### Newsy Notes of Pendleton

#### Off to Medford Meeting.

C. H. Martin, county road engineer, left today for Medford to attend the good roads convention to be held there. Mr. Martin was appointed by Mayor W. F. Matlock as a delegate to the meeting.

#### Runs Down Badger.

When Edgar Averill, district game warden, was on his way Saturday to Lehman Springs on his motorcycle, a badger jumped on ahead of the machine and darted down the road. Averill pursued the animal, overtook it and ended its life with a few well directed rocks.

#### Spain Leaves for Home.

John Spain, well known buckaroo, left this morning for his home in Union county. Mr. Spain says he will be back here for the Round-up. He was at Sebro, Woolley, Wash., during the frontier exhibit there and also at Nelson, B. C., but he says those affairs were tame as compared with Pendleton's show.

#### Has Appendicitis.

The young son of Joe Nelson of Helix was brought down on the N. P. train this morning and was subsequently taken to the hospital to be operated upon for appendicitis by Dr. Boyden and Dr. Griswold, the latter having accompanied the patient from Helix.

#### Horsewoman Here.

Miss Ellen Kinch, who rode at the Sedro Woolley show a few weeks ago, stopped over in Pendleton last evening and left this morning for Union county. Besides being a horsewoman of ability, Miss Kinch is also a writer and has been associated with several well known newspapers. She anticipates returning here for the Round-up.

#### Favor Swimming Tank.

The finance committee of the city council held an informal meeting with the committee of the Commercial Association last evening and while no final action was taken, the members of the city council committee expressed themselves as highly in favor of the plans for a natatorium for Pendleton. They will report to the council at the regular meeting tomorrow night and as it will be an endorsement of the arrangements, action toward securing an appropriation of \$2000 to help in the construction will probably be taken.

#### Many New Exhibits.

President Tallman of the Commercial Association is back from a trip through the Adams country which was made yesterday and he brought with him several fine samples of wheat which will be used for the Umatilla county exhibit at the state fair in Salem. He visited the Frank Curl place and the ranch of George Penker and returned by way of Thorn Hollow. The farmers interviewed are enthusiastic over the plans, Mr. Tallman says, and are going to cooperate with him toward getting the finest exhibit ever sent out of Umatilla county.

#### Cheyenne Riders for Round-up.

George S. Walker, chairman of the Frontier Days celebration at Cheyenne, has written to Dan Smythe of this city regarding the Cheyenne show this year and the letter has been turned over to the Round-up committee. Mr. Walker says that McCarty and Gilford and other Wyoming riders will be in Pendleton in September to try for the prizes, and says that he will accept the invitation given him to come if he can possibly arrange it. The Cheyenne show, he states, is going to help boost the Pendleton show this year and Mr. Smythe through courtesy has accepted several posters of the Cheyenne performance which will be displayed here.

#### Koy Riley returned yesterday from Sedro Woolley where he staged a frontier show.

#### Many New Features Planned.

The Round-up committee will meet this evening to take steps toward making up the premium list for this year's show, discuss new features and decide upon the bands to engage for the three days. A meeting was to have been held last evening but owing to the inability of some of the members to be present, it was postponed until tonight. Among the bands who are anxious to be here for the Round-up is the Creator's famous aggregation of musicians of New York. The sentiment of the committee is to engage Oregon bands and it is likely that two of the nearby city bands will be among those decided upon. The contest list will be larger this year than last but the exact amount which will be offered as prizes has not been fixed as yet. There are also several proposals for new features which will be discussed at tonight's meeting.

#### Auto Parties Here.

Two auto parties from Los Angeles stopped a few minutes in Pendleton this morning on the way to Glacier Lake, Montana. The parties comprised W. A. Morehouse, Mrs. W. A. Morehouse, William Morehouse Jr., Mrs. Fox and Herbert Houghton. They are traveling in two large touring cars, fully equipped for camping, and have been on the road since May 15. They expect to complete the journey September 15. Mr. Houghton, driver of one of the cars, said that the fame of the Round-up has spread to every city and town where the parties have stopped and it was possible, he explained, that they may return to Pendleton in September in order to see the show. These same persons have been making overland trips since 1907 and were the first auto parties to come from Los Angeles into Oregon. Since then, they declared, there has been a wonderful improvement in road building. While in California they had several days' stop near Mount Lassen and saw two violent eruptions of the volcano.

#### Marriage License Issued.

County Clerk Saling granted a marriage license this afternoon to John M. Smith and Winnifred Chamberlain both of Hermiston.

#### Forfeits Bail.

Because he failed to appear in police court this morning, Braden Gerking forfeited bail of \$10. He was arrested last evening on a charge of fighting Orville Davis, arrested on a similar charge, also failed to show up in court this morning.

#### Will Visit Stores.

A. D. Frost, proprietor of the Golden Rule store, left today for The Dalles where he will visit his store at that place. He will also visit his stores at La Grande and Baker while away, returning home the latter part of the week.

#### Trying Out Alarm System.

Two alarms within a few minutes of each other started considerable excitement down town this morning. The alarms, however, were official tests. The first came in from box 52 and the second from box 42. The auto truck responded to the second alarm and made a record run to East Court and Webb streets.

#### Water is in Pipes.

Water was let into the pipes of the new gravity water system up to the first few shut-offs today but the complete system will not be flushed for at least three more days. Several minor repairs will have to be done before the full flow can be liberated and the complete length of the pipes and the reservoir flushed.

#### Chief Closes Club.

Because of several cases of alleged violation of the laws and of disorderly conduct among the members, Chief of Police Kearney closed the doors of the Umatilla club this morning. This organization is composed of colored men and has several times before figured in police circles.

#### To Pave Crossing.

D. McLaughlin, division road master of the Northern Pacific arrived this morning from Pasco to supervise the work of paving the company's tracks where they cross Court street. The work was to have started today but owing to a misunderstanding of orders the work crew was delayed. It will start tomorrow and rush through to completion.

#### Will Meet With Engineer.

The members of the water board will meet this evening with Engineer Frank E. Kelsey who is in town today to look over the new gravity system. There are several matters of importance to come before the meeting, among them being a consideration of the Bent and Burton contracts. Mr. Kelsey will return to Portland tomorrow but will return to the city again on August 1st.

#### Does Strong-Arm Feat.

Will Moore accomplished a strong-arm feat at near the noon hour today as he was cranking his diminutive runabout. He neglected to throw out the clutch and as soon as the engine started the car began to go ahead, but with all his strength exerted he kept the car from running him down, reached over and stopped the motor. The next time he cranked he saw that the clutch was in its proper position.

#### Undertakers Will Meet Here.

For one day during Round-up week the Oregon State Funeral Directors' association will hold its session in Pendleton. This information was received this morning by Ralph Folsom in a letter from A. L. Finley, of Portland, secretary of the state association. There will be between 300 and 400 members of the organization who will assemble here. They are going to Walla Walla for two days of the week to meet in conjunction with the Washington state association, and thence will come to Pendleton where a business session will be held and officers elected. Mr. Folsom intends taking the matter up with the Commercial Association in order to arrange for a hall for the meetings.

#### Beat Up Man; Fined.

Ben Hickman, colored, was fined \$50 in police court this morning on a charge of beating up another man whose name is being withheld by the police. W. B. Bonner will have to serve 29 days in jail on the same charge. The fight occurred at the room of the Umatilla club, a colored organization, yesterday afternoon about 3 o'clock according to the police. The man beaten was not seriously injured but the police say he received a general thrashing and was much the worse for wear when he emerged from the club. The colored men charged with administering the whipping claim that their erstwhile friend was tipping the police off to certain alleged doings of the club and they wanted to even matters up. It is claimed that Bonner, who was working about the police station, lured the other to the Umatilla club where Hickman joined the fray. Bonner was acting as a trusty at the city jail and with the unexpired sentence he was serving. He will have now to remain behind the bars for 70 days.

#### Mountain in Trouble is Report.

According to an unconfirmed report reaching the sheriff's office here this afternoon, Walter Mountain, of this city, who played with the Pendleton baseball team here two years ago, is facing a serious charge in Pasco as the result of alleged developments since the murder Sunday of his wife, Ada Mountain. Mrs. Mountain was shot and almost instantly killed by Jack Sentinel, a dishwasher, who is said to have been infatuated with the woman. He turned the weapon upon himself and inflicted a serious wound. He is still alive but refuses to discuss the tragedy. Mountain left there Sunday for Pasco and said he intended to take the body of his wife back to her former home in the east. According to an unconfirmed report, Mountain is facing a charge brought by

United States officials in which he is connected with the life his wife is alleged to have followed while in Pasco.

#### Sues to Foreclose.

A suit to foreclose a mortgage to collect a note alleged to be due for \$382.40 and for \$382.24 attorney's fees, was filed this afternoon in the circuit court by S. A. Ash against A. E. Partridge and others. Attorney H. B. Noland of Tacoma and Charles H. Carter of this city are representing the plaintiff.

#### Man Wanted at Prineville.

Deputy Sheriff West of Freewater, brought in John H. Harper today who is said to be wanted at Prineville. The sheriff at that place telegraphed Sheriff Taylor this afternoon that a man would be sent after Harper. What charge he is wanted on is not known.

#### Roof On in Fall.

The new Catholic church will probably be roofed by the close of the fall season, according to plans which are now underway. Workmen have commenced upon the unfinished edifice and with the money on hand will be able to do considerable toward putting the church in a finished condition.

#### Schools in Good Shape.

Reports by J. A. Yeager, supervisor of the south school district, and W. H. Musselman, supervisor of the north district, have been filed with County Superintendent of Schools Young. Mr. Yeager says the general improvement in his district has eclipsed anything of former years and the school spirit is wonderfully enthusiastic. One new school house has been built, four heating plants have been installed in as many buildings, and the number of children in the districts of the third class has reached 400. Mr. Musselman reports two new schoolhouses erected in his district.

### FEDERAL COMMISSION INQUIRES INTO STRIKES

CHICAGO, July 21.—The federal industrial relations commission opened a five days' hearing today to investigate the causes of the disputes between labor and capital. A large number of employers and representatives of labor organizations will be examined. Charles Piez, ex-president of the Illinois Manufacturers' association, was the first witness. While advocating an open shop, he denounced the use of special deputies and gunmen during strikes. "Injunctions preventing violence should be issued by the courts in such cases," he said.

### FOREST FIRE RAGES CLOSE TO PORTLAND

PORTLAND, July 21.—Burning steadily southward and eastward, a timber fire in Pine Creek Gully, eight miles south of Portland, is only partially under control. Along the south side it is eating into good sized second growth timber. The fire demands immediate attention, but at noon there were a few men to combat it. Since the fire started Saturday six hundred and forty acres, mostly slash and timber land has been burned.

**LINDALE GHOST PROVES TO BE BIG WHITE DOG**  
ROME, Ga., July 21.—The "ghost" problem that has agitated Lindale for the past month and which has caused a number of armed parties to make a search for the alleged apparition at the midnight hour, has at last been solved. It develops that the "ghost" is a huge white dog, the property of Charles Lumpkin, who lives about three miles from the city. Mr. Lumpkin says that the dog is a nocturnal rambler, and that it is deaf and timid. When it sees anyone approaching the dog dodges away. Considerable credence was given to the ghost story when it was vouched for by the Rev. J. E. Smith, a Baptist evangelist of this county.

## "The Million Dollar Mystery"

THE THIRD TWO-REEL INSTALLMENT OF THAN-HOUSE'S MOTION PICTURE SENSATION.
