RAILROADS IN KANSAS WANT 3-CENT RATE BACK

TOPEKA, Kan., Nov. 21.—Applications of all railroads doing business in Kansas were filed with the public utilities commission, asking the restoration of the 3-cent passenger rate in effect before the 1907 agreement, when the railroads granted a 2-cent rate pending final decision in the Nebraska rate case. It is asserted by the railroads that the operating expenses of the roads have increased greatly since the 2-cent passenger rate was agreed upon, and that it is impossible to maintain first class service and show a balance on the dividend side of the ledger.

GERMANS OFF HONOR ROLL. BORDEAUX, Nov. 21.—President Poincare issued a decree striking from the roll of the Legion of Honor the names of all Germans thereon.

"When the French government bestows the decoration of the Legion of Honor upon foreigners," the decree reads: "It does not do so merely in recognition of individual merit, but also as a mark of homage to the nation to which the foreigners thus decorated belong."

President Poincare asserts that the Germans, in conducting war, are systematically violating all the rules of international law by acts of cruelty and barbarism without precedent in the history of humanity, which have turned against Germany the universal conscience.

COUNTRY PRODUCE NOW DIRECT TO CONSUMER

NEW DEPARTMENT ADOPTED BY PARCELS POST WILL BE VERY POPULAR.

With the adoption by the public of the new department recently inaugurated by the postal department in what is known as the "producer-to-consumer" service, it is expected that the growth of the parcel post business will be given an even greater impetus than has been experienced heretofore. This service contemplates the handling of farm produce especially direct from the producer in the country to the consumer in the city. For this purpose ten central distributing points have been designated. Portland has been named as one of these ten.

In order to facilitate the services in this new department the Portland office is complying with the aid of the other offices in this territory, a list of names and addresses of producers who desire to sell country produce direct to the consumer. Such a list will be revised and reprinted at frequent intervals, will be kept posted at all postoffice stations and will be delivered by carrier to any one desiring to secure it.

The list will contain the names and addresses of all persons who have indicated to the postmaster at Portland, Oregon, that they are in a position to handle produce in this manner, and wish to do so, together with the character of the produce they can furnish (under appropriate headings, such as "butter," "eggs," "fruits and nuts," and "general produce,") the prices and terms of payment, change of price, and such other descriptive matter or information it may be necessary to furnish.

The list will be printed on or about the first of each month, and if a producer wishes his name to remain on the list he should so advise the postmaster not later than the twentieth of the month; otherwise his name will not be reprinted. This is necessary in order that the list shall not be encumbered with unavailable names.

Parcel post packages are delivered throughout the entire city of Portland daily except Sunday. All packages received prior to eight a. m. are delivered that day. Shippers should time their packages to the best advantage and when perishable goods are due to arrive in this city Saturday after eight a. m., special delivery stamps should be affixed, thereby securing immediate delivery upon arrival.

Shippers should familiarize themselves as far as possible with parcel post rates and conditions, require receipts as to packing and wrapping, time necessary for transportation and delivery, etc. This information will be furnished in response to a request from the local office. The office will be pleased to enter into correspondence with any one interested in this service, or who desires to be included in the list of producers or wishes to take advantage of it.

While this movement is but an experiment, it is felt by local postal officials that it is going to prove a winner as it fills a real need in that it offers cheap and speedy transportation facilities that can not be had in any other way.

Russian to Be Taught. CHICAGO, Nov. 23.—A chair of Russian languages and institutions will be established this winter at the University of Chicago, by gift of Charles R. Crane, of this city, it was announced.
