### WANTS NO MARRIAGE ALLOWED AFTER DARK

CLAYTON, Mo., Aug. 12.—"No more marriage licenses in Clayton after dark." That is one of the planks in the platform of John S. McNulty, candidate for the democratic nomination for recorder of deeds of St. Louis county. His announcement has caused a near panic among his opponents who fear that the town of Clayton will sink into oblivion if he is nominated and elected.

Clayton is known in St. Louis largely as the haven of elopers and old residents dislike the prospect of losing their chief source of entertainment and publicity.

### BOY SCOUTS ARE GUESTS OF EAGLES

WASHINGTON, Aug. 13.—All capital boy scouts were guests today at a picnic given by the Fraternal Order of Eagles at historic Marshall Hall on the Potomac.

### Newsy Notes of Pendleton

**Orchestra to Hermiton.**  
Members of the United Orchestra left today for Hermiton where they will furnish the music for a dance to be given in the irrigation town this evening.

**Jail Full; More Dishes Needed.**  
So many prisoners are now in the county jail awaiting the convening of the grand jury that Sheriff Taylor today had to purchase additional knives, forks and plates.

**Takes Pendleton-Portland Run.**  
Harry C. Grady, who for fifteen years has run O-W. R. & N. trains out of La Grande, will leave that city next week to take a Portland-Pendleton run, the change being in the nature of a promotion. He will move his family to Portland.

**Owen Gets \$50 or 25 Days.**  
Doss Owen yesterday afternoon pleaded guilty to the charge of assaulting Billy McKay, the Indian policeman, and was given a sentence of \$50 or 25 days by Justice of the Peace Parkes. Having no money, he went to jail.

**Popular Couple Wed.**  
Volney Bibee and Miss Pearl Burton, a popular young couple of this city, secured a marriage license yesterday and were made man and wife last evening at the home of the bride's mother, 314 Mill street, Rev. Charles Quinney officiating.

**Dr. Boyden Lands Safely.**  
Mrs. F. E. Boyden this morning received a telegram from her husband, Dr. Frank E. Boyden, who was in Europe at the time of the opening of hostilities, that he had landed safely in New York yesterday from the steamship Philadelphia, one of the first to leave England after the outbreak of the war. He will remain in the east about a month before returning home.

**Bootlegger Is Jailed.**  
Ad Lemon, colored, was this morning given 25 days in jail by Police Judge Fitz Gerald when he pleaded guilty to selling liquor to an Indian. The liquor was found on the Indian after he had returned to the reservation by Clerk Barbour of the agency. Questioned, he stated he had secured it from a negro. An investigation led to the discovery of a local resident who had seen the transaction. The negro was located and identified.

**Bib Clubs Want Local Records.**  
The Chicago Cubs and the St. Louis and Cincinnati National League clubs as well as all of the clubs of the Pacific Coast and Northwest leagues have requested President Ritter of the Western Tri-State league to furnish them with copies of the individual records of the various players. He has been working upon the task, which is one entailing many hours of tedious work, since the close of the season and will have the records ready for publication and distribution in a few days.

**Flour Goes Up 25 Cents.**  
Thought sugar, which climbed to \$9.90 a cwt, yesterday, has made no further advances today, flour took a jump of 25 cents today in response to a similar jump in the east several days ago. The merchants are now pretty well stocked with sugar, another carload having arrived this morning from Mason & Ehrman. This car was contracted for several weeks ago before sugar began to advance and, consequently, the merchants will make a considerable profit by their speculation.

**'Jimmie' Richardson Here.**  
'Jimmie' Richardson, former sporting writer, scout and umpire who is now traveling for Spaulding & Co., spent yesterday in Pendleton and renewed many acquaintances he made during the time he served as arbiter in the Western Tri-state league in 1913. 'Jimmie' is still doing some scouting for McCredie and is much pleased with the way Shropshire of Pendleton and Sutherland of Laker showed up this year. While here he broached the matter of Pendleton and Walla Walla joining a league with clubs in Portland, Chehalis, Aberdeen and Centralia to President Ritter of the Western Tri-state league. Such a league is a possibility, he stated.

**What's in a Name, You Say?**  
Certain authorities have insinuated that there is not much in a name but one Dewey Johnson, arrested yesterday as a minor soliciting liquor may find that there is in his name enough circumstantial evidence to send him to jail. He claims that he is 21 years old and therefore entitled to buy liquor. The police believe him to be between 16 and 18 but can't prove it. However, they will probably suggest to the court that prior to the battle of Manila Bay in 1898, babies were not christened with the name of "Dewey." The fact that young Johnson bears the name of the hero of that great naval engagement would seem to indicate that he was born shortly afterwards.

**Carload of Fry Coming.**  
Another carload of trout fry will arrive tomorrow in Pendleton in the special fish car "Rainbow," which will be taken on to Gibbon and there distributed. The young trout, some 150,000 in number, will be liberated in the Umatilla river and Meacham creek. The policy of the game authorities to continually restock the streams with fry from the fisheries is more than offsetting the catches made by fishermen. According to District Warden Averill, there are more fish lost in the irrigation ditches in the county each year than are caught by anglers.

### THE DEATH'S HEAD HELMET OF GERMANY'S CROWN PRINCE

Frederick William, crown prince of Germany, and heir to the throne of the kaiser, wears proudly the helmet of the Death's Head regiment of which he is commander. A shining, graping skull, with cross bones worked into the texture stands out prominently on the caps and helmets of this crack regiment of the German army. The skull and cross bones have always meant—death.

**106 at 3 O'clock.**  
Though many people thought today cooler than yesterday, the thermometer kept by the official observer registered 106 at 3 o'clock this afternoon, one degree more than the maximum yesterday.

**Rain Wanted Badly.**  
"Rain, rain, give us rain" is the cry going up from Umatilla as a result of the long, hot dry spell. Now that the harvest has practically been completed, rain would be far more beneficial than harmful. The roads in some sections of the county are in very bad condition and everything is so dry that danger from fire is constant. It is also felt that a soaking rain would put an end to the long hot spell. The summer has been an unusually hot one and for six weeks there has been no rain.

**Not Local "Shorty" Saunders.**  
The "Shorty" Saunders arrested yesterday in Pilot Rock for stabbing G. W. Risley, was not the "Shorty" Saunders who has been in trouble in this city on several occasions although that was the opinion of the sheriff and other authorities yesterday. The message from Pilot Rock simply stated that "Shorty" Saunders had stabbed a man, and by reason of his previous record, the local man was promptly thought to be the guilty party. This morning Sheriff Taylor was very much surprised when the prisoner was turned over to him to find that he was a stranger. He is built very much like the other "Shorty" but bears no other resemblance. His name is Walter Saunders. The "Shorty" Saunders so well known about here has been working and is still on the George La Fontaine ranch on the reservation. Due apologies are tendered him.

**Halt French Mobilization.**  
ST. JOHNS N. F., Aug. 14.—The governor of the French island of Milquon has been notified to take no further steps to mobilize the reservists there or the fishermen on the Grand Banks. This announcement was made here by the French consul, who said orders to that effect had been received from France.

**Russian Dowager Is Ill.**  
BERNE, Switzerland, via Paris, Aug. 13.—The Dowager Empress Maria Fedorovna, of Russia, has arrived here seriously ill and it is said will undergo a surgical operation. The dowager empress, who is the sister of Queen Mother Alexandra, was stopped in Berlin on August 3, on her way to St. Petersburg. Eventually she was permitted to go to Stockholm. She has decided to remain in Switzerland during the war.

**France Completes Mobilization.**  
PARIS, Aug. 13.—France's mobilization has been completed it was stated today. Aviators have fully informed General Joffre, the French commander, of Germany's military dispositions and the French are prepared everywhere. The war office admitted the Longwy forts are engaged with the Germans.

### CARBALAJ ON THE WAY TO MEXICO CITY

MEXICO CITY, Aug. 13.—Carbalaj was enroute from Vera Cruz today and federal troops are evacuating the city. It was reported the federal powder has already been turned over to Eduardo Iturbide, governor of the federal district but confirmation is lacking.

Probably the easiest way to convince a man is to agree with him.

•••••  
• 3 MEN KILLED IN MINE EXPLOSION •  
• BAKERSFIELD, Cal., Aug. 13.—Three miners are reported to have been killed and several entombed by an explosion in a mine near Kernville. Members of the Bakersfield fire department with smoke helmets have gone to the scene in automobiles. •••••

## Did You Ever Stop to Think What Makes The Golden Rule Pendleton's Big Busy Store?

We quote a remark that's heard quite often, "You can attend these sales, look around, then go to The Golden Rule and buy goods far less at regular prices." Its no wonder this is a big busy store.

How can we do this? We know how to buy, we know where to buy we buy direct from the manufacturer for cash, we sell direct to you, cutting out all the middle man's profits which we give direct to you for cash. That's how we do it.

### Price Bulletin New Clean Merchandise. Compare It.

### LOCAL MAN BAGS DEER IN MOST REMARKABLE MANNER

#### HERMAN ROSENBERG, DRIVING IN AUTO, KILLS ANIMAL FIRST SHOT.

There have been three deer killed in Umatilla county so far this season, according to the best information obtainable, and two of them have fallen before the rifle of Herman Rosenberg. He got one near Hadway Springs during the first few days of the month and his second was bagged this morning as he was coming to Pendleton from Lehman Springs by auto.

In company with John Eggers, Rosenberg left the springs early this morning and had not come far when Rosenberg detected a big buck not much over 100 yards away. Eggers was driving and stopped the car. Rosenberg jumped out and at his first shot sent a bullet squarely through the heart of the animal. It ran perhaps forty yards before falling dead. It proved to be a four-pointed buck. The two men dressed it and hung it upon a tree to await their return. The head and antlers and the heart they brought in with them as trophies of their extraordinary feat. According to the law, Rosenberg can bag only one more deer this season but the great majority of hunters would feel satisfied if they could fare half as well as he.

The commodity is expected to go higher, as the dealers are short on stock and as England is bidding above parity in the Cuban market, no relief can be expected from that direction.

#### Heiress at Poor Farm.

CHICAGO, Aug. 13.—An heiress to an estate of \$50,000 has been cared for by the county in the institutions at Oak Park. She was sent there by her grandmother.

The girl is Mary Field, 17 years old and was found in Oak Forest by Miss Amelia Sears, of the bureau of public welfare, who has been investigating the conditions of the young dependent of the county.

Miss Sears became interested in the girl and was seeking some way to remove her from the county's charge. She learned that the girl's paternal grandfather in Milwaukee left an es-

tate of \$50,000, in which the girl was to share as long as her grandmother lived. Miss Nellie Garland was appointed to care for the girl and protect her interests in the estate.

A report of the work of the public welfare bureau shows that eight children have been moved from county institutions, saving the county \$1289.

#### Navy to Censor Wireless.

WASHINGTON, Aug. 13.—Secretary Daniels instructed navy commandants to detail officers to wireless stations in their vicinity as censors. All messages of a neutral character will be transmitted, but no code messages will be received. This order will affect principally the German-owned stations at Sayville, L. I. and Tuckerton, N. J.

Peter Loggie, North Bend, is planning a \$45,000 brick apartment.

Many staid to see it a second time. Every one Praised It.  
TONIGHT ONLY  
**The Alta Theatre**  
Admission 15c Children 10c

#### War Causes Sugar Advance.

SAN FRANCISCO, AUG. 13.—The most important local development in the market situation due to the war was the sensational advance in the price of sugar, which went up three-quarters of a cent, the greatest jump ever made in one day in the local history of this industry.

The Western Sugar Refining company advanced sugar from 4.70 to 5.45 cents, an increase of \$15 a ton. The California-Hawaiian Sugar Refining company quoted an advance of 55 points.
