It is all old stuff, having been kept by the late Peter Medernach since the days when he conducted a saloon here.

"Ramrod Bob" Here.

Robert Carlund of Athena, who a few years ago liked to Spokane to Pendleton in record time under the name of "Ramrod Bob," is in the city today. He came down last evening to attend a meeting of the Red-men. At present he is suffering from rheumatism and has quit the hiking business.

Locust and Walnut Trees Mix.

William Coffman, who lives on Hazel street, is today exhibiting branches of a tree which he thinks is a freak. He has locust and walnut trees growing close to each other and the branches on the locust trees next to the walnut show characteristics of each tree. He believes that, without grafting or budding, walnut branches have grown on the locust trees.

Case Is Dismissed.

The case against Henry Slusher, charged with assaulting George Ernst, was dismissed yesterday afternoon after the evidence was submitted. The testimony failed to show that Slusher had struck Ernst but, on the other hand, showed that Ernst had threatened to strike Slusher. The two men are employed at Martin Anderson's saloon instead of at the Columbia bar as stated yesterday.

Case Under Adjudication.

Robert Bonner, the colored man, who with another of his race and two mixed blood women was arrested Thursday night on a charge of disorderly conduct, was tried yesterday afternoon in police court on a charge of conducting a bawdy house. After the submission of evidence, Judge Fitz Gerald took the case under advisement and the other cases have been postponed pending his decision.

Charles Jones, the other colored man is out on bonds but Bonner, unable to furnish \$100 bail, is languishing in jail. The two women, Amanda Bergevin and Julia Parr, have been released temporarily.

Doctor's Son Very Low.

Warren McKinney, the 13 year old son of Dr. W. H. McKinney of Helix, is in a very serious condition at St. Anthony's hospital. He was brought in two weeks ago from Helix suffering from appendicitis and has since been in a grave condition. Yesterday afternoon Drs. Parker and Hattery operated upon him, removing the appendix and draining the abscess and, while his condition today is somewhat improved, the physicians state that he is not yet out of the danger zone.

Delivery Wagon Damaged.

A peculiar accident happened on Webb street while the Northern Pacific passenger was waiting to start upon the run to Pasco. A wagon loaded with hay going to the Round-up grounds was driving west on the street and at the same time the Rohrman delivery wagon was going east on the same side of the street. The delivery cart was forced against the sidewalk by the hay wagon and one wheel of the bakery was broken.

Prineville Would Play Here.

The Prineville football team wants to meet a Pendleton team in this city next Saturday. A telegram was received this morning by Lee D. Drake from Douglas Lawson, son of Tom Lawson, asking if such a game could be arranged and what kind of a guarantee could be promised. Mr. Drake has taken the matter up with local football enthusiasts and it may be possible to schedule a game on Friday of next week.

Elks Plan Big Show.

The annual Elks' minstrel show will probably be held on the evenings of the 15th and 16th of December, those dates having been tentatively selected at a meeting of the committee last evening. Louis Steelhammer and R. E. Chloupek have been appointed to direct the show and they have called a meeting of the chorus for next Tuesday evening. Some snappy music has been received from Jack Keefe, who is with the Miller & Draper Co. and the Elks promise something worth while this year.

BELIEVES THAT FIRST AID SHOULD BE FOR LOCAL MEN

If local help is to be given unemployed men there is one man who believes all efforts should be towards aiding local men and particularly men with families. He is T. J. Tweedy, postmaster.

"It is always a fact during each winter that there are a certain number of men out of employment because of the closing down of outdoor work," says Mr. Tweedy. "If anything is to be done why not run the city rock crusher and place rock on many of the cross streets in the city. This could be done at the expense of the property owners, not at the city's expense. By doing this work in the winter cheaper labor can be secured and men who really need work can be given employment."
