CHAMBERLAIN STRONG WITH VOTERS OF CENTRAL OREGON SAYS STOCKMAN

PORTLAND, Ore., Aug. 21.—J. F. Mahon, one of the largest farmers and stock raisers in Harney county, is in Portland on business. He tells of good crops and prosperous conditions in Harney county. The crops will be mostly used for feed but the railroads getting nearer all the time will enable some portions to be shipped out from favorably situated points. In his 35 years of experience in Harney county Mr. Mahon said he had never seen better crops nor better times.

Mr. Mahon takes an active interest in politics, and comes in contact with many citizens in all parts of Harney, Malheur and Grant counties.

"In that section of Oregon George E. Chamberlain will get all the democratic votes and many republican votes," said Mr. Mahon. "That will be the case all over eastern Oregon from what I can learn."

"Everybody around our country thinks Chamberlain is the greatest man Oregon has ever had. They look up to him as the greatest man in the United States senate because of what he has done for Oregon, Alaska and the whole western country. In fact, most of us think we would rather have Chamberlain for another six years right where he is than have Hanley and Booth both there."

"When the tariff bill was up I wrote to Chamberlain to remember that we wool men had babies to feed, and to stand up for wool. He wrote back something like this: 'Jim, hold your wool. The tariff don't help you with wool. It has not kept the price of wool up these 10 years and more. Hold your wool, and it will fetch

better prices than it ever has before. Take it from me, Jim.' That wasn't exactly his language, you understand, but I have his letter. It was a very nice letter, and I showed it around to my friends and neighbors. 'Just political stuff,' they said. 'Just political stuff,' he is polling a friend, and so on. Then everything come around just as Senator Chamberlain said. Lots of those republicans who knocked him right along are staying with him and standing up for him. The grass is going to be short for Booth over there, yes, indeed."

Mr. Mahon will visit Salem before returning to his little 6000-acre home in Harney county.

Constipation Causes Sickness. Don't permit yourself to become constipated, as your system immediately begins to absorb poison from the backed-up waste matter. Use Dr. King's New Life Pills and keep well. There is no better safeguard against illness. Just take one dose tonight. 25c at your druggist.—Adv.

WASHINGTON EXPECTS FIGHT BILL TO PASS

SEATTLE, Wash., Aug. 21.—It seemed assured today that a bill providing for a state boxing commission will be introduced into the state legislature at its next session in January, 1915. Dan Salt, a Seattle boxing promoter, is fathering the idea, and has drafted a model bill passed on the New York Montana and Wisconsin laws.

The bill provides among other things for five commissioners to constitute the state boxing board; that all bouts shall be ten rounds, no decision affairs; that all promoters shall deposit \$2500 with the commission to be forfeited if the law is violated;

that no boxer shall be matched with a man outweighing him more than 10 pounds, and that the commission shall exact a fee of five per cent of the gross receipts, thus guaranteeing the state a profit whether the promoter wins or loses.

If you are sick and depressed, and all "out of sorts," there's nothing that will so quickly set you right as Hollister's Rocky Mountain Tea. One package makes over one hundred cups of tea. At druggists, 35c. Tallman & Co.—Adv.

A baby's thirst is not satisfied by its diet of milk. He should be given

Ten to twelve drops of tincture of camphor in a glass of water makes a good daily wash for the teeth.

It is said that clear complexions wait upon the consumption of oranges. They do much to keep the complexion in order and nothing makes the skin so clear and fresh as a good digestion.

The eyes should be washed after a dusty journey, for they get dirty just as the rest of the face does. An eye cup is required for this. Once having learned to use it, you will never again neglect this part of your toilet.

Woman and Her Varied Interests

Social and Club News, Personals, Fashions, Home Hints and Other Items of Interest to the World Feminine.

SOCIAL

Announcements of the wedding of Dale Slusher of this city and Miss Sallie Sterrett of Portland, which was celebrated in the latter city Wednesday, are being received by Pendleton friends. They will be at home in this city after November first.

Mrs. Thomas F. O'Brien accompanied her husband back from Massachusetts where they spent several weeks with friends and relatives.

Miss Gladys Bolton of Portland, who spent several weeks here this summer as the guest of Miss Muriel Peringer, recently underwent an operation for appendicitis and is now in a Portland hospital.

Mr. and Mrs. Walter McCormack and daughter, Evelyn, left yesterday for Seattle and will sail today from that city for Alaska. They will be gone about five weeks.

Mrs. J. H. Dunham and son, Howard, left yesterday for Dayton, Washington, to visit with Mrs. Dunham's mother.

Miss Winifred Bent, a popular University of Oregon girl, returned on the early morning train yesterday to her home in Portland after a visit with friends in this city and Athens.

Mr. and Mrs. George B. Woodward, prominent Adams residents, were in the city yesterday. They will leave on a short trip to the sound and Portland next week.

Miss Lillian Miller of Baker, arrived in Pendleton yesterday to visit with friends.

Mr. and Mrs. George W. Hansen, Jr., returned this morning to their home in Portland after visiting for two weeks with Mr. Hansen's brother, Victor Hansen.

Mrs. Albert Bowker of Heppner arrived in Pendleton this morning for a short visit.

Home Hints and Recipes

Dictates of Fashion. Buttons are peculiarly decorative this season. Slip-on blouses are a little like middie blouses. Pure apple green is often seen in evening frocks.

Beautiful afternoon frocks are made of taffeta, crepe or poplin, trimmed with Roman striped or plaid ribbon. Children's frocks are made of flowered crepon, one of the loveliest of materials for a little girl's frock.

One piece dresses have unfitted backs, which fall freely away from the figure without any suggestion of waist line.

The separate waist must blouse all the way round the figure, showing fullness under the arms as in back and front.

A pretty dress can be made of polkadotted lawn in navy blue and white, combined with plain, straw-colored batiste.

Children's frocks at present are beautifully simple and are easy to launder, which is a feature much in their favor.

Indications point toward an extensive use of satin for autumn dresses to succeed in a measure the now favored taffetas. Among the novelties promised are woolback satin suitable for suitings.

Health and Beauty.

Ten to twelve drops of tincture of camphor in a glass of water makes a good daily wash for the teeth.

It is said that clear complexions wait upon the consumption of oranges. They do much to keep the complexion in order and nothing makes the skin so clear and fresh as a good digestion.

The eyes should be washed after a dusty journey, for they get dirty just as the rest of the face does. An eye cup is required for this. Once having learned to use it, you will never again neglect this part of your toilet.

A baby's thirst is not satisfied by its diet of milk. He should be given

clean, cool water regularly every day. Boiled water cooled and given between feedings will often aid digestion and quiet restlessness. Regular hours, proper food and long hours of sleep are necessary to a healthy infant.

Good health, good grooming and a good complexion hold the secret of feminine beauty and charm, and it is a woman's own fault if she does not possess all these. Much depends upon her choice and use of her toilet accessories, for eternal vigilance is the price of beauty as well as of liberty.

If you know that you are going to hear a loud sound it is well to open the mouth as the shock will then be neutralized. Noises in the ears are most annoying and sometimes resist all treatment. They are often associated with deafness and should, therefore, receive due attention.

Concerning Women.

Paris has a Minnettes newspaper. A woman can exist on slightly less food than a man.

Maine is the latest state to grant pensions to widows.

There are over 150,000 telephone girls in the United States.

Clubwomen in Indiana propose to establish an opera company.

Pittsburgh clubwomen are asking for a woman police chief.

Denver women are asking that they be drawn as grand jurors.

Mrs. M. H. Cole is president of a real estate firm in New York city.

Mary Carnell of Philadelphia is dean of the woman photographers in the United States.

Kansas has a school district which all women teachers pass up as undesirable because it is infested with rats.

Several women have passed the examination for the bar in Georgia, but have not been allowed to practice.

Instead of the elaborate gowns usually worn, the seniors of Vassar college this year will wear caps and plain gowns.

The Women's Aerial League of England has offered a prize of \$5,000 to the first aviator who flies across the Atlantic ocean.

Telephone Cozy.

She looks like a large sized tea cozy the exquisitely dressed lady doll who stands on a table in the entrance hall, and one wonders how she happened to be left there until a little bell rings imperatively and somebody, hastily brushing aside her skirts, cries, "Hello!"

She's the telephone cozy and in order that her petticoats may be wide enough to flow gracefully over the wire case on which her body is posed she must be arrayed in a costume of an earlier period. The early Victorian, eighteenth century or Elizabethan will do, but be sure to get a bisque doll whose trunk will be in proportion to legs that should be as long as the height of a telephone instrument.

The case is made of stout wires, curving from a base like the crown of a hat but slightly bent back near the front, where the skirts part to allow the telephone receiver to be easily taken up.

Test For Silk.

Why did your last year's silk split and crack? Because it was weighted. You might have tested it easily before purchasing and saved both money and worry. A bit of the silk and a match are all you need for a sure test. Light the match and apply to the fabric. If it holds its shape the silk is adulterated with some of the various minerals so used. If it melts down in burning and runs together in a puffy mass the silk is pure. This is one of the tests given in the correspondence course in fabrics offered by the University of Wisconsin.

Cashmere Again.

Rumor tells us that the cashmere which our mothers and grandmothers wore with such dignity and grace, and which Dame Fashion has frowned upon for many years, is once more to hold a place in popular favor, and that the dressmakers are planning to show models made of this material in their early fall openings. The cashmires which our grandmothers wore were all wool, but we are promised a silk cashmere in heavy weight which will be charming for afternoon costumes with a velvet coat to complete the suit.

SUPFRAGISTS INVESTING FORMER DIVORCE CENTER

RENO, Nev., Aug. 21.—This former seat of divorce activity is now one of the hottest suffrage spots in the west. With the Nevada equal suffrage league working hard for the women's rights amendment to be voted on in November and the Nevada association opposed to equal suffrage striving with equal energy to defeat it, the "vote for women" issue is becoming ever shadowingly important in the present state campaign.

The "antis" policy has been to wage their fight by means of literature to voters throughout the state, and will be supplemented late in the campaign by a series of addresses by representatives of the national organization. The suffragists have not despised literature but they have made a speaking campaign from the start. Thus far Nevada women have done most of the talking. Distinguished orators from other states are expected later.

Miss Jane Addams of Chicago, is one of those who will tour the state late in the fall. Dr. Anna Howard Shaw is expected about the same time. Mrs. Grace Cotterill of Seattle, will lend her aid and Dr. C. F. Aked of San Francisco, is scheduled to spend a week in the state just before the campaign ends.

One of the features of the contest has been the anti-suffrage activity of George Wingfield, a dominant figure in Nevada mining and banking circles who says he will leave the state if the suffrage cause wins. Miss Anna Martin, state president of the equal suffrage league, declared today that the suffrage cause will win if the women work hard enough.

Infection and Insect Bites Dangerous. Mosquitoes, flies, and other insects, which breed quickly in garbage pails, ponds of stagnant water, barns, musty places, etc., are carriers of disease. Every time they bite you, they inject poison into your system from which some dread disease may result. Get a bottle of Sloan's Lintment. It is antiseptic and a few drops will neutralize the infection caused by insect bites or rusty nails. Sloan's Lintment disinfects Cuts, Bruises and Sores. You cannot afford to be without it in your home. Money back if not satisfied. Only 25c at your druggist.—Adv.

SOCIAL SERVICE BUREAU NAMES ADVISORY BOARD

NEW YORK, Aug. 21.—Dr. William Carter, head of the Church and School Social Service Bureau which has been organized for the purpose of putting high class motion pictures in the schools and churches of the United States announced his advisory board today. The list contains the names of a large number of men prominent in the religious and educational circles of the country.

"Our Bureau seems to have arrived at a very encouraging state of being," Dr. Carter said. "We have a fine list of men who are all eager to see the movement succeed and I have faith that every one of them will do his utmost to help along the movement which we have undertaken."

"First we will have the very great facilities of the International Educational League of which the Duke of Manchester is the head and which is allied with our organization for mutual good, one to the other. Then we have Dr. Charles H. Parkhurst as vice-president and the Duke of Manchester as international vice-president."

"Bishop E. R. Hendrix is to be the supervisor of our biblical department. Dr. Edward Judson is to have charge of the missionary department and Dr. Francis Brown will be head of the department of oriental manner and customs and President Hidden of Princeton will be at the head of our educational department."

"These men will pass on the subjects and the manner of presentation of them in the various departments of the work as we will take it up. They will, of course, be assisted by the members of the advisory board who are assigned to their respective departments."

Cowboys Titles Decided.

CHEYENNE, Wyo., Aug. 21.—The year's championships in all classes of cowboy sports will be decided here before tonight. This is the closing day of the eighteenth annual Frontier Days celebration and the finals in all contests are being staged. Principal interest centers in the amateur bucking contest, ladies' championship roping, bucking and pitching contests, cutting out marked steers, men's championship steer roping competition. The most fiery and untamed horses that could be found were brought out today for the rough riders. Some of them have never been broken to the saddle.

Department Shakes-up.

WASHINGTON, Aug. 21.—A shake-up among the heads of the Department of Agriculture went into effect today, Dr. B. T. Galloway, assistant secretary, resigning. The new assistant to Sec'y Houston is W. A. Taylor, former head of the Bureau of Plant Industry. Dr. Galloway takes charge of the New York agriculture experiment station at the Albany state university, with 2,500 students in his care.

One would have to draw a veil over the experiences of light housekeepers if the war should put the delicatessen stores out of business.

CASTORIA

For Infants and Children. The Kind You Have Always Bought Bears the Signature of *Wm. D. Galt*

FACE A SIGHT WITH ERUPTION RESINOL CURED

Philadelphia, Pa., Dec. 5, 1913: "I had a small pimple on the side of my face, and it kept getting larger and larger. It had spread over one cheek, and as it would spread water would come from it and every place the water would touch, another sore would form. It itched and burned and my face was a sight. I used several salves and ointments that were recommended, but none helped, until I tried Resinol Soap and Resinol Ointment, which relieved me at once, and after using it about two weeks, my face was entirely clear. I cannot praise Resinol enough." (Signed) Mrs. Rose Muller, 1313 Snyder Ave.

Physicians have prescribed Resinol for nineteen years and every druggist sells Resinol Soap (25c), and Resinol Ointment (50c and \$1). Don't be deceived by the useless "substitutes." For free trial, write to Dept. KK, Resinol, Baltimore, Md.

HOLD UP PITTSBURGH BANK.

Bandits Escape With Cash From Institution in Suburb.

PITTSBURGH, Pa., Aug. 21.—Two men entered the Homestead National bank at Homestead, a suburb of this city, covered the officers with revolvers, seized all the available cash and escaped in an automobile.

Most of the tellers and clerks were at lunch and Cashier John O'Leary, with George Turner, bookkeeper, were the only officials in the banking room. Several depositors stood before the tellers' windows, where Turner and O'Leary were conversing with them, when the two men entered. Both were heavily armed and commanded "Hands up!"

While one covered the officers and patrons of the bank, the other rober went behind the desk, scooped together all the cash in sight, jammed it hurriedly into a hand satchel, and then the two, with guns still covering victims, backed out the door.

At the curb stood an automobile belonging to a minister. Into this the robbers jumped and made their escape.

The amount of money stolen is not accurately known, but Cashier O'Leary thinks it is between \$2,500 and \$3,000. He described the men as being about 18 and 20 years of age. The police are searching the country.

Shriners on Picnic.

WASHINGTON, Aug. 21.—Capital Shriners today gave their annual picnic at Marshall Hall, the old Potomac homestead of John Marshall, first chief justice of the supreme court. Proceeds will supply Christmas baskets for the Washington poor.

Blood Tonic Has Important Meaning

Puts the Right Sort of Vim Where Most Needed.

To tone the blood means to enable it to throw off accumulated impurities, to increase the red corpuscles and to put the blood-making organs into such active condition as to produce that delicious sensation of what we feel as health.

This is the logical effect of using the famous blood purifier, S. S. S. Half the people you meet complain of weary muscles, aching joints, jaundiced nerves, and a wonderful desire to lay down and just quit. Most of these people have been using here that spasmodic flare up the nerves only to die down again, as die they must. Avoid nerve stimulants. Bear in mind that this worn-out feeling is due to poor blood, to bacteria in the water you drink; to the multiplying of destructive germs in the blood faster than they can be overcome by the white corpuscles; and to what is known as auto-toxemia, that condition where the venous or impure blood accumulates faster than it can be replaced by the red arterial blood.

S. S. S. has long been famous as a blood purifier, and its action by elimination of the irritating poisons that infect the blood, is one of the very important things to know. You can get S. S. S. at any drug store, but take no other so-called blood purifier. S. S. S. is purely a vegetable product, and you will not find it in any other form. It is a most valuable preparation that may do you irreparable harm. S. S. S. is prepared by The Swift Specific Co., 533 Swift Bldg., Atlanta, Ga., and if you have any despondent or impure blood trouble, write to their Medical Dept. for free advice. It will be worth your while to do so.

KAISER WILHELM AND AIDES STUDYING WAR MAPS IN THE FIELD

Kaiser Wilhelm has spent many years in the practical study of war, and this photograph shows him in the field as he has been for several days studying the war maps to learn the geography of the country over which he had to lead his troops
