Mrs. R. E. Perry and daughter Minnie of Portland, are visiting relatives in Pendleton and Athena.

Mrs. W. H. Fowler and son Vernon, are in Astoria as the guests of Dr. and Mrs. Eldred B. Waffle.

### Home Hints and Recipes

Seen in shops. Gingham aprons with bibs, backed with rubber sheeting, come in various sizes. The cost is dependent largely on the size.

Handkerchiefs of crepe de chine and soft china silk come in all the

fashionable colors. They are finished with a very tiny hemstitched hem.

Handbags of Irish lace, lined with white taffeta or muslin, are fetching when carried with a white costume. Often the handles of the bags are crocheted.

A new nutmeg grater is square. It is so made that when the nutmeg is dropped inside and the little handle turned, the grated condiment comes out.

White crochet buttons, specially designed for the white waists, so fashionable this summer, come in different sizes and patterns.—Newark News.

Raise the Table. The ordinary kitchen table is too low for tall people to work on. Take four common door stops which screw into the wainscoting to prevent doors striking the wall and screw one on to the bottom of each table leg. This raises the table about three inches and makes it more convenient for the tall person. The door stops are neat and could not be detected as being other than parts of the legs themselves. This will save many a backache from stooping at work.

Improvised Hammock. A good hammock may be made out of an old spring cot. Take the legs off and turn them up, nailing them securely and re-enforcing them by a strip at the top of the back. Suspend by means of a heavy rope and tack striped ticking on the ends and back. Lie in a mattress and some pillows.

When you feel lazy, out of sorts and yawn a good deal in the daytime, you can charge it to a torpid liver which has allowed the system to get full of impurities. HERBINE cures all disorders produced by an inactive liver. It strengthens that organ, cleanses the bowels and puts the system in good healthy condition. Price 50c. Sold by all dealers.—Adv.

Woman Has Snuff Factory. SOUTH BEND, Ind., July 13.—This city has a unique industry which, according to Peter J. Kruper, United States revenue collector, was one of the reasons for bringing the revenue office to South Bend.

The only snuff manufacturing firm in the seventy-nine counties, which comprises the Seventh Revenue District, is situated here. It is one of the few industries of the kind in the United States.

The local snuff factory is run entirely by a woman, Mrs. A. Soderberg. Her husband, an employee of a local factory, had been a user of snuff for many years, and finally Mrs. Soderberg decided to begin its manufacture, although she despises the drug.

The gross annual business of the concern totals \$15,000, of which \$2,000 must be paid to the government in taxes.

Russian Noble Farmhand. WATERTOWN, S. Dak., July 13.—Garbed in overalls and a hickory shirt, George Trubnikoff, aged twenty-one years, the son of a Russian nobleman and heir to a large estate on the river Volga, is working on the farm of Thornton Pabcock near Watertown, for the purpose of getting first hand information about practical farming in America.

The methods he learns here he expects to put into operation on the 11,000 acre family farm in the Czar's dominion.

The youthful Russian will pay particular attention to the use of modern American machinery on the farm with a view to introducing it in Russia.

He came to South Dakota through an acquaintance formed with Prof. N. E. Hansen of the State College of Agriculture, who made two trips to Russia to secure Siberian alfalfa seed.

Jamaica has been keeping a record of all incoming letters having shortage in postage and found that the United States was the chief offender in this respect.

### NEWS OF THE NORTHWEST

LEBANON, Ore.—Linn county has about completed the harvesting of the largest hay crop in the history of the county. The hay is now cut and in the shock or stacked for the balers, with that for farm consumption being rapidly placed in the barns. The farmers are offering good hay at \$5 in the fields.

BAKER, Ore.—Henry Sprague has been bound over to the grand jury on a charge of first degree murder for the death of D. Yamigami, a Japanese, July 5. Sprague and Nellie Hudson, a notorious woman, both testified that "Cherokee Kid" had struck the blow which killed Yamigami as they stood outside the restaurant where the crime was committed. The officers believe the alibi to be trumped up.

SPokane, Wash. — The first car of new wheat to be shipped this year in the Inland Empire was forwarded Friday from Hatten by J. E. Fields, an independent grain dealer, consigned to the Kerr-Gifford company at Tacoma, according to Edward O. Warmoth, the company's district agent in the Spokane territory.

The shipment establishes a new record for early consignments, the earliest former shipments in the Inland Empire having been 10 days later.

SEASIDE, Ore.—Twenty-five hundred national guardsmen of Oregon and Idaho will arrive here tomorrow for encampment with the Twenty-first regiment of regulars, from Vancouver barracks, which has been located on the plains a few miles north of this city since Saturday. The regulars marched from Vancouver by way of the Nehalem valley, averaging over 16 miles a day on the trip.

The national guardsmen to arrive tomorrow will include the Third Oregon regiment, second Idaho infantry, troop A, of the Oregon national guard cavalry, and a battery of field artillery.

This is the largest encampment ever held in the state and every preparation has been made for the comfort and convenience of the guardsmen. The encampment will last ten days.

The advanced guard arrived today to lay out the camp.

Tired Mothers. It's hard work to take care of children and to cook, sweep, wash, sew and mend besides. Tired mothers should take Hood's Sarsaparilla—it refreshes the blood, improves the appetite, assures restful sleep, and helps in many ways.—Adv.

Trained Snake for New York. RALEIGH, July 13.—While strolling through a woods path, Mr. John Spencer, of Atkinson, captured a rattlesnake five feet and ten inches long carrying eleven rattles and a button. Mr. Spencer says he expects to send the monster to New York to be trained.

Woman Makes Faces Fined. OWENSVILLE, Ind. July 13.—Mrs. Della Wentzel was fined \$1 and costs in Justice Walling's court when she pleaded guilty to making ugly faces at her neighbor, Mrs. Nancy Phillips, and otherwise provoking her.

Motion pictures are being introduced into the Spanish schools for educational purposes especially for medical and geographical demonstrations.

## Most Skin Trouble Readily Overcome

The Active Principle of a Famous Remedy Works Wonders.

Many people have marveled the way S. S. S. overcomes skin troubles. The explanation is the fact that S. S. S. works in the blood and the blood is really a most intricate and extraordinary mass of arteries and veins.

When you come to realize that the skin and the flesh beneath are composed of a network of tiny blood vessels you solve the mystery.

There are wonderful medicinal properties in S. S. S. that follow the course of the blood streams just as naturally as the most nourishing food elements.

It is really a remarkable remedy. It contains one ingredient, the active principle of which is to stimulate the tissues to the healthy selection of its own essential nutrient. And the medicinal elements of this matches blood purifier are just as essential to well-balanced health as the nutritional elements of the meats, grains, fats and sugars of our daily food.

Do not allow some zealous clerk's eloquence over something "just as good" as S. S. S. to fool you with the same old mineral drugs. Beware of all substitutes. Insist upon S. S. S.

Jinx Was On His Trail. MINNEAPOLIS, Minn., July 13.—John Woods of Chicago recently left his home city for Minneapolis and here is what has happened to him.

In Milwaukee he fell off a box car and fractured his right arm. In La Crosse he had pneumonia. In Golden, Wis., he was "doped" and robbed of \$140.

In Minneapolis he was sentenced to five days in the workhouse for vagrancy. "Maybe this will be the end of it," said Woods. "I think some old jinx has been on my trail."

A bad taste in the mouth comes from a disordered stomach and back of that is usually a torpid liver—a condition which invites disease. HERBINE is the remedy needed. It corrects the stomach and makes the liver active and regular. Price 50c. Sold by all dealers.—Adv.

Tramp Is Armed With Bees. BELLFONTAINE, O., July 13.—"Don't touch me or you'll get stung," warned a tramp who was stopped by John Kernan, Big Four detective. And the warning was correct, for the tramp was carrying, tied up in a paper in his pocket a small swarm of bumble bees. He was ordered out of town.

SUCCESS OF A MEDICINE. All things succeed which will a real need; that a doctor is kept busy day and night proves his ability and skill; that Lydia E. Pinkham's Vegetable Compound is sold in enormous quantities in almost every city, town and hamlet in America and in foreign countries as well proves its merit, and women are found everywhere who tell of health restored by its use.—Adv.

AFTER WOMAN IS SHOT HER SON QUICKLY GIVES CHASE  
GREENWICH, Conn., July 13.—While Frank Maguire, superintendent of the Greenwich estate of William H. Trusdale, president of the Lackawanna railroad, his wife, and fourteen-year-old son, George, and James Barrett, a neighbor, were standing in front of the Maguire home in Railroad avenue, three pistol shots sounded and Mrs. Maguire fell with a bullet in her body. She is in the Greenwich hospital in a serious condition. Maguire and Barrett stood amazed, but George chased two men toward the New Haven railroad tracks. As he drew near, the lad said, they wheeled and pointed revolvers at him. He hid in the nearby bushes, but managed to trail the men and then went to Chief of Police Talbot. The boy acted as a guide and the police searched the boarding house of Angelo Roinat and found Michael Christoforo and Michael Nome. They were identified by young Maguire as the men who had threatened him with revolvers. They were arrested. It is thought that whoever shot Mrs. Maguire was merely celebrating the Fourth and did not intend to hit her. Our idea of a mean man is one who spends two-thirds of his time in getting money and the other third in keeping it. Steam plows find increasing popularity in France.
