all out."

Picture Badly Hung! Gr-r-r!

CHICAGO, June 25.—Gustave B. Hengen, president of the Kentucky Midland railroad and the Oregon & Southeastern railroad, did not appear in Judge McGooey's court to answer charges brought by his wife in her suit for divorce. His deposition, however, taken in Detroit, was read by George W. Manner, attorney for Mrs. Hengen.

Mrs. Hengen testified to charges of infidelity, cruelty and desertion, which she had set forth in her bill for divorce. In substantiation of the charge of cruelty she cited instances where he would "fly into a rage" because a picture was not hanging correctly on the wall or if he found a

small scratch on the furniture.

In his deposition Mr. Hengen answered questions regarding his property. He said that at one time he was worth more than \$200,000, and he told of owning 640 acres of land in Florida and of paying \$130 taxes a year for some land he owned in St. Louis county, Missouri.

Sends Biography; Then Shot.

ATLANTA, Ga., June 25.—"Inclosed herewith are certain biographical data which I request you to retain on file for such use as may appear." Two hours after this note, signed by Ernest E. West, former navy and marine corps officer, and accompanied by an autobiographical sketch, was received in local newspaper offices information was received from Chattanooga, Tenn., that he had been found in a hotel there with a probably fatal bullet wound in his forehead.

The wounded man recently was dismissed from the marine corps, where he held the rank of captain. One of his notes referred to his dismissal, which followed his divorce and a suit over the custody of his son.

Capt. West is 47 years old and was graduated from the naval academy in 1888.

Dumb Roosters Wanted.

PORTLAND, Ore., June 25.—Roosters may be things of the past in Portland soon. Either that or roosters must be crows. At the suggestion of A. J. Martin, the city commission is going to consider an anti-rooster or an anti-"crow" ordinance.

Mr. Martin, in a letter to the commission, says roosters are a source of much annoyance to people all over the city and chicken raisers in the United States lose about \$15,000,000 each year by having them.

Advertising Clubs Close Convention

TORONTO, Canada, June 25.—After sessions lasting five days the annual convention of the Associated Advertising Clubs of America adjourned here. Many of the delegates will remain over and leave early Saturday morning for their homes.
