

# A GOOD STORE!

What is a good store? It is NOT a question of how large but it is a question of Merchandise priced right. Merchandise that is selected right and Merchandise that is placed into your hands with the right kind of service.

When the price is placed on an article here, it is with the idea of selling it, NOW, at a price fair to buyer and ourselves; not with the idea of cutting the price later, thus giving the early buyer the-worst of the deal by paying more than is right to balance up a cut price to a late customer. Then again we personally select our goods with the assistance of an Eastern man, thus getting the right goods. As to service, we aim to give the best in Pendleton.

"Not how large, but how good."

## PRISONER GIVEN HEARING.

(Continued from page one.)  
His description was sufficient to identify him to Frank Curtis, deputy sheriff of Multnomah county, and C. R. Holley, Portland detective, who were on the job here during the Round-up and they soon had him under arrest. Moorhead, Morgan and Harmon all identified him but in the Round-up confusion, the names of the painters were not secured and it was not until yesterday that they could be served with subpoenas. They arrived from Portland this morning.  
Sisco had been working for a short time for Lester Miller, a cleaner and presser on Cottonwood street. The police have looked up his record and find that he has been arrested several times in Portland as a suspicious character. Recently he put in a claim against the O-W. R. & N. for damages for being put off the train at Hood River. Previously he had accused the porter of robbing him and when Claim Agent Bert Wilson, who happened to be aboard, pulled two five-dollar notes from under his collar, he accused that official of standing in with the porter. His claim was never paid.

## FROM THE PEOPLE

Oregon City, Ore., Oct. 6, 1914.  
Editor East Oregonian:  
Will you or your readers, or some of the mortgage and diamond owners who are opposing the \$1500 Home Tax Exemption, kindly and fully answer the following questions?  
\$1500 invested in a mortgage is not taxed in Oregon. Why should not \$1500 also be exempt if it is invested in farm buildings, cows, teams, land clearings and orchards with which to make a living?  
\$1500 spent for diamonds and jewelry "in actual use" is by law exempt from tax in Oregon. Why should not \$1500 spent for a dwelling house and furniture "in actual use" be exempt from tax?  
The proposed \$1500 Home Tax Exemption does not apply to corporations. The great department stores will get nothing from this, neither will the six scrapers nor the railroads but the little merchant may save something on his taxes.  
The mortgage tax law of Oregon was repealed in 1893, and mortgages have not been taxed since then. In most of the counties, including Clackamas and Multnomah.  
No one can justly oppose allowing the farmer and the little home owner so small an exemption while so many wealthy people and corporations are exempted on their mortgages, and dia-

monds, not to mention the money on which they never do pay tax. Sincerely yours,  
W. S. UREN.

## LOCAL PRINTERS STRONGLY ENDORSE SMITH FOR GOV.

(Continued from Page 1.)  
ers on the two daily papers, both being union shops, and in their resolutions regarding the governorship the printers express the following sentiments:

Whereas, the candidacy of Dr. C. J. Smith for governor of Oregon has features that appeal with force to workmen who know him and who know his views on political, economic and social questions. Among the admiral qualities of Dr. Smith may be named a true democratic disposition that makes him ready at all times to give ear and attention to the poor man as well as the rich; a spirit of fairness that causes him to look at the real merits of public questions and to decide issues justly; a broad intelligence that gives him faith in the common people and makes him the champion of such laws as the direct primary law; a high personal character that has always kept him aligned with the clean element which stands for honesty and decency in public affairs and for the enforcement of the law.  
Whereas, the candidacy of Dr.

of England, France, Germany and Russia are not permitted to use a pound of alum baking powder. The efficiency of the soldiers depends too much upon their health and endurance to risk the use of food which the authorities believe would be detrimental. Therefore the manufacture and sale of the alum powder is prohibited.

Royal Baking Powder is extensively used privately and by the military forces throughout the world. Its absolute wholesomeness, imparting as it does, healthful as well as appetizing qualities to the food, and its perfect keeping qualities in every climate and under different conditions, make it particularly desirable for all conditions of use.

# ROYAL BAKING POWDER

Absolutely Pure No Alum

Smith should have especially support from workmen because his opponent in the race for governor is of the over conservative type; has shown himself unfriendly to the direct primary law and during this campaign has spoken in criticism of the policy of excluding Chinese labor from the United States.  
Therefore be it resolved, that the members of Pendleton Typographical Union 214 hereby endorse the candidacy of Dr. Smith for governor of Oregon and urge his election by the people November 3.  
Be it further resolved that publicity be given to this action.  
D. C. BROWN, Vice President.  
FRANK J. DEEBACH, Secretary-Treasurer.  
The resolution is being published in this week's issue of the Portland Labor Press.
