Admission 10c and 5c.

See program in today's paper

PRICE OF SWINE RISES

(Courtesy Thursday's Journal.) PORTLAND, Ore.—Another nickel was added to the price of hogs in the North Portland yards this morning with tops at \$7.55. This was only a nickel below the extreme price in the country today.

There was quite a fair run of swine in the local yards at the opening of business today. Montana is again contributing supplies to this market and some rather good quality is coming from there although it was an Oregon shipment that brought the extreme mark this morning.

General hog market range: Best light \$7.50@7.55 Medium light 7.40@7.45 Good to heavy 7.25@7.35 Rough and heavy 6.50@7.00

Cattle Market is Strong. There was a mere handful of cattle reported in the North Portland yards overnight and these were quickly picked up at extreme prices, quality considered. Small shipments were reported in from Montana this morning. Top steers are again commanding \$7.50 and the market is very strong at that price.

General cattle market range: Selected steers \$7.40@7.50 Good to prime 7.15@7.25 Good to choice 6.50@6.75 Ordinary to fair 5.75@6.25 Best cows 6.00@6.25 Good to prime 5.65@6.85 Ordinary 5.25@5.50 Selected calves 8.00 Fancy bulls 5.25@5.75 Ordinary 4.00@4.25

No Mutton Comes Forward. There were no arrivals at all in the mutton division of the North Portland yard for the day. The fair showing of yesterday did not enter the market generally and the trade is therefore keenly seeking supplies. Extreme prices are therefore probable.

General mutton market: Best yearlings \$5.50@5.75 Old wethers 5.25@5.40 Best ewes 4.25@4.40 Best east mountain lambs 6.50 Valley light lambs 6.00@6.25 Heavy spring lambs 5.50@5.75

Livestock Shippers. Hogs—F. B. Decker, Silverton, 1 load direct to Union Meat Co.; W. W. Nivens, Belgrade, Mont., 1 load; L. G. Niel, Heppner, 1 load; Car Wood, Redmond, 1 load; J. W. Howard, 1 load; H. I. Barr, Hooper, Wash., 2 loads. Cattle—W. J. Jones, McCoy, 1 load. Mixed stuff—Robert McSherry, Redmond, 2 loads cattle, calves and hogs; Talbert & Son, Manhattan, Mont 1 load cattle and hogs.

A surprisingly large number of substances, ranging all the way from the condensed fumes of smelters to the skimmed milk of creameries, have been tried or suggested as means of preserving wood from decay. Most of them, however, have been found to have little or no value for the purpose. Certain forms of coal-tar creosote and zinc chloride are the most widely used wood preservatives.

BIG EATERS GET KIDNEY TROUBLE

TAKE SALTS AT FIRST SIGN OF BLADDER IRRITATION OR BACKACHE.

The American men and women must guard constantly against kidney trouble, because we eat too much and all our food is rich. Our blood is filled with uric acid which the kidneys strive to filter out, they weaken from overwork, become sluggish; the eliminative tissues clog and the result is kidney trouble, bladder weakness and a general decline in health.

When your kidneys feel like lumps of lead; your back hurts or the urine is cloudy, full of sediment or you are obliged to seek relief two or three times during the night; if you suffer with sick headache, or dizzy, nervous spells, acid stomach, or you have rheumatism when the weather is bad, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys; to neutralize the acids in the urine so it no longer is a source of irritation, thus ending bladder disorders.

Jad Salts is inexpensive; cannot injure, makes a delightful effervescent lithia-water beverage, and belongs in every home, because nobody can make a mistake by having a good kidney flushing any time.

MAULBETSCH, BEST PLUNGING BACK

When it comes time to write a resume of the 1914 football season one player who will certainly receive large sums of praise from the experts is Maulbetsch, the Michigan left half-back. As a demonstration of ability to give every possible ounce of strength to supporting a cause and then when that strength seems wanting still finding down in the source-springs of power the something which sends a human back to the attack, Maulbetsch's play will live in the minds of men who know a man when they see him, for years to come. Each season brings to light some particular star whose ability stands out conspicuously against that of his rivals. Maulbetsch is such a player. He has proved himself to be one of the most terrific line-plunging backs in competition. His work against the Harvard team was a revelation. The western team plays very little open football. It is essentially a line bucking machine, and Maulbetsch is the most important cog in its construction. When he hits the opposing line, head lowered and every ounce of driving strength in his legs, it wavers and parts from the shock. Upon him falls the brunt of the work and he does it well. He is the greatest and most consistent line-gainer for the Yost machine by the old straight football methods.

PLACE ALL NORTH SEA IN THE MILITARY AREA

LONDON, Nov. 18.—Premier Asquith said in the House of Commons that the British government had decided to declare the whole of the North Sea to be in the military area.

All subjects of the enemy found on neutral vessels the Prime Minister also said, would be liable to detention as prisoners of war. Mr. Asquith also announced that oil and copper would be declared contraband of war. After a number of neutral fishing and merchant vessels and many lives had been destroyed by these German mines, Mr. Asquith said the government had been forced to adopt counter-measures to cope with this German policy of mine-laying combined with submarine activities. He added: "His Majesty's government is fully aware of the anxiety prevailing in the United States and other neutral countries on these subjects and it trusts that its policy will be fully understood. It is confident that public opinion in neutral countries will appreciate its earnest desire that there should be no interference with neutral trade. Any interference by the British Navy is solely to prevent goods from reaching the enemy which would increase his power in the war against the British and the allied forces."

Homestead Store Burned. BAKER, Ore., Nov. 19.—H. Dauer, who came in from Homestead, reports the total destruction of his big merchandise store by fire. The stock, valued at \$10,000 is a total loss and is covered by \$5000 insurance.

Mr. Dauer was waiting on a customer in the store and his wife was in the kitchen when he heard a roaring noise. Thinking it sounded like fire he went to the kitchen and found that room smoky. He and his wife then went outside and discovered that the entire roof was a mass of flames. There was no time to save anything as in a moment the building was wrapped in fire. Mr. Dauer's mustache and eyebrows were burned and his coat was singed in an effort to re-enter the blazing building. He did not even succeed in getting a hat.

Abolition Child Labor Possible.

NEW YORK, Nov. 18.—Child labor can be abolished in America by the present generation according to Owen R. Lovejoy, general secretary of the National Child Labor committee, whose tenth annual report has just been published in the Child Labor Bulletin for November.

As evidence of the progress of the campaign against child labor, Mr. Lovejoy compares the state child labor laws in 1904, when the National Child Labor committee was organized, with those of 1914. In 1904, 13 states had a straight 14-year age limit for all factory work, while in 1914, 36 states have that limit. In 1904 only one state had an 8-hour day for older children and in 1914, 13 states have it. Night work was prohibited for children under 16 in 5 states in 1904 and in 34 in 1914. Other achievements of the committee have been the establishment of the Federal Child's Bureau, and the drafting of a federal child labor law, which, as the Palmer-Owen bill, has already been favorably reported by the house committee on labor. The membership of the committee has increased from 36 in 1904 to 8,732 in 1914. Mr. Lovejoy reports that in 7 of the 14 states whose legislatures met last year child labor laws were improved. Investigations were carried on by the committee in 8 industries in 13 states in the past year and the exhibits of the committee were shown in 59 cities in 20 states. The committee issued 4,166,184 pages of printed matter in the quarterly Bulletin, pamphlets and leaflets, besides widely published press stories and special articles. The cost of securing new members for the committee is increasing, according to Mr. Lovejoy, and he settles that because the committee is supported by voluntary contribution, fluctuating industrial and financial conditions place its work in serious jeopardy. In general, however, his report is optimistic of the continued support of the National Child Labor committee by the thoughtful American people.

Try This for Your Cough. Thousands of people keep coughing because unable to get the right remedy. Coughs are caused by inflammation of throat and bronchial tubes. What you need is to soothe this inflammation. Take Dr. King's New Discovery, it penetrates the delicate mucous lining, raises the phlegm and quickly relieves the congested membranes. Get a 50c bottle from your druggist. "Dr. King's New Discovery quickly and completely stopped my cough," writes J. R. Watta, Floydale, Texas. Money back if not satisfied, but it nearly always helps.—Adv.

Montana Horses Go to France. LIVINGSTON, Mont., Nov. 19.—A shipment of 54 carloads of Montana horses, destined for Europe, purchased for war purposes by the French government agents, was completed here. The animals were bought at an average price of \$85 each.

ECHO DANCE PROVES A DELIGHTFUL AFFAIR

SUPPER SERVED AT HOTEL—OTHER SOCIAL ITEMS OF THE VILLAGE.

(Special Correspondence.)

ECHO, Ore., Nov. 19.—An unusually pleasant event was held at the L. O. O. F. hall on Tuesday evening when the Big Four Orchestra gave an invitation ball. The dance was up-to-date in every respect. Excellent music was furnished by the Big Four Orchestra, which is composed of four of Echo's young musicians. Miss Opal Bryant, Messrs. Percy Ripper, Earl Esselsteyne and Gale Sherman. Supper was served at the dining room of the Hotel Hoskins. Every one present reported a good time. Chas. Massey has purchased of W. H. Boyd, the house, barn and four lots back of the wool scouring mill, known as the Jewett place. He will move his family there and occupy the place as a home.

Miss Shine Gelvin, who has been visiting here the past summer with the C. J. Gulliford family, left Wednesday evening for Pendleton from which place she soon expects to go to California for the winter. W. H. Boyd has returned to his Portland home after a week's visit here looking after business. Mr. and Mrs. Claude Sloan were transacting business in Pendleton on Tuesday. Glen Gelvin of Pendleton, was an over Sunday visitor at this place. John D. Rice and C. S. Sprague of Hermiston, were business visitors in our city on Wednesday.

C. R. Lisle is here from Portland looking after his business interests. Miss Emma Geisler is spending this week in the country visiting with her parents, Mr. and Mrs. Jacob Geisler.

Miss Ida Wells spent Wednesday visiting with friends in town. Mrs. A. K. Hammer is visiting at College Place with Mr. and Mrs. Nick Oliver.

French Weather Secret.

PARIS, Nov. 17.—The publication of weather reports was forbidden by the government, presumably for military reasons. Heretofore forecasts and meteorological conditions throughout France, in the English Channel, Southern Europe and the Mediterranean have been published daily. This has included information useful to mariners. It is assumed that the government has in mind the possible use of this information by Germany in both naval and military operations along the western littora. The part that fog has played in the Belgian coast battles is recalled in this connection. Only the temperature in Paris is now given.

\$100 Reward, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials to Address F. J. CHENEY & CO., Toledo, Ohio. Sold by all Druggists. Take Hall's Family Pills for constipation.

WHEAT PRICE IS DOWN

Chicago Market Cliques Opposed to National Advance; Close is Near Thursday.

CHICAGO, Nov. 20.—Closing prices for wheat were unchanged to 1-8c down. There seemed to be determined opposition to a natural advance in wheat yesterday. After the opening, 30 minutes later, December sold at \$1.15 7-8 and May at \$1.22 5-8. This rebound was opposed by some of the strongest interests in the trade with persistent sales of May to force the price back under \$1.22. The reaction was to \$1.21 3-4 under this selling. Later in the session the trade felt the influence of very strong prices in the northwest. Local traders who sold under \$1.22 were active buyers on the late strong swell. Dry weather and fly complaint came from the southwest. After an early bulge to 67 5-8@71 1-2c, for December and May corn, the bearish element in local trade sold the market back to 65 7-8 and 71c. Charter for 250,000 bushels of corn just reported to Buffalo. Clear, cold weather is helping the new corn movement, but corn raisers are dissatisfied with prices since the recent break. Oats action was not important, with moderate bulge early. WHEAT. Dec.—Open, \$1.15; high, \$1.16 3-8; low, \$1.15; close, \$1.15 7-8. May — Open, \$1.21 5-8; high, \$1.22 1-2; low, \$1.21 5-8; close, \$1.22.

PHOENIX SCORCHED BY \$3,000,000 FIRE

PHOENIX, Ariz., Nov. 17.—The most disastrous fire in the history of Phoenix threatened early to spread through a large portion of the city's business section.
