# EMPLOYMENT BUREAU WILL BE OPENED DECEMBER 1ST

### INSTITUTION WILL BE KNOWN AS CIVIC COFFEE CLUB—TO HELP MEN

With Percy Hilbert in charge of the place the rooms on the second floor of the Hendricks building are now being made ready for use as a reading room, coffee club and employment bureau under the direction of the civic club and the churches of the city. The invitation will be known as the Civic Coffee Club and will be in regular operation by the first of the month. As a matter of fact it is in operation to a degree now as Mr. Hilbert succeeded in getting jobs for three different men yesterday.

Last evening a meeting of the joint committee having the work in charge was held at the city hall and plans for the institution were discussed. Aside from the members of the committee, a number of business and professional

men were in attendance and much encouragement was given the ladies in charge of the movement.

Arrangements for financing the institution have not yet been completed. According to Mrs. E. T. Wade, president of the civic club, it is anticipated the expenses will be from \$150 to \$175 per month. Some of those present last evening thought the expense would run much higher. Free electric lights and free phones for the first three months have been promised. At meeting last evening a letter from Ben Selling of Portland was read, the letter being in answer to queries made by local workers.

Mr. Hilbert, who has been retained to have charge of the coffee club, was formerly in the ministry and he has had experience in work of this sort in Cincinnati.

Oregon Applies to Siberia—Oregon apples are finding a market in far-away Siberia and the call for stock this year is unusually heavy. A shipment some time ago of 125 boxes of Hood River apples to Vladivostok was received in excellent condition and met with ready demand from the natives. Within the last few days other shipments have gone forward, being routed by way of Puget Sound, from which point they will go by steamer to Japan, thence to Siberia.

### SECRET OF GETTING FOREIGN TRADE

The partial or total cessation of the foreign trade of the nations engaged in the present European war has served to emphasize the relative small development of the foreign commerce of the United States, especially with the South American countries. That something else, other than taking advantage of Europe's temporary extremity, is needed to develop and hold foreign trade is becoming apparent to American business men. A writer in the Sioux City, (Ia.) Tribune gives some of the reasons why the United States has lagged behind in the race for the world's trade, together with an encouraging note as to the beneficial effects of the new tariff act upon our foreign commerce. He says:

"John F. Fowler is at the head of the export department of W. R. Grace & Co., New York, which does the largest business with South America of any firm in the United States. Mr. Fowler is credited with knowing more about actual business conditions in South America than any other man in the United States, having handled exports to that continent for 25 years, and 15 years of this time living in the various South American countries and acquainting himself first hand with conditions as they are.
