TYPOGRAPHICAL UNION IN 60TH YEARLY CONVENTION

PROVIDENCE, Aug. 11.—Infantry Hall was filled to capacity yesterday when Frank A. Livingston, chairman of the local committee, called to order the sixtieth annual convention of the International Typographical Union. State, municipal and civil representatives made addresses of welcome which were answered by President Duncan in behalf of the Union. President Duncan touched upon the growth and prosperity of the organization, its educational and welfare features, the peaceful relations existing between employer and employee through arbitration and contractual negotiations, and the general spirit of uplift that prevailed in the 700 unions with their 60,000 members.

The report of Secretary Treasurer Hays showed 309 delegates in attendance today. Immediately after the secretary-treasurer's report was read, President Duncan appointed the convention officers and announced the standing committees. The financial showing dealt in large figures—\$618,354.28 in old age pension fund, \$158,559.38 in mortuary fund, and \$176,710.65 in the general fund—with a total close to \$1,000,000. The Union Printers' Home at Colorado Springs is set down at an additional \$1,000,000. It costs about \$100,000 a year to maintain the home. The average earning per member according to the report, is \$1042 a year; average death age, 48.7, and the death rate twelve per 1000. These last figures, it was explained, are the result of an active campaign for better sanitary conditions in composing rooms and the shortening of the work day.

Los Angeles and Washington D. C. the first thing today opened the fight to secure the 1915 convention. Washington wants the convention when that city celebrates its 100th birthday anniversary. Los Angeles wants the 1915 event because it has never had an I. T. U. convention and because it believes that the Panama-Pacific Exposition next year would be the biggest side attraction any city could offer the delegates. Each city had a big delegation of boosters on hand today. Both have headquarters at the Narragansett. At 12:30 the convention adjourned until Wednesday morning.

ADAMS NEWS NOTES.

(Special Correspondence.)

ADAMS, Ore., Aug. 11.—E. G. Marquis, city druggist, left for the city of Portland Saturday on business and will remain for a short time.

Mrs. Picard was a Pendleton visitor Sunday.

Mr. and Mrs. T. Kribs and Jessie Stockton returned to their home in Adams Saturday evening, after spending the past two weeks at the springs.

Mr. and Mrs. Stockton and daughter Augusta and Elnor are the guests of Mr. and Mrs. E. Norval of Helix this week.

Ervin Stockton, only son of Rev. and Mrs. Stockton of Adams, died on Saturday night at 1 o'clock. The deceased was 15 years of age and one of Adams' high school graduates. The funeral services were preached in the Baptist church at 10 a. m. Monday by the Rev. Borden of the Baptist church of Walla Walla and the remains were taken to Helix for burial. He is mourned by his father and mother and three sisters, Augusta and Elnor Stockton and Mrs. E. Norval of Helix, all of whom were at his bedside when he passed away. Everything was done that loving hands could do to the end.

SPARKS FROM TELEGRAPH.

Justifying his removal of thirty skeletons from an old Minisink Indian burying ground that they were taken for scientific research, Prof. G. Heye of the University of Pennsylvania has appealed to the New Jersey supreme court to set aside his conviction upon the charge of desecrating graves.

RIVER OF DOUBT IS NOW RIO THEODORO

WASHINGTON, Aug. 10.—The Brazilian government has formally changed the name of the river of doubt to the Rio Theodoro, in honor of Colonel Roosevelt. This announcement was made by John Barrett, director general of the Pan-American union, who has received the official report of the Brazilian commission, of which Colonel Rondor, was commander and which accompanied Colonel Roosevelt down the river Duvida, as its name is in Portuguese.

It was the desire of the Brazilians expedition, Colonel Rondor states, to have the Castanha and Duvida rivers which are nearly one known as the Rio Roosevelt, but at the suggestion of Dr. Lauro Muller, the Brazilian secretary of state for foreign affairs, it was decided to call the newly found stream after Colonel Roosevelt's first name.

Library News

On July 21st a branch library was opened at Weston. Temporary quarters were kindly furnished by Mr. Jarman in his general store and a section of shelves with one of the best counters were cleared for the books. The third weekly report of books circulated has just been received at the central library, each report being better than the one preceding.

Not contented until reading room accommodations could also be provided the Weston Library board have bent their energies toward fitting up a library room. Results of their efforts are given in the Weston Leader of last Friday as follows:

"The local library board is fitting up a front room in the Dupuis building at the corner of Main and Water streets as permanent quarters for the county library branch, which will be moved from Jarman's store.

The room is being repainted and re-papered, and will be provided with table and chairs. A couch will be installed, in order that it may also be used as a rest room. As the demand grows, further conveniences will be added, and the library will be provided with magazines and periodicals as well as books.

Members of the library board will in turn take charge of the room for the present, until a permanent librarian is engaged. These are Mrs. J. H. Price, Mrs. F. D. Watts, Mrs. E. O. DeMoss, Mrs. E. M. Smith, Mrs. W. S. Payne, and Mrs. H. E. Turner. Mrs. H. E. Turner was lately appointed to fill the vacancy in the board caused by the departure of Mrs. C. O. Turner. Until further notice the room will be open each Wednesday and Saturday from 2 to 5 p. m. The board desires to say that the books are entirely free to the public and that country people as well as townspeople are welcome to their use.

Grateful acknowledgement is given by the normal school campaign committee of an offer from the ladies of the library board to do the clerical work incident to the distribution of literature."

This morning word was received that the work is completed and the library installed in its new quarters. The progressive spirit and energy of the women of the Weston Library board are bringing splendid results. Still better things are being planned for the library social center at Weston but details are not yet ready for publication.

JAPAN IS CONSTANTLY AT WAR IN FORMOSA

SAN FRANCISCO, Aug. 11.—Japan is having desperate troubles in its attempts to pacify Formosa, according to arrivals here from the far east. At the time the mikado acquired the island, great hopes were entertained, because of the fertility and natural resources of the country, of making it support a considerable portion of the home country's surplus population. It might be doing this already, say those who have been there recently, were it not for the intractability of the natives. After years of efforts to conquer them with small bodies of troops, many of which were cut to pieces in the remote interior, it is stated that an extensive campaign has been launched in the hope of more speedily ending the constant warfare between natives and Japanese authorities.

Machine Printers Meet

PHILADELPHIA, Pa., Aug. 10.—With delegates present from all sections of the country the National Association of Machine Printers and Color Mixers of the United States today opened their annual convention here. Questions of starting a campaign for increasing the membership of the association were among those to be discussed today.

OHIO TO MANUFACTURE ITS WARDS' CLOTHES

COLUMBUS, O., Aug. 11.—The state of Ohio is to make clothes for its wards in the different state institutions. Six new looms have been ordered installed at once in the state penitentiary and reformatory. Inmates will be made at first, as soon as the new venture is under way clothes will be made for the wards in the state hospitals, homes and other institutions. Board and administration officials believe they will effect a great saving in this way.

Ohio started in the cloth manufacturing business when looms were installed at the penitentiary for the making of woollen blankets for its institutions. This proved successful and saved the state many thousands of dollars in the course of a year. Then it was decided to enlarge the shop to include the manufacture of cloth for clothing. Another new venture at the penitentiary will be the manufacture of automobile tags for the state. The state now pays out close to \$50,000 a year to private firms for license tags. Engineers for the board of administration declare these tags can be manufactured by penitentiary prisoners for half that amount.

Report Kaiser's Son Injured. LONDON, England, Aug. 10.—The Standard says it has heard from a reliable source that the German crown prince has been seriously injured by an unidentified assailant, who, after inflicting grave wounds, escaped. The German authorities in their efforts to trace the assassin, inflicted great indignities upon several Englishmen, according to the same report.

Portland water service will be extended in Irvington at a cost of \$125,000.

Boy or Girl? Great Question!

This brings to many minds an old and tried family remedy—an external application known as "Mother's Friend."

During the period of expectancy it is applied to the abdominal muscles and is designed to soothe the intricate network of nerves involved. In this manner it has such a splendid influence as to justify its use in all cases of coming mother-hood. It has been generally recommended for years and years and those who have used it speak in highest praise of the immense relief it affords. Particularly do these knowing mothers speak of the absence of morning sickness, absence of strain on the ligaments and freedom from those many other distresses usually looked forward to with such concern.

There is no question but what "Mother's Friend" has a marked tendency to relieve the mind and this of itself in addition to the physical relief has given it a very wide popularity among women. You can obtain "Mother's Friend" at almost any drug store. It has helped a host of mothers to a complete recovery. It is prepared only by Bradford Regulator Co., 391 Lamar Bldg., Atlanta, Ga. Avoid the many worthless substitutes.
