Boy Has Narrow Escape.
News reaches here of a narrow escape from death of ten-year-old Wilbur Harden of Athena a few days ago. He was at the D. B. Bannister farm and ran in front of a double disc which Mr. Bannister was driving and endeavored to climb aboard in spite of warnings. He fell under the plow and the 1900 pound machine passed completely over him. How it happened is not explained but he merely sustained a few wounds on the legs.

Frank Pierce Returns.
Frank Pierce, young Pendletonian who has been following the Alaskan fortunes during the past few years has returned to the city and expects to remain in eastern Oregon during the winter. Delinquent With Statements.

Grover Cunningham of the Empire Meat Market not only prevented a theft at that shop this morning but chastised the would-be thief, in this instance a colored man who had slipped a ham under his coat and some clams in his pockets. NEWS OF FARM AND RANGE

ENGLAND REFUSES TO RAISE WOOL EMBARGO

ALL WOOL FROM AUSTRALIA AND COLONIES MUST GO TO BRITAIN.

Great Britain has declined to modify, in favor of American manufacturers, the embargo on exportation of wool from Australia and other British dominions, says a report from Washington, D. C. It has been hoped that after the needs of the British army had been satisfied the Australian surplus, giving guarantee that neither the wool nor goods made from it would reach Austria or Germany, but the state department was informed yesterday that for the present at least, no exceptions would be made.

The embargo was imposed soon after the declaration of war. It applied at first only to combed wool, the tougher grade used in clothing manufacture. Commerce in finer wool was permitted under license which prohibited re-exportation of the manufacturer articles to other than neutral countries, but when it was decided to increase the British force under arms by more than 1,000,000 men, the embargo was extended to finer grades as well.

Grain Bags at 6 Cents — Not only are wheat farmers in line for high prices for wheat next summer but it appears they are also to secure grain bags for next season at prices much lower than those given them last summer. Bags for next harvest have been freely offered local farmers at six cents and it is stated the farmers have been signing up at these figures very generally. The price ranges from two to four cents under the terms demanded last harvest and it is the belief of many that a lower price cannot well be expected.

Another Mad Coyote — Tuesday morning Asa Arbogast shot a mad coyote at the sawmill of the Arbogast brothers in the mountains. The animal had bitten a dog in the meantime and also a hog. Mr. Arbogast promptly shot the dog and has penned up the hog for observation.

Dr. Lytle, state veterinarian, was notified and the brain of the coyote kept for his inspection. This makes the third outbreak in the south end of the county, and it is probable that others will be brought to the attention of the public in a short time. The first was at the home of James Hascall, near Pine Grove, where a dog was killed, another bitten which died afterward, and some beef cattle.—Pilot Rock Record.

Buying Feeder Cattle—J. B. Saylor, one of the heavy cattle feeders in the west end of the county has made a purchase of 200 head of cattle for feeding purposes. He already had 400 head being fattened.
