**LOCAL GROWERS USING COTTON SEED CAKES**  
(Continued from page one.)

and the other half upon cotton seed cakes. He found that the band to which the cakes had been fed produced an average of two pounds of wool per head more than the band that had been fed in the customary manner.

The profits in the sheep business depend largely upon the ability of the grower to keep his sheep in good physical condition. Sheep that are "not doing well" do not bear heavy fleeces and the fleeces are always off grade. When ewes are not in good shape they do not raise the normal number of lambs and are unable to take care of twins when they have them. It is the belief of Dan P. Smythe that when sheep are in fine shape it is normal for a ewe to have two lambs and on the Smythe Bros. ranch vigorous work is done to save all the twins. It is their intention to mix 25 per cent of syrup with the cotton seed cakes and feed the ewe bands this winter.

**VON BUELOW TO KEEP PEACE WITH ITALY**

BERLIN, by wireless via Sayville, Dec. 19.—Prince von Buelow started for Rome Wednesday. It was announced here, to take charge of the Kaiser's embassy there.

There have been persistent reports that von Buelow's principal business at Rome would be to keep Italy from taking part in the war, as an Anglo-Franco-Russian ally, and some accounts have had it that he was authorized to offer the Italians territorial concessions from Austria as the price of their neutrality.

The prince, who has lived much in Italy, is very popular and influential there. His wife is an Italian.
