Hudson Maxim.

NEW YORK, Jan. 8.—Hudson Maxim, the inventor, declares that we must fight the winner of the European war. Should an invading army reach these shores, continued Mr. Maxim, they could easily capture all the sources of our munitions and use them for their own advantage. He called attention to the fact that most of the arm and powder manufacturing concerns are within a short radius of New York. He mentioned the Winchester and U. M. C. Cartridge Works at New Haven and Bridgeport, Conn. the Winchester Repeating Arms Works, the armory where our army rifles are made at Springfield, Mass., another arms factory at Ilion, N. Y., still another at Troy, N. Y., and the Brooklyn navy yards. The Frankford Arsenal is near Philadelphia and any number of powder works are to be found in New Jersey. With these in the hands of an enemy we would have no means of arming ourselves, declared Mr. Maxim.

FIVE CENTS PROVES IT.

A Generous Offer. Cut out this ad, enclose with 5 cents to Foley & Co., Chicago, Ill., writing your name and address plainly, and receive a free trial package containing Foley's Honey and Tar Compound, for coughs, colds and croup; Foley Kidney Pills for kidney and bladder complaints, backache, pains in joints, rheumatism; and Foley Cathartic Tablets, a wholesome and thoroughly cleansing cathartic—try all three for 5 cents, the cost of mailing. Sold everywhere—Ady.

OREGON PICTURES WANTED.

State University Museum Will Preserve Views of Natural Scenes.

UNIVERSITY OF OREGON, Eugene, Ore., Jan. 12.—Donations of clear-cut photographs of natural scenes in Oregon are wanted by the geological department of the state university. They are to be part of an exhibit that is being arranged for the new quarters of the Condor geological museum.

River scenes, mountain views, pictures showing sea beaches and cliffs, and pictures of waterfalls and geological formations are especially desired. Good photographs of mining scenes will also be welcomed.

Where these donations of pictures are made by professional photographers, the exhibit will contain the name of the donor, and so will all other donations where the giver makes known the wish.

MISS HILL TO TALK

"VOTES" TO PRESIDENT

Miss Alberta Hill.

These senior class statistics have just been compiled by university authorities, and will be compiled later for junior, sophomore and freshmen classes.

"I know no other American university students who are so self-reliant and independent as these Oregon boys and girls," said Dr. W. M. Smith of the University faculty, who gathered the data.

There were 400 fires this year on the national forests of Utah, southern Idaho, western Wyoming, and Nevada, or 15 more than in the most disastrous season of 1910. Yet the cost of extinguishing them was only one-third of that of the earlier year. The difference is due to better organization now, and to more roads, trails and telephones.

CATARH LEADS TO CONSUMPTION

Catarh is as much a blood disease as scrofula or rheumatism. It may be relieved, but it cannot be removed by simply local treatment. It breaks down the general health, weakens the lung tissues, and leads to consumption.

Hood's Sarsaparilla is so successful in the treatment of catarh that it is known as the best remedy for this disease. It purifies the blood. Ask your druggist for it.

WASHINGTON, Jan. 11.—Miss Alberta Hill will lead a delegation of the Congressional Union, the most militant suffrage organization in this country, to the White House on Wednesday to make another effort to win the president over in favor of the Mondell resolution, which provides for the presentation to the various state governments of the union the proposed votes for women amendment to the United States government for final decision.

Boy's Suits Sacrificed

We have done the greatest business in our history in our boys' department this fall. Consequently we have many odd suits and broken lines.

All these must go. We don't carry suits over from one season to another if price will move them. Select early.
