SCENES OF DESTRUCTION AT MALINES

At left the beautiful cathedral at Malines showing damage wrought by German shells. At right a shell hole in a dwelling at Malines. A woman and two children who sought shelter in this house were killed when the shell struck. The photographer shows a German soldier examining the hole.

IF MEALS HIT BACK AND STOMACH SOURS

"PAPE'S DIAPEPSIN" ENDS STOMACH MISERY, INDIGESTION FIVE MINUTES.

If what you just ate is souring on your stomach or lies like a lump of lead, refusing to digest, or you belch gas and eructate sour, undigested food, or have a feeling of distension, heartburn, fullness, nausea, bad taste in mouth and stomach headache, you can get blessed relief in five minutes. Ask your pharmacist to show you the formula, plainly printed on these fifty cent cases of Pape's Diapepsin, then you will understand why dyspeptic troubles of all kinds must go, and why they relieve sour, out of order stomachs or indigestion in five minutes. "Pape's Diapepsin" is harmless; tastes like candy, though each dose will digest and prepare for assimilation into the blood all the food you eat; besides, it makes you go to the table with a healthy appetite; but what will please you most, is that you will feel that your stomach and intestines are clean and fresh, and you will not need to resort to laxatives or liver pills for biliousness or constipation.

This city will have many "Pape's Diapepsin" cranks, as some people will call them, but you will be enthusiastic about this splendid stomach preparation, too, if you ever take it for indigestion, gases, heartburn, sourness, dyspepsia or any stomach misery.

Get some now, this minute, and rid yourself of stomach trouble and indigestion in five minutes.

HEAVY PENALTIES FAVORED.

OREGON CITY, Ore., Nov. 10.—The Clackamas county delegation at the state legislature will lend its support to a measure to put into immediate effect the prohibition amendment. The three representatives, Guy T. Hunt, C. Schuebel and C. W. Rieley, each have said that, in view of Tuesday's election results, they think it the duty of the legislature to enact a bill providing penalties for violations of the amendment. State Senator Walter Dinick is of the same opinion. Representative Schuebel advocates a decisive measure. He said this afternoon: "The voters want a dry state and I believe that the legislature should do its best to make the state thoroughly dry."

POULTRY INDUSTRIES WILL BE ENCOURAGED

GOVERNMENT TO TRY TO PREVENT MONOPOLY OF PACKING CONCERNS.

WASHINGTON, Nov. 11.—In an effort to guard against a tendency towards monopoly of the poultry by packing industry and to prevent its falling into the hands of a few big interests as has happened to the beef packing industry the Department of Agriculture has just issued a warning to chicken raisers to give encouragement and support to local poultry packing industries in all parts of the country.

"There is danger, poultry specialists of the department feel, that the poultry industry will become as highly centralized as the beef industry in a few distant packing centers," the department warns. "In this event, just as the farmer with a few beef cattle to dispose of has to seek a market several hundred miles away or deal through local commission men or agents who will buy live cattle, chicken raisers, unless local poultry dressing and refrigerating establishments are maintained will have to dispose of their product for live shipment to Chicago and other centers."

From the point of view of the consumer, the department says, the tendency to ship live poultry long distances by rail is decidedly wasteful. Poultry shipped 400 or 500 miles, even under the best conditions of transit, loses an average of 30 per cent in weight, the department's specialists compute. Chickens that have traveled long distances by rail reach the killing centers in such worse condition than those which are sent a few miles. Besides the additional cost of feeding is an important item.

The department specialists, therefore, are encouraging dressed poultry producers not to centralize their slaughtering establishments, and instead of erecting one \$30,000 plant to draw from a territory with a large radius, are advising them to build instead three \$10,000 packing plants in three different centers, each looking to a supply from a territory with a smaller radius that assures of live chickens in excellent condition.

"Under this plan," the department states, "the poultry packed and shipped is not only in better condition, the experts believe, but in addition,

the three districts benefit by the investment and permanent location of an industry, and these industries in turn react favorably on poultry production in that territory."

In a circular sent out to farmers and business men in the cotton states the Department of Agriculture urges cotton farmers to grow their own food instead of attempting to obtain necessities. In some sections of the south, thousands of small farmers are said to be facing actual hunger this winter through the falling off of the cotton demand.

The department urges the farmer to grow less cotton and devote some of his attention to the raising of garden truck and cattle, hogs and poultry. This would prove a remedy for the over-production of cotton.

Specialists in the department believe that if the real value of diversified farming be once thoroughly un-

derstood the cotton acreage will be reduced in a natural and healthy manner," it is stated.

The Department of Agriculture is about to issue a series of lessons on corn for the benefit of children in rural schools. This in line with the organization of boys' corn clubs throughout the country.

The average production of corn per acre is still under 25 bushels despite the fact that in nearly every locality yields of 100 bushels per acre have been reported. The department sees in this difference bulletin will contain 12 lessons which the department thinks "rural school teachers, especially in the great corn growing states, will find a valuable aid in the work of stimulating in their charges a healthy interest in sound agriculture."

MINORS NOT WANTED IN ORGANIZED BALL

(By Hal Sheridan. Written for the United Press.)

NEW YORK, Nov. 11.—If President Gilmore of the Feds is running to form, the baseball meeting now in progress at Omaha is not worrying him. The minor league magnates are trying to console each other over the disastrous year which they just closed and also searching for subtle words that will generally ease the big league bosses the question of what they are going to do about it.

Gilmore has said that among the few things he does not want are the minor leagues scattered hither and yon about the country. Why build a baseball system and have to pay for players through draft or purchase when organized ball will keep up the system which may be raised without spending a cent? Is the way Gilmore figures.

If Gilmore doesn't want minors in his organization, however, and organized ball sacrifices them in the continued fight on the Feds it will be a serious blow to the game. Long have the big league magnates patted the little fellows on the shoulder and told them how they were the "backbone of the game." Right now however, the heaviest blows are falling on the minors and if these "back bones" are to be permitted to be broken, it will shut off the supply of players for the major leagues and there will be a scarcity of material developed in the bushes from year to year.

The minors do not expect to make a great deal of money at their gates, but they do expect to realize on the sale of stars they develop. If Gilmore is able to step in and grab these stars by giving them more money than they could get from organized ball, it is good night minor leagues. And the Feds can afford to do this. They can simply apply to the man's salary an amount similar to that a club of organized ball would have to put up for his purchase and not be spending more for the player than some major league team would be putting up.

George Stallings wasn't able to get accustomed to the stage stuff even though he did appear behind the footlights twice a day while in New York and deliver his spiel on the Braves George said it was worse than playing the sun-field.

Just to check up, the last report was that the army and navy would play their annual game. Reports on this "on-again, off-again" game have constantly been subject to correction. The outlook is now that the present arrangement will stick.

AUSTRIAN TRADE IS FLAT.

Exports for September 75 Per Cent Less in 1914 Than 1913.

VENICE, Nov. 10, via Paris.—How severely the trade of Austria has been affected by the war is revealed in an official report of the Austrian Minister of Commerce, a copy of which has just reached here.

According to this document Austria's imports in the month of September amounted to \$22,200,000, as compared to \$12,800,000 in September 1913. The decrease in exports was much greater. They amounted in September of this year to only \$12,200,000, barely one-quarter of the total reached in September, 1913.

Berlin Tichter on Aliens.

BERLIN, via Rome, Nov. 10.—In addition to internment Englishmen of a military age the government has sharpened its measure against the nationals of other hostile states. The latter must report twice daily to a police station and are not permitted to depart from their precincts nor to leave their houses between 8 o'clock at night and 7 o'clock in the morning. All day a stream of Englishmen continue to pour into the detention camp on the Ruhleben race track near Berlin. Among those en route from Bad Nauheim are a British admiral and two members of the British parliament.

ROME IS STIRRED BY SEIZURE OF ALBANIA

ROME, Nov. 11.—The report that Greece has landed 1200 soldiers at Santi Quaranta, thus taking possession of the southern part of Albania which gives that nation entire control of the Corfu Channel, is causing a profound impression in Rome.

As this step on the part of Greece was strongly opposed by the London conference, it is generally believed in Italian political circles that Greece will not be supported by Great Britain and France.

Don't think because you have taken many remedies in vain that your case is incurable. Hood's Sarsaparilla has cured many seemingly hopeless cases of syphilis, catarrh, rheumatism, kidney complaint, dyspepsia and general debility. Take Hood's—Adv.

PENDLETON-ASTORIA ROAD OPEN JULY 1ST

COLUMBIA HIGHWAY WILL SOON BE READY FOR TRAVEL. SAWS ENGINEER.

SALEM, Ore., Nov. 11.—That the Columbia highway will be opened from Pendleton to Astoria July 1, 1915, was asserted by State Engineer Sperry, who is preparing his annual report. Figures show that a vast amount of work was done under the supervision of the state highway commission during the past year. This work was done in the counties of Jackson, Clatsop, Columbia, Multnomah, Hood River, Wasco, Sherman and Washington.

A total of \$300,000 was spent this year on the Columbia highway between Wasco and Seaside, and there will be available to be spent before July 1, of next year, \$475,000. There will be provided by July 1, 97 miles of newly located and constructed graded road on a maximum grade of five per cent, width of roadbed 24 feet, and curves with a minimum radius of 200 feet.

The work in Clatsop county is 90 per cent completed and that in Columbia county is 75 per cent completed.

In Jackson county \$400,000 was spent on the Pacific highway and the commission has available \$150,000 which will be spent next year. This season 27 miles of new grade was completed, 12 miles of which is on the new route of the Pacific highway through the Shikwa mountains. Fifteen miles of hard surface pavement have also been constructed on the Pacific highway in Jackson county.

In Washington county about 80 per cent of the work on the Se-Tigardville highway is completed and the rest will be completed in the spring.

In Hood River county about 25 per cent of the Columbia highway has been completed. The commission this year built 11 steel and reinforced concrete bridges in the state, the largest one spanning the Sandy river in Multnomah county.

While work on the highways in the state has practically ceased, there will be some truck work done by crews during the winter months. Work generally will be resumed early in the spring, it is planned.

Try This for Your Cough.

Thousands of people keep coughing because unable to get the right remedy. Coughs are caused by inflammation of throat and bronchial tubes. What you need is to soothe this inflammation. Take Dr. King's New Discovery. It penetrates the delicate mucous lining, soothes the phlegm and quickly relieves the congested membranes. Get a 50c bottle from your druggist. "Dr. King's New Discovery quickly and completely stopped my cough," writes J. H. Watts, Florida, Texas. Money back if not satisfied, but it nearly always helps.—Adv.

WELCOMES LIST OF PLAYS.

OUCH! MY BACK! RUB LUMBAGO PAIN AWAY

GET BACKACHE AWAY WITH SMALL TRIAL BOTTLE OF OLD "ST. JACOB'S OIL"

When your back is sore and lame or lumbago, sciatica or rheumatism has you stiffened up, don't suffer! Get a small trial bottle of old, honest "St. Jacob's Oil" at any drug store, pour a little in your hand and rub it right on your aching back, and by the time you count fifty, the soreness and lameness is gone.

Don't stay crippled! This soothing, penetrating oil needs to be used only once. It takes the pain right out and ends the misery. It is magical, yet absolutely harmless and doesn't burn the skin. Nothing else stops lumbago, sciatica, backache or rheumatism so promptly. It never disappoints!

Fred Powers, superintendent of schools at Oakland, Ore., to Professor Archibald F. Reddie, who is in charge of public speaking and dramatic work at the State University. "News that you have prepared a list of high school plays has gladdened my heart. We shall be very grateful for your list. We want one with anywhere 10 or 15 characters, about equally divided as to sex."

This is one response to the University of Oregon's offer to suggest plays suitable for grades, underclassmen in high schools, or advanced classes. Professor Reddie has prepared a list of 26 plays that is available in circular form for any school desiring it. Professor Reddie will give such personal assistance as his time and the distance permit to schools attempting difficult plays.

Great Tunnel Complete

BERNE, SWITZERLAND, Nov. 11.—A five mile tunnel through the Jura mountains from Moutiers, France, to Grenchen, Switzerland, has been pierced after three years of uninterrupted work. The tunnel will shorten railway communication between Paris and Berne and Paris and Milan.

Grippy? Feverish? Chest Stuffy? Bad Cough?

Drive those Ugly and Annoying Feelings Away with Dr. King's New Discovery—Pleasant, Soothing, Healing.

No need to suffer these annoying and sometimes dangerous ailments. Just ask your Druggist for a 50c bottle of Dr. King's New Discovery. Take a dose to-night, repeat every time you have a spasm of Cough. Notice how well you sleep and how much better you feel to-morrow. Dr. King's New Discovery contains the necessary elements to quickly check your Cough and stop your Cough. So many have used it with gratifying results. Don't put it off, get a 50c bottle to-day and start using at once. Mr. A. Cooper, Oswego, N. Y., says: "It is a real pleasure to testify to the excellence of Dr. King's New Discovery. I have for many years been afflicted with a Cough that had become chronic, and nothing ever prevented night coughing until I used Dr. King's New Discovery."

Small bottle mailed on receipt of 4c in stamps. H. E. BUCKLEN & CO., 639 North Broad Street, Philadelphia, Pa.
