Uncle Sam Involved. The government has inspected our meats and approved them as being fresh, pure and wholesome. Have you this protection elsewhere? Protect your health, phone 444. Oregon Market.—Adv.

Woman Faces Long Term. MEDFORD, Ore., Nov. 11.—Mrs. Fannie McNulty, convicted of forging the name of Mrs. Sarah Collins to a certificate of deposit on the Jackson county bank for \$250, was sentenced by Circuit Judge Calkins to serve from two to 20 years. A motion for a new trial was filed by her attorneys, B. F. Mulkey.

This is the first time in 10 years that a Jackson county woman has been sentenced to serve a penitentiary term. An effort is being made by the woman's friends to have a petition signed and present it to the Governor, asking for a pardon on the ground that Mrs. McNulty had no intention of committing a crime.

## PERSONAL MENTION

Ira Hughes is down from Meacham.

L. A. Estab, Echo attorney, is up from his home today.

J. J. Buchanan of Stanfield, is a visitor in the city today.

D. W. Paris of Portland has accepted a position as chemist in the local plant of the Madams Helene Hatler Co., which is manufacturing toilet and beauty articles. The company was recently organized here.

## REPORTS OF MISHAP TO U.S. CRUISER ARE NOT BELIEVED

### NORTH CAROLINA DECLARED TO BE SAFE WHILE IN TURKISH WATERS.

WASHINGTON, Nov. 11.—Published reports of mishaps to the United States cruiser North Carolina in Turkish waters were scoffed at here this afternoon by Secretary of the Navy Daniels.

He said that the American consul at Beirut had asked the department yesterday but did not mention anything about the North Carolina.

The cruiser sailed from New York shortly after the outbreak of the European war to take money for the relief of stranded Americans in the war-torn countries.

### GREAT WAR DELAYS PLANS FOR SPRINGS AT ASHLAND

Uncommon Problems of Operation That Arise Call for Guiding Data From Two Afflicted Countries.

UNIVERSITY OF OREGON, Eugene, Nov. 11.—How the great war may affect in a direct way even medium-sized communities in distant Oregon is shown by a letter just received from Charles Denby, consul-general from the United States to Austria-Hungary. The letter came to H. B. Miller, director of the industrial survey department of the University of Oregon school of commerce. The community is Ashland, with which the industrial survey department is co-operating in Ashland's attempt to become a famous watering place and health resort.

Mr. Denby was asked by Mr. Miller to gather data from the great watering places of Austria-Hungary and Germany for Ashland's guidance. Ashland has voted a bond issue of \$175,000 to build up a great resort, and this will involve its doing something for which there is no precedent in the United States; establish a municipal government for a watering place not only owned by the municipality but administered by it.

"Such municipally administered resorts do exist in Europe, although there are none in this country," said Mr. Miller, "and that is why Ashland is waiting for guidance from abroad. Consul General Denby has been trying to ascertain the economic and political conditions and the local laws that obtain at these places, but he writes that Austria-Hungary and Germany are so upset by war that he has been unable so far to gather the material. He promises to continue efforts.

"Ashland has as fine springs and as healthful environment as Carlsbad. But where the municipality is to operate a watering place, there are many other considerations; the healthfulness of the city's eating places and of its sanitary system, the efficiency of the doctors who come to administer to the host of unwell persons, the hospital and nursing equipment, and so on. It is a new problem for an American city to face, and must be gone at slowly and thoroughly."

### BIGGEST ZEPPELIN HAS BEEN LAUNCHED

LONDON, Nov. 11.—A dispatch from Geneva, Switzerland to the Express gives this account of the launching of a new Zeppelin:

"The most powerful Zeppelin yet made has just been launched at Friedrichshafen, on Lake Constance. Without preliminary trials it flew away northward at great speed, cheered by the soldiers, who shouted, 'To London.' Count Zeppelin was present at the launching.

"The airship has a special armored compartment for bombs near the propellers and a big gun is mounted in front to destroy aeroplanes. A second airship of a similar type will be ready by the end of November.

"As soon as this new airship—the thirty-first of its kind—is finished, Zeppelins are being built at Dusseldorf, Colmar and Berlin, the German staff desiring that the number be brought to 100 quickly.

Homesteads. 320 acre claims, also two eighty acre tracts, meadow land, cuts 200 tons hay, all open to entry. Write P. O. Box 123, Haines, Ore.—Adv.

Dancing. The new and old dances taught, class or private. Organizing beginners' classes. Information phone J. H. Merryman, Hotel Pendleton.—Adv.

## NEWS OF FARM AND RANGE

### CANNOT SHIP ANY STOCK TO EASTWARD

### FOOT AND MOUTH EPIDEMIC CAUSES RAILROAD TO REFUSE SHIPMENTS.

"Accept no stock for shipment east of Huntington," is the substance of instructions received here this morning by Agent T. P. O'Brien of the O.-W. R. & N. Co. and it brings the war against the foot and mouth disease close home. Under this ruling it will be impossible for local stockmen to make any shipments east excepting stock intended for immediate slaughter. It is the presumption of Mr. O'Brien the same ruling applies on westward shipments in which case no stock of any kind can be shipped into Oregon over the O.-W. R. & N. Co. Under the orders received a man cannot ship work horses or domestic stock of any sort even for his own use.

On the Northern Pacific no ban has yet been placed on shipments into Washington, says Walter Adams, local agent. However, all cars are being disinfected before loaded, a precaution against spread of the foot and mouth epidemic.

The ban against shipments into Oregon from the O.-W. R. & N. territory has a particular bearing on the cattle business. Under the restrictions it will be impossible for any range cattle intended for feeding to be shipped in. Few feeders have thus far been brought into his section and the quarantine will tend to make the shortage even shorter.

Dr. W. H. Lytle, state veterinarian, who yesterday asked the governor to establish a quarantine against all stock from infected states, came up from Salem this morning and went to Pilot Rock, presumably to consult with Herbert Boylen, member of the livestock sanitary board.

Pastime Today. "My Official Wife," featuring Clara Kimball Young and an all star cast, including Earle Williams, Harry T. Morrey and Roger Lytton. The management wishes to state that this picture is in a class with a "Milton B. L." "The Third Degree," the "Wolf" and other big pictures shown at this theater. You make no mistake when you see a Pastime picture.

Homesteader Found Dead. MARSHFIELD, Ore., Nov. 11.—Absent, although not missed for several weeks, Matthew West, a bachelor homesteader on Two-Mile creek, nine miles below Bandon, was first found to be missing by David Drew, a neighbor, early last week.

West lived in an isolated section, and his neighbors were not numerous or close. Drew, in passing that way, found West's cabin door open, the table set and the viands molding.

After five days' search the body was discovered. West's 30-30 rifle was on the ground beside him and he had been shot through the head. The wound and the surroundings did not appear to indicate West either had killed himself purposely or accidentally.

### COUNTY COURT PROMISES LOWER TAXES THIS YEAR

### BUDGET BEING MADE UP UPON WHICH NEW ASSESSMENT WILL BE MADE.

Taxes will be lower this year. This is the promise made this morning by the county court which is holding a session for the purpose of making up the budget of expenses upon which the next levy will be based. The budget will be completed this evening and will be published tomorrow.

The judge and commissioners are agreed that the levy this year will be at least two and perhaps three mills lower than last year, not because the expenses of county government will be lower but because the state tax will be much lower. The total state and county tax last year was about ten mills and this year it will probably be under eight.

There having been no session of the legislature last year, there will be no big sums to be raised by taxation to enable the state to make the appropriations voted. Last year Umatilla county had to pay over to the state \$173,000 which was \$125,000 more than was required the year before. This sum meant an addition of 2.6 mills to the tax.

The expenses of county government are practically stable, varying little from year to year. Practically the only fund which the county court controls is the road fund and the present policy of levying a two and a half mill road tax will probably not be changed. Indications are, therefore, that the combined state and county tax, exclusive of the road tax will be in the neighborhood of five mills.

### BIGGEST SUBMARINE FOR UNITED STATES

WASHINGTON, Nov. 11.—Bids for building eight submarines, one of which will be the largest and most powerful in the world, will be opened here next week.

The United States already has 36 submarines, all larger than the German submarine U-9, and the new ones will be still larger. One of the submarines to be built soon will have a displacement of 1200 tons and a surface speed of 21 knots. Statistics regarding the other seven are being closely guarded but it was admitted they will have a surface speed of 13 knots and eight knots under water.

## EVANGELIST SPEAKS ON THE TOPIC, "VALUE OF A SOUL"

(By Rev. Cleveland.)

Last night Dr. Willett spoke on the "Value of a Soul," at the Baptist church. It was recognized as a powerful presentation of the higher values. He said in part:

Its value is inestimable. We can but get glimpses of it. After God had created the universe he looked upon it and called it good. But when he had created man he called him very good. Man's soul was the crowning work of God's creation.

If we were to look into the spiritual values of angels or demons we see nothing of God, but the soul of man is made after God's image. God must have considered man's soul of inestimable value by crowning His creation with it and creating it like Himself.

When a sinner repents of sin and believes in Jesus Christ there is joy in the presence of the angels of God over the wanderer who returned.

The price of a soul was measured by the life and death of our Lord. The devil is going about as a roaring lion seeking whom he may devour. The Godheart, angels and the devil care for the souls of men.

Do Christians care for the souls of men? The church houses, charitable institutions and all sacrifices prove this. Do parents care for the souls of their children? They may never hear them pray nor know their holy advice but no Christian parent but secretly longs and prays for the salvation of their children.

## Farm Bargains

240 acres in best part of Grand Ronde Valley. Close to town. Good improvements. Splendid land and a bargain for the money. Electricity for lights and power, telephone and R. F. D. \$24,000. Easy terms.
