

FOR Public Welfare VOTE 341 X NO

The Measure known as the Dentistry Bill should be defeated, because:

The laws regulating the practice of dentistry, as they now stand upon the statute books, are framed for the protection of the public and not for the special privilege of dentists.

You are asked to do away with this protection by lowering the qualifications of persons seeking to practice dentistry in Oregon.

This is the "joker" in the Dentistry Bill:

Section 1. "The following persons shall be entitled to practice dentistry in the State of Oregon.

"First: A graduate of any reputable dental college in good standing which requires a course of study of at least two school years, having a yearly course of study of not less than six months."

There is no dental college with a course of only two years of six months each.

All dental colleges require three years of eight months each and the trend is toward four years of eight months each.

No other State in the United States admits a dentist to practice without an examination. The proposed measure throws down the bars to quacks, charlatans and other incompetent persons unable to meet the requirements of other States.

The laws of Oregon regulating the practice of dentistry now require that a dentist have both professional and moral integrity. The license of any dentist may be revoked for habitual drunkenness, malpractice or moral turpitude.

The proposed measure repeals all laws now on the statute books regulating the practice of dentistry; thereby removing moral safeguards and professional standards now established. Do you want a dentist of this class to practice in your family?

It would make Oregon a reproach among all the States of the Union.

It would set back the educational and welfare movement begun by the dentists of the State.

It will destroy the efforts of 25 years to bring the dentistry laws of Oregon to their present standard.

It will help spread disease and infection by throwing Oregon open to dentists with unsanitary methods and dishonest practices.

Would you have a lower standard for your dentist than for your physician or veterinary surgeon?

If not, defeat this vicious measure by voting

Russian Port Is Shelled.

PARIS, Oct. 3.—A Petrograd special to the Havas Agency, dated September 30, says:

"The details of the naval engagement which took place September 24 off the coast at Windau, a Russian seaport in Courland on the Baltic, have been made public. It appears that a German squadron, comprising 48 ships of all classes, appeared off the harbor and was prevented from landing forces by the heavy fire from the forts. One officer and two sail-

ors were killed and three more were drowned.

The ships withdrew, but on the day following two cruisers returned, opened fire and destroyed the light-house. They killed a civilian and a number of soldiers but were driven off again by the fire from the forts."

\$5,000,000 Gold Shipped.

NEW YORK, Oct. 3.—The first shipment of gold to Ottawa, Canada, for account of the \$100,000,000 gold pool, raised to pay indebtedness abroad, was made when \$5,000,000 in coin was taken from the subtreasury and assay office. It is the purpose of the managers of the fund to ship at least \$25,000,000 to Canada by the middle of the month.

There was a further decline in exchange on London today in consequence. With cables at \$4.97 1/4 and demand a cent under that quotation, exchange now is about 5 cents under its high rates of the early week.

WOUNDED BRITISHER DESCRIBES FIGHTING

STORIES OF COOLNESS AND DARING MARK SOLDIERS IN THE FIELD.

FOLKESTONE, Eng., Oct. 3.—A wounded British officer arriving from the front tells the following:

"A pretty little fight was seen over the British lines at Cambrai. A French aviator swooped in the air down on the German observer. They fought in the air as hawk and heron fight. Up and up they went as in whirling circles till at last the Frenchman soared aloft, got above his antagonist, and "outed" him with a shot from his quick firer. He fell a mangled mass, in front of our trenches.

"Thomas Atkins remains the cool, imperturbable creature that he has always shown himself. An officer lying in a trench under a terrific shell fire heard a voice at his elbow saying: 'Beg pardon sir?' He looked up. There was a private standing upright at the salute. 'Beg pardon sir? May I fall out?' 'I've been 'it three times.'"

"It may have been the same day. Anyhow, the conditions were the same. It was dinner time. But in this war there is no dinner rush from twelve to one. The shells continued to roar. But fifty yards behind the trenches, screened by a belt of trees the battalion reserves had their fires alight and employed their time cooking dinner for the battalion. That was all very well. But fifty yards of shell-swept ground between left the men in the trenches a long way from their dinner. Fortunately the front was clear for a short time of hostile infantry. An officer called for volunteers.

"Immediately a host of volunteers sprang up. Away they raced to the belt of trees and returned triumphant with mess-tins riddled with shrapnel bullets and some of their number on the ground, but with dinner for the famished battalion. The men who fetched David the water from the well of Bethlehem were no mightier men of valour."

WESTON EDITOR PAYS A TRIBUTE TO THE ROUND-UP

CLARK WOOD SAYS SHOW WAS A "SPECTACULAR TRIUMPH" EVERYWAY.

A splendid tribute to the Pendleton Round-up is paid by Clark Wood, editor of the Weston Leader, in his latest edition. "A Spectacular Triumph" is the way he heads his article which reads as follows:

"The Pendleton Round-up was striking, bizarre, magnificent; the parade a triumph of semi-barbaric splendor; the grand entry a shining, scintillating, sinuous spectacle under a September sun. One thrilling event after another was 'pulled off' in rapid succession, without a moment's delay, so expertly have become the Round-up directors. The bucking contests, especially in the finals, reached the acme of the buster's strenuous art. As a tank show of the kerosene circuit to a Broadway success was the feeble imitation produced by a neighboring although not a neighboring city. It could only interest those who had never seen the Pendleton Round-up and were thus denied the opportunity of comparison. One show was slow, dragging, listless; the other brilliantly and bewilderingly fast. By the way, we wonder if the heretofore unmentioned city will again proclaim its own lack of initiative and originality by endeavoring to misappropriate the happy idea of Happy Canyon?"

In an editorial squib, the Weston editor voices a single disappointment as follows:

"We regret to report that as Happy Canyon druggists Col. Raley and Doc Summerville were dismal failures, neither being seemingly able to comprehend the significance of a wink."

Montana Auditor "Fired."

BUTTE, Oct. 3.—James Kane, auditor of Silver Bow county, was removed from office by Judge Advocate Jesse B. Root, of the summary military court and fined \$200 because of the disrespect he showed to the military arm of the government when he wrecked the tailor shop of the national guard in the court house.

Kane's office in the courthouse, which has been taken possession of by the soldiers since the military occupation of Butte, had been transferred into a regimental tailor shop.

One is safe in assuming that the newly elected head of the Laundry Owners' National association has a clean record.

Rhine Defended, Report.

ROTTERDAM, Oct. 2.—A significant message reaches here from Utrecht to the effect that all transportation of merchandise to Mannheim, Baden and beyond has been stopped by German orders. This traffic would of necessity go along the Rhine and the whole western frontier of Germany.

This statement, read in conjunction with the report from Amsterdam that the Germans are seriously reinforcing the fortifications at Cologne and Düsseldorf, making every preparation for defending the towns, suggests that the whole right bank of the Rhine is being prepared for defence and that the Germans are anxious that even the Dutch shall not see their preparations.

Disease Among Troops.

PETROGRAD, Oct. 2.—From the front came the news that the Austrian effort to check cholera and dysentery epidemics among the soldiers were failing. The Russians were taking stringent precautions to prevent the disease spreading to their armies. All captured Austrian forts were being destroyed and safeguards taken against contaminated water. Thus far no cholera has appeared in the Russian ranks.

The worst ordeal a small boy has to face is plenty of pie and a limited capacity.
