The books of Sheriff Taylor, Clerk Saling, Treasurer Bradley, Recorder Burroughs and School Superintendent Young will be audited, they being the only officials who handle any funds. ### Howitzers Fell Many.

BERLIN, Oct. 14.—What the effect of the German field howitzers fire can be when directed from troops in close formation, is described in the letter of a German officer, which, published in the Cologne Gazette of September 26, reads in part as follows:

"On August 22, at 8 o'clock in the evening, just as we were about to go into quarters, a fight developed suddenly. Before we knew what had happened we were in the thick of it. It was a quick victory. The French were badly thrashed. That night we slept in a ditch along the highway with the starry sky for a blanket. The cold was mean.

"On the following day matters proceeded. The French were retiring on the road to Sedan. Following them we saw terrible scenes. This was especially true of a stretch of straight road running through a forest. Here two French field artillery regiments had been annihilated. The pieces stood in the road in marching order; the horses, six to each piece, lay dead in the traces as if struck by lightning. Near them were scattered the dead officers' and men.

"There were 24 pieces of artillery and all their crews dead. The thing happened in 10 minutes, and a Captain Wilhelm is responsible for this fine piece of work. He surprised the French with his field howitzers at a range of 200 meters. The captain was shot in the chest, but he could tell us the story. One of the French officers, who happened to be a short distance away from the artillery, and who was wounded, told us that the experience was enough to rob anybody of his senses.

"I will never forget the awful picture. For two kilometers nothing but pieces of artillery, corpses and the skeletons of horses."

### Pope Names Secretary.

ROME, Oct. 14.—Cardinal Pietro Gasparri has been selected by the pope to fill the position of secretary of state, made vacant by the death of Cardinal Pezzata.

At one time he was secretary of state for extraordinary ecclesiastical affairs, an office which is a sub-division of the papal secretariat.

## AMENDMENTS TO H. SCHOOL CONSTITUTION RATIFIED

This morning witnessed the ratification of two amendments to the high school constitution. The resolutions for these amendments were before the student body about two weeks ago, and submitted for amendment. Today the amended resolutions were brought before the student body for the second and last hearing, and both were ratified by an overwhelming majority.

The first amendment provided for the creation of a student council and a uniform system of discipline within the school. The council is to be composed of a boy and girl from each of the four classes, one ex-officio member from the faculty, who are to be chosen immediately, and the president of the student body, who shall be chairman of the council, and of the hearings but shall not have a vote. All matters and grievances worthy the consideration of the council will be brought before it. It may make a decision in private, in case of an unimportant matter, or can bring important grievances before the student body where they will be heard and a decision given in regular court procedure. The best men and women of the school will represent this council, and all will be subject to recall by the class they represent. It is the sincere belief of the students and of the faculty that this council will be a great success in the preservation of order in the school.

### CAMPAIGN ONE OF PRINCIPLES.

(Continued from page one.)

ing great national policies and the national life of our republic. It involves the perpetuation of our institutions, the regulation of business, the destruction of monopoly, the denial of special privilege and the assertion of equal rights for all. It involves an approval of the policies of our magnificent president or their repudiation with such great issues at stake and I shall undertake to discuss them before the people.

"If my record for faithful public service counts for anything, if my efforts to carry out the policies of the president meet with approval then I shall be re-elected. If these policies do not find favor with the people of Oregon and if in their opinion there should be a reversal of them, then I ought to be defeated."
