The subject was "Music," and in a paper on "The Music of Today," Mrs. A. J. Owen told of the trend of music from the Wagnerian period to the present and how modern composers seem to be working in more complexities of harmony, which is resulting in new and sometimes startling effects.

The following delightful musical program was rendered and certainly proved a treat to the club and its invited guests:

- Intermezzo Gramms
- Spanish Dance Moszkowski
- Reverie Richard Strauss
- Miss Helen Herboth

ARMENIANS LEND AID TO HELP BEAT TURKS

THOUSANDS OF STUDENTS JOIN INVADERS — GUERRILLA BANDS FIGHT.

LONDON, Nov. 12.—Reports reaching the Russian capital from the Turkish border attach increasing importance to the part the Armenians are playing in the Russian-Turkish war, according to a Petrograd dispatch, which says:

"In several towns occupied by the Russians Armenian students have shown themselves ready to join the invading army. All along the line of march, according to these dispatches, the Armenian peasants are receiving the Russian troops with enthusiasm. Armenia Ready for Sacrifice.

"An Armenian newspaper, referring to this crisis, in the history of Armenia, publishes the following: "The long anticipated day of deliverance for the Turkish Armenians is at hand and the Armenians are prepared for any sacrifice made necessary by the performance of their manifest duty."

"From this border country there has come to Petrograd further reports of armed conflicts arising from the refusal of Armenians to become Turkish conscripts and surrender their arms.

Armenians Defeat Turks. "It is now rumored that the important City of Van is today besieged by Armenian guerrilla bands in great force. In Feltun these bands are said to exceed 20,000 in number and they are reported to have defeated all the Turkish troops sent against them, causing the Turks heavy losses.

"A wounded Russian cavalry officer who has returned to the capital from Lemberg, in describing the Russian march into Hungary over the Carpathian mountains, said that the Russians, after penetrating to within 100 miles of Budapest, were forced to return to avoid being cut off by Hungarian troops which had made their way through the western mountain passes.

East Prussian Town Taken. "In East Prussia on November 11 an action developed on the front of Stalluponen, Krouglikanken and the region of Soldau. Our troops occupied Johannesburg, a small town of East Prussia, 70 miles southwest of Gumbinnen.

"Beyond the Vistula battles of secondary importance occurred in the region of Kallsz (Russian Poland) and Neschava, where advance guards of the enemy sought to progress.

"The Carpathian Austrian rear guards maintained at the crossings on the upper San, in the region of Sanok, were attacked by our troops."

Pursuit of Germans Slackens. The Russian pursuit of the Germans along the frontier has slackened and the Germans are strengthening their positions along the line of border fortresses in expectation of an attempted Russian invasion.

General Dankl displeased by the recent course of events, is moving south across Galicia, and has refused to cooperate further with the German staff, according to another report. Austria admits the withdrawal of her troops from Western Galicia and the investment of Przemyel for the second time by the Russians.

Fighting between the Turks and the Russian army of Caucasus apparently is still in progress without definite result. The Russian staff reports that it is maintaining its position, routing the Turkish forces which attempted an enveloping movement.

A Turkish torpedo boat, according to a dispatch from Athens, has been captured off the coast of Asia Minor.

SALEM BOOSTS ITS OWN MANUFACTURED WARES. SALEM, Ore., Nov. 12.—The Salem Commercial club is planning a "Made in Salem" exhibit in connection with a campaign which it is waging to encourage the people of the city to patronize local industries and manufacturers in preference to foreign institutions. The exhibit will be put on display in the show windows of the Portland Railway, Light & Power Company.

Diseased Blood Calls for Help

Nature's Willing Workers are Always at Your Service.

If it is eczema, pimples, boils or worse—your safeguard is S. S. S., the famous blood purifier. It is always lined up to attack diseased blood. And it always does the work. It does the work after disappointment, after alleged specialists, mercury, iodides, strychnine, arsenic and other destructive drugs that have reaped a harvest of mistakes and left a host of invalids guessing as to what is to come. S. S. S. is not such a drug as the cupidity or ignorance of man would be able to produce. It is Nature's wonderful contribution to our necessities. It is wonderful because it can not be imitated; can not be made any other way than to assemble Nature's products and produce what a host of men know as S. S. S., the world's greatest medicine. There are people everywhere that had an old sore or ulcer that defied all the salves known. And yet S. S. S. taken into the blood just naturally put into that old sore the elements that made new tissue, new flesh, and covered it with a new coating of healthy skin. Get a bottle of S. S. S. today of any druggist and be on the way to perfect blood health. But beware of substitutes. For special advice consult the medical department, The Swift Specific Co., 55 Swift Bldg., Atlanta, Ga. It is free and has helped a multitude.

SPORT DOPE.

(By Hal Sheridan. Written for the United Press.)

NEW YORK, Nov. 12.—Times have changed and the old saying that "they don't come back" sticks. Having once been shaken from a championship throne, fighters still preach loudly from the houseposts that they are as good as ever, take on a few boys they would not even have looked at in other days, and then steer up

against the new champion. The result is always the same. The former king pin gets a licking.

In meeting Freddie Welsh, the lightweight champion, here recently Ad Wolgast wanted to satisfy that gnawing ambition to crawl back as a champion. He wasn't there by a mile. Welsh couldn't put him out and the fight was stopped in the eighth round because Referee Roche declared Ad had broken a bone in his forearm when walloping Freddie's skull, but Wolgast never threatened Welsh. Freddie out-boxed him and though Wolgast tried to bore in and keep the fighting at close quarters,

Welsh stood him off and peppered him with right and left hooks. Wolgast looked strong and husky. He was browned by the sun and carried the healthy flush of out-door living into the ring with him. He looked good, but the strength oozed away as the fight progressed and Welsh is confident he would have given the former champion the K. O. had the fight gone another round. It's the same old story. These human machines will go just so long and then they begin to burn out. When that starts a new boy comes along and puts over a crusher. Then comes a

period of inaction; putting on of a little fat; reviving of the old ambition; training to get back into shape, a few easy bouts and the old champion thinks he is "back." The old spark is gone, however. The energy boilers have caved in. It's simply all over.

Tim Murnane, president of the New England League and dean of Boston baseball is cut up over the fact that several of the Boston Braves have been lured upon the stage.
