NEWS OF FARM AND RANGE

New State Inspector—C. E. Allen of Medford, has been appointed state horticultural inspector for the Third District to succeed A. H. Carson, removed. The appointment was made by the state horticultural board upon the recommendation of E. C. Roberts, commissioner at large.

Mr. Carson held the position for 20 years, and although numerous fruit-growers signed a petition calling for his removal, he declined to resign. He charged that the opposition to him was the result of his insistence that parts of trees having the blight should be burned.

Wheat Market Halted—High prices asked by wheat sellers checked business at the Merchants' Exchange in Portland Thursday, notwithstanding an all-around advance in bids. One lot of 5000 bushels of prompt club was sold at \$1.14, a gain of half a cent over the preceding day's price. Offers for bluestem were also half a cent higher, while forty-fold bids were up a full cent and for red fife 1 1/2 cent more was offered than on Tuesday. In the country wheat business has practically come to a stop, as farmers refuse to sell at current prices.

Some Good Egg Layers—Ten eggs from 11 pullets in one day is a pretty good day's work in the opinion of Armand Wynne of Cottage Grove, whose Buff Orpingtons made that record. The pullets had only been laying a short time previously. All the eggs were large.

Mr. Wynne has had considerable experience with chickens, but this is the first time he has had pullets make such a record so early in their career.

Inspecting Cavalry Horses—Headed by Lieutenant Jean de Chevigny of the French army, a party of five agents of the government of France are in this city to inspect and purchase cavalry horses. They arrived here Tuesday, Lieut. de Chevigny and another direct from France and the others, Messrs Robbin, Vingut, E. A. Turenne and E. W. Lacey and wife from the east. This morning at 9 o'clock they will begin inspecting horses at the fair grounds—Walla Walla Union.

Taking No Chances—Similar to the precautions taken by Spokane stock yards men, the Attalla Dairy Products company has posted notices on its Attalla ranch forbidding any but employees to enter the grounds.

These steps have been taken by almost all the big stock yards and ranches of the country in order to prevent any possible danger of disease brought into the premises.

The Attalla company has 70 head of fine Holsteins, headed by a registered bull valued at \$2,000.

Harrah is Now Delegate—At yesterday morning's session of the Farmers' Educational and Cooperative Union of America, in state convention at The Dalles the following officers were elected for the ensuing year: President—J. D. Brown of Arlington, elected to succeed himself.

Vice president—Frank Burkholder, Coquille, Ore. Secretary—F. A. Sikes, Milton, Ore. elected to succeed himself.

The terms of three of the executive committee members, J. T. Adkinson of Boyd, W. W. Harrah of Pendleton and W. O. Parks of Elgin, expired this year. They were all elected to succeed themselves.

W. W. Harrah was elected delegate from the state organization to the national convention, which, it is hoped, will be held in Spokane next summer.

Beach Sand Yields Gold. MARSHFIELD, Ore., Dec. 4.—Samuel Archer, an experienced early-day miner, is exhibiting samples of black beach sand formation which assays \$26 a ton. Mr. Archer is mining on the government reservation at Charleston Bay and is working on a four-foot ledge. Fifty pounds of tailings from his washer netted him a \$15 check from a Puget Sound smelter.

"Spirits" Cause of Suicide. PITTSBURG, Pa., Dec. 4.—With her lips burned from acid, Mrs. Rose Meyers, aged 24, was found sitting in a chair in the kitchen of her home, 1505 Hatteras street, Troy Hill, recently by her husband, Edward Meyers. She died in an ambulance while en route to the Allegheny general hospital.

According to neighbors and friends of the dead woman, she complained that she could not sleep because "spirits" bothered her. It is said she had been in a highly nervous state since the birth of the third child, three months ago.

According to her husband, Mrs. Meyers arose about 5:45 o'clock in the morning and started the fire in the kitchen. When she did not return to the bedroom Meyers sought her and found her sitting in a chair in the kitchen. A bottle which had contained acid was nearby and her lips showed where the fluid had burned.

Dr. M. N. Greer was summoned and ordered the woman sent to the hospital, but she died while in the ambulance.

PERSONAL MENTION
