PITFALLS FOR CITY MAN WHO WOULD BE FARMER

Department of Agriculture Advises Him to Try It Out as a Farm Hand Before Tying Up His Savings in a Farm.

WASHINGTON, Nov. 11.—The department of agriculture receives many letters from city people who have read glowing accounts of the wealth that may be made on the farm. A large percentage of those people have already bought farm land. Some of them appear to believe that the reason all farmers are not rich is because of extravagance, wastefulness, ignorance, and a lack of business ability. To these letters the department's specialists reply much as follows:

"As a matter of fact, farmers as a class are intelligent, industrious and economical, and many of them are men of good business judgment. Further, those who have made a thorough study of the business side of farming know that it is not an easy matter to make money on the farm. Most of the money that has been made on the farm in recent years has been made, not by farming, but by the rise of price on farm lands. In the nature of things this rise can not continue indefinitely, and some one will own this land when the price becomes practically stationary or perhaps starts to decline.

"A city bred family makes good on the farm, this is the exception and not the rule. It is always a risk to invest in a business without first making a thorough study of that business. Many city people who have saved up a few hundred dollars and who have had little or no farm experience, but who are imbued with a rosy vision of the joys and profits in farming, buy poor land at high prices and thereby lose the savings they have been years in accumulating. One city family paid \$10,000 cash and assumed a \$12,000 mortgage on a farm worth about \$11,000. Another paid \$2000 cash and signed a mortgage for \$6000 on a farm that was later appraised at \$3000. A city family that had saved \$2000 used this money to make a first payment on a cheap farm land, and when their eyes were opened found they still owed considerably more than the farm was worth. For seven years they have worked almost night and day to meet the interest, without being able to reduce the principal. These instances could be multiplied almost indefinitely.

"In purchasing a farm great care should be taken to get a good farm at a fair price. To pay or agree to pay more than the farm is worth is to invite failure. From a business standpoint no farm that does not pay interest on the total investment, depreciation on equipment, and wages for all labor performed on that farm is successful.

"Even when great care is taken in making the investment only in exceptional cases should the city bred family attempt farming. Generally the best advice that can be given to the city bred man who desires to become a farmer is that before purchasing a farm he work as a farm hand for two or three years. This will give him an opportunity to learn at first hand many things about the business, as well as the practical side of farming. In no other way, as a rule, can he get good farm training and experience at less trouble and expense or without danger from financial disaster."

WHEAT EXPORTS FROM U. S. MAKING NEW RECORDS

WASHINGTON, Nov. 11.—Large exports of domestic wheat in the three months which ended with September, 1914, brought the total for that period up to the highest point ever reached in the corresponding months of any year in the history of our export trade. The total exports of wheat, including flour in terms of wheat, in the first quarter of the current fiscal year aggregated 89,144 million bushels, as against 59 million in the corresponding period of last year and \$3 million in the July-September quarter of the fiscal year 1912, when exports of domestic wheat rose to their previous highest level. In the fiscal year 1912, the total was 234,722,515 bushels. Figures published in the "Monthly Summary of foreign commerce" by the bureau of foreign and domestic commerce of the department of commerce show that

the exports of wheat in the quarter which ended with September last exceeded those of the complete fiscal years 1910, 1911 and 1912.

Most of this greatly increased exportation of domestic wheat was distributed to European countries, September alone showing consignments, exclusive of flour, in the following amounts: To France, 7,572,000 bushels; the United Kingdom, 6,640,000; the Netherlands, 2,201,000; and other Europe, 5,390,000. Over 2,560,000 bushels were exported last month to Canada, while a very unusual transaction was the shipment of 580,000 bushels of wheat from Port Arthur, Texas, to Brazil. The notable feature in the outward movement of flour was the marked gain in shipments to Brazil and other countries of South America. Exports thereto in September were nearly double those of a year ago, while the aggregate to foreign countries as a whole showed practically no change.

The proportion of the domestic wheat product which is exported has greatly diminished in recent years. In 1901, 41.36 per cent of the domestic wheat crop was exported; in 1902, following the record-breaking crop of 748 million bushels for the calendar year immediately preceding, 31.37 per cent; and in 1908, 25.71 per cent, having fallen as low as 16.91 per cent in the fiscal year 1911.

Society

Mr. and Mrs. Wilson E. Brock last evening entertained the members of the Evening Bridge club and other guests at their home on the north hill. Honors were won by Mrs. John F. Robinson and W. L. Thompson. Guests outside the membership included Dr. and Mrs. Augustus E. Tammele, Dr. and Mrs. Wilson D. McNary, Mr. and Mrs. Sam R. Thompson, Mr. and Mrs. Tom Thompson, Mr. and Mrs. John Adams, Miss Edna Zimmerman, Miss Erna Thompson and Clarence M. Bishop.

Mr. and Mrs. Sam R. Thompson and Mr. and Mrs. Willard Bond were among those motoring over to Walla Walla this afternoon to see Nat Goodwin in "Never Say Die" at the Keylor Grand theater tonight.

The Auction Bridge Club held its first meeting of the season Monday evening at the home of Mrs. NeSmith Ankeny on the north hill.

Mrs. Conrad Kohler had as luncheon guests yesterday Mrs. C. Straub and daughter.

Miss Helen Cranston was a guest of Miss Bertha Anger in Walla Walla Sunday and Monday.

The Thursday Afternoon Club will be entertained tomorrow afternoon at the home of Mrs. G. Irving LaDow with Mrs. LaDow and Mrs. W. C. E. Pruitt as hostesses.

Greek letter fraternity men of Pendleton will meet about the banquet board at the Hotel Pendleton on Friday evening and will probably organize a Pan-Hellenic club. A series of these banquets has been planned.

Home Hints and Recipes

Rejection of Absurd Styles.

Looking over a book of ancient date, one finds that the writer had been asked why she did not speak out plainly in the way of counsel and reproof about the absurdities of the fashionable dress of those days. Almost in despair, the author asks, "What good would it do?" Writers of the present time have taken up the refrain and echoed and re-echoed it, while the fashions have grown more grotesque with each appearing season, until women themselves cried out in disapproval and designers swung back to the styles which were in vogue 50 years ago and of which the writers said when they were asked to protest, "What good would it do?" Women of today have proved what good it does for them to protest against absurd styles, for the designers are helpless before the women of the land who form the court of the highest appeal; it is for them to accept or reject as they will. The designers may plan the styles, but if women refuse to accept them there is nothing more they can do, unless it is to present them in a modified form until women become more accustomed to them, in the hope that they will finally accept.

There is no reason why women should wear inartistic or absurd styles, or any so unbecoming as those of a season or so ago were to most women. The great difficulty in bringing about a rejection of undesirable styles is that so many admire and accept startling models. It is not, however, the women of the highest type of refinement who adopt the extremes. Even in the fashion centers the women of the highest culture choose the artistic and refined in dress and manner, while the frivolities of fashion may dictate. Women may defy fashion with the utmost ease whenever they do not approve of the styles advanced, yet their rejection depends on the whole refined body of women standing as a unit in disapproval of the absurdities offered in apparel.

German Vessel Hits Mine.

COPENHAGEN, via London, Nov. 11.—A large German steamer has been blown up south of the Danish Islands of Langeland, in the Great Belt, by a mine said to have been placed by the Germans. Several of her crew were lost. In the last fortnight two large German trawlers and one German steamer have been destroyed in this region. There are no Danish mines in these waters, as they were gathered up by a Danish steamer some time ago.

JUDGESHIP MIXUP IN BAKER WILL NOT DELAY THE COURT

JUDGE MESSICK SAYS THERE WILL BE NO INCONVENIENCE TO PUBLIC.

BAKER, Ore., Nov. 11.—That there will be no inconvenience to the public and no mixup in the affairs of the probate or the county court on account of the tangle over the question of the county judgeship was the statement by Judge J. B. Messick, who yesterday qualified as county judge and put in claim to the office of Judge R. D. Carter.

"I will do everything possible to expedite matters," said Judge Messick today. "I have asked the clerk not to put the orders on record when they are filed but to hold them for a while until the question is settled. Then, in case the circuit court decides that I am the county judge, I will sign all the orders which Judge Carter has signed and nothing will be hampered. I have turned the case over to my attorney and we will file quo warranto proceedings in a very short time. I trust there will be a speedy settlement of the controversy."

Judge Carter has taken no action since he was informed yesterday by Judge Messick that Judge Messick claimed the office.

"I will await Judge Messick's proposed quo warranto action," said Judge Carter. "Then I will turn it over to my attorney. I will have 10 days in which to file a reply and I suppose that before the first of the year it will come up before the circuit court."

Trespassers Are Warned.

LONDON, Nov. 11.—A dispatch from Flushing, Holland, to Reuter's Telegram company says: "The Germans have issued a new proclamation prohibiting an approach on the waterways at Bruges. Trespassers are warned that they may be shot."

"Heavy guns have been mounted on the sand dunes along the coast from the north of Ostend to the Dutch frontier. Trenches have also been dug in the neighborhood of Heyst. Further reinforcements have reached the German fighting line during the present week."

433,247 Allies Captive.

LONDON, Nov. 11.—A dispatch to Reuter's Telegram company from Amsterdam says that figures received from Berlin say that up to last Sunday the German concentration camps and hospitals held the following prisoners: French, 313,000 officers and 186,779 men; Belgians, 327 officers and 24,907 men; British, 417 officers and 15,730 men. The correspondent adds that the Berlin dispatch says these figures do not include prisoners not camped.

News Companies Consolidate.

SAN FRANCISCO, Nov. 11.—The Brown News company, which operates on the Pacific and Atlantic systems of the Southern Pacific company, and the Van Noy Hotel and News company, operating between Chicago, Kansas City and New Orleans, have been consolidated under the name of the Van Noy Brown News company. Their headquarters will be in Kansas City, but the headquarters for the Western district, including all of the Southern Pacific trains and stands, will be in San Francisco, under the management of J. J. Mobley. The policy of the new company is purchasing its supplies will be, as far as practicable, to patronize local producers and to advertise in its wares the communities through which it operated.

Marysville Buys Auto.

INDIANAPOLIS, Ind., Nov. 11.—Next to taking part in world's series baseball games, Walter Marysville, famous shortstop of the Boston Braves, says that automobiling gives him the greatest pleasure. The diminutive shortstop has just purchased a Cole motor car, joining baseball's big army of motor enthusiasts.

The Supreme Court of Pennsylvania

has decided that the amount of damage collectible on growing timber set on fire through negligence is not only the value of the wood destroyed, but also the injury to the property as a whole through the destruction of the young growth.

BRONCHIAL COUGHS

When the bronchial tubes are affected with that weakening, tickling cough, they need immediate and sensible treatment. The breath seems shorter because of mucous obstructions; usually fever is present and your chest aches with every cough. Your chest aches and the inflammation often spreads to the lungs.

The food- tonic that has proven its worth for forty years—is Scott's Emulsion. It drives out the cold, which is the root of the trouble, and checks the cough by aiding the healing process of the enfeebled membranes.

If you are troubled with bronchitis or know an afflicted friend, always remember that Scott's Emulsion builds strength while relieving the trouble.

Scott & Bowne, Bloomfield, N. J.

Canal Plotter Caught.

LONDON, Nov. 11.—The Alexandria Egypt, correspondent of the Exchange Telegraph company sends the following dispatch: "A German officer named Mors was arrested by the Egyptian police on his return from Turkey with plans for dynamiting the Suez Canal. He was sentenced by courtmartial to imprisonment for life."

We're sorry if you've tried other medicines and they failed. As a last resort try Hollister's Rocky Mountain Tea. It's a simple remedy, but it's worked wonders, made thousands well and happy. Purifies the blood, makes flesh and muscle, cleanses your system. Tallman & Co.—Adv.

Grandsons Lose Contest.

NEW YORK, Nov. 11.—The will of Mrs. Emilie Huber, widow of Otto Huber, the St. Louis brewer, disposing of a \$6,000,000 estate to her sons, Joseph and Max, was executed by the testatrix without undue influence on their part, according to the verdict of a jury in the surrogate's court in Brooklyn.

William D. and Louis d'Estere, grandsons of Mrs. Huber, contested the will. They were cut off from a share in the estate.

FEARFUL HUMOR COVERED FACE—RESINOL CURED

PATERSON, N. J., Dec. 9, 1913: "About a year ago my face began to crack and get scaly in blotches. It soon got worse and my face was all spotted and rough, and it itched me very much at night, and caused me no end of discomfort. After a month or so, pimples and blackheads began to show, first in small numbers and then gradually covering my entire face. It was awful. The pimples were sore and the rash was itchy and my face had a most unattractive appearance. I could get no relief. Resinol Soap and Resinol Ointment caused me instant relief. By the time another jar of Resinol Ointment and cake of Resinol Soap were gone, I can truthfully say that it was a complete cure. My face had assumed its former color and look, due to Resinol Soap and Resinol Ointment. They are, I think, the best for any skin trouble." (Signed) Robert Troyano, 289 E. 21st Street. Sold by all druggists.

ORRINE

FOR DRINK HABIT

So uniformly successful has ORRINE been in restoring the victims of the "Drink Habit" into sober and useful citizens, and so strong is our confidence in its curative powers, that we want to emphasize the fact that ORRINE is sold under this positive guarantee.
