## Library News

Teachers Reading Circle Course. The following letter has been sent out to Oregon teachers from the office of J. A. Churchill, superintendent of public instruction:

"To Teachers: If you wish to teach school next year, you should read one of the following books during this school year. The law requires that any teacher who registers her certificate between the third Monday in June, 1914, and the third Monday in June, 1915, must satisfy the county superintendent that she has read one of these books. See section 24, School Laws of Oregon, 1913. Teachers who read one of these books last year, should read a different book this year."

All these books have now been added to the County Library and are ready for circulation today. A list will be kept posted near the "Education" book case.

Any teacher in Umatilla county may send in and get one. The library pays parcel post one way and the reader pays return postage, six cents each way.

## Home Hints and Recipes

**Health and Beauty.**

Kerosene will clean your hands better than anything else after blacking a range or stove. Pour a little in the water, wash your hands in it, then wash them in tepid water and finally with plenty of soap and a stiff nail brush in hot water. Finish up by rubbing the hands with lemon juice, rosewater or glycerine.

## The Kind You Have Always Bought

In Use For Over 30 Years

THE CENTAUR COMPANY, NEW YORK CITY.

The continued use of grease will darken the brows and lashes and will not injure as a dye does. Make a mixture of a dram of red vaseline and one grain of sulphate of quinine. This is put on night and morning, leaving some of the grease in the skin. Always rub the brows in the direction in which they should grow.

If you are doing housework, try to soil your hands as little as possible. While dusting and sweeping or doing any dry, dirty work, wear a loose pair of old kid gloves. Rubber gloves are no longer very expensive; provide yourself with a pair of these and use them while washing dishes or any work that demands the use of strong soap and water.

To prevent sunburn entirely on a tender skin is almost impossible. But it can be greatly lessened by using a cream on the face before going out in the strong sunlight. Cover the face and neck (if the neck is to be exposed) with a cream, rub it in for a few moments, then wipe it off, but not too thoroughly, then use a good face powder. When you return, use the cream and powder again. If your face should become chapped, bathe it with very hot water.

## Platinum Rings.

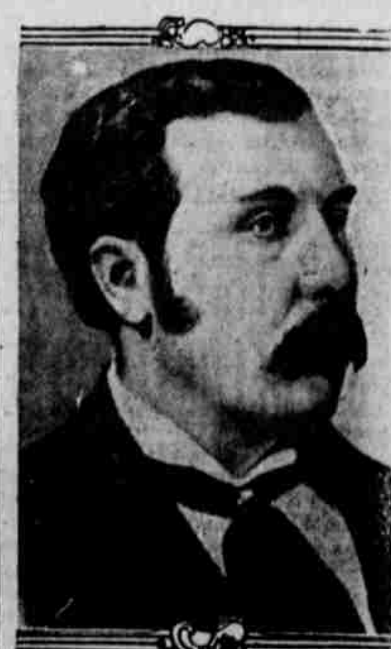

The up to date bride is married with a band of platinum, which has taken the place of the band of gold at many fashionable weddings. To the bride who cherishes tradition the platinum wedding ring is not welcome. For generations the ring has been of gold and to the traditional bride's mind, for generations more it should be of gold. It is this sort of bride who prefers a solitaire diamond to everything else for an engagement ring.

In spite of her sentiment for the old and accepted, the platinum ring has advocated among the brides who are seeking change.

## Church Young People Meet.

EAST LIVERPOOL O., July 21.—Four hundred delegates, representing sixty-four presbyteries of the United Presbyterian church, assembled here in the twenty-fifth anniversary convention of the National Young People's Christian union. The silver trophy cup, presented to the union by St. Louis church and won last year by Chicago, will be awarded to the presbytery making the best record.

## "FURIES" HORSEWHIP SCOTLAND'S SECRETARY OF STATE

Right Hon. Thomas McKinnon Wood LONDON, July 21.—Armed with heavy horsewhips, two militants suffragettes made a violent attack on the Right Hon. Thomas McKinnon Wood secretary of State for Scotland. They were latter jailed after a stiff fight with policemen. The women threatened a hunger strike unless they are released in short order.

**Too Old to Face Prison; Dies.**  
CHICAGO, July 18.—Peter Ferguson, 59 years old, 615 Wells street, convicted of a forgery a week ago, hanged himself in his cell in the county jail. The body was found by H. Powers, a guard.

Ferguson had been sentenced to the penitentiary. He occupied a fourth tier cell. He had torn a strip from his bed sheet and fastened one end to the grating of his cell and adjusted the other end about his neck. "He was convicted of forgery a week ago in the criminal court, and was to have been taken to the Joliet penitentiary next Monday or Tuesday, Night Jailer Arthur R. Javoby said. "I suppose the man—he was 59—did not have the nerve to face prison at his age."

## It is Just Natural To Admire Babies

Our altruistic nature impels love for the young infant. And at the same time the subject of motherhood is ever before us. To know what to do that will benefit most women of all times. One of the real comforts of expectant motherhood is a subject that has interested most women of all times. One of the real helpful things is an external abdominal application sold in most drug stores under the name of "Mother's Friend." We have known so many grandmothers, who in their younger days relied upon this remedy, and who recommend it to their own daughters that it certainly must be what its name indicates. They have used it for its direct influence upon the muscles, cords, ligaments and tendons as it aims to afford relief from the strain and pain so often unnecessarily severe during the period of expectancy.

A little book mailed by Bradfield Regulator Co., 205 Lamar Bldg., Atlanta, Ga., refers to many things that women like to read about. It refers not only to the relief from muscle strain due to their expansion but also to nausea, morning sickness, caking of breasts and many other distresses.
