**Wool For Troops Bought**  
LONDON, Oct. 6.—Since the close of July auctions a generally good demand has been experienced for wools suitable for manufacturing clothing.

Scoured cross-breds and New Zealand alpes seem to be most favored, and about 26,000 bales of this description have been sold at prices ranging from 7 1/2 per cent to 10 per cent advance on levels ruling at the close of the July auctions. the action, said it had been suggested that many members might be glad to send to the Red Cross checks for \$20, the usual price of tickets.

In his statement Mr. Low said: "The chamber has borne and will bear to the utmost its share of the world's heavy burden, but it cannot make merry when so many are sad."

### CHARACTER STUDY OF MACK'S \$100,000 INFIELD

Here is Connie Mack's \$100,000 infield, the four men with whom he has won pennants in the American League and world series in the past few years. Each member of the famous infield looks like a very determined and wise young man who will not get rattled under trying circumstances. Nor have they failed to live up to this estimate. There have been infields in baseball which have fielded better than these four men taken as a whole, and several have fielded as well. But there have been few which batted and fielded as well. There have been firstbasemen as good as Collins, second basemen as good as Barry, and third basemen better than Baker. But taking them for their batting and fielding ability there have been very few combinations to equal them.

### OFFICER TELLS HOW MEN FELL IN FIGHT

**"LIKE CORN BEFORE THE REAPER" IS DESCRIPTION OF WOUNDED MAN.**

LONDON, Oct. 7.—"Men fell like corn before the reaper," a wounded lance sergeant in the King's Own Yorkshire Light Infantry wrote home to his mother from the hospital ship St. David. "Now its over I must say the last few days have been horror, fighting all the time," he continued. "Our last action was the worst. I tell you truly I never expected to get out alive. The Germans must have lost thousands but they were ten to one so we had to retire. The shrapnel and hail of lead and bullets, I see it all now, and I was one of the last to leave the field. I won't say more, but I got a bullet in my right leg and kept on for twenty yards or more. I got a great piece of shrapnel in my neck—laid me senseless. I came to again and as if possessed ran through it all and made good. Its wonderful how you can run with a bullet through your leg. I have not been at it long but fellows say they saw more in the last four days than they did in three years in Africa. That's the truth. Ah, well! I'm not grumbling. I'm not disgraced nor maimed like so many poor fellows, so let us rejoice over it all. Some of our engagements lasted thirteen hours, and the last—and worst—ten hours. So tired, must sleep."

**Cloudburst on the Santa Fe.**  
NEEDLES, Cal., Oct. 7.—The main line of the Santa Fe railroad was tied up temporarily soon after midnight by a cloudburst in the desert near Goffs, 20 miles west of Needles. Three inches of rain fell within an hour. Transcontinental trains would be resumed, it was thought, by noon.

**Baby Advice Over Phone.**  
CLEVELAND, O., Oct. 6.—Cleveland mothers have inaugurated a new sort of "visit" to the Baby Week show of the Welfare Council and the Department of Child Hygiene.

Scores of mothers "visited" by telephone, asking nurses from the Babies' Dispensary, who are in charge, all sorts of questions about the care of their children. Most of them had visited the show in person earlier in the week, later recalling points they had forgotten to ask about when they were at the exhibit.

At the door of the exhibition room sits a girl, presiding over a queer looking little machine. It is a tabulator, and keeps track of the number of visitors. Yesterday its total was 1596. Fifty babies in arms were brought and a like number of older children were among the visitors.

Many mothers have shown intense interest in the Babies' Dispensary work, declaring that until they visited the exhibit they were not aware that the city maintained a dispensary system. These applicants have been given the address of the dispensary nearest their homes.
