PERSONAL MENTION

Art Coppeck of Athens, was among the visitors in the city yesterday.
R. R. Lewis, prominent Echo citizen, was up yesterday from his home.
J. B. Kennedy, retired farmer, left yesterday for Hot Lake for a sojourn.
Charles Cowan, owner of the Irvington Heights property left today for Seattle.
W. P. Littlejohn, Athena miller, who is doing jury duty here, is at the St. George.
County Superintendent I. E. Young is spending the day in Umatilla on school business.
Douglas Leffingwell, local insurance agent, accompanied by Ed Thompson of San Francisco, went over to Hot Lake yesterday.
L. H. Pinkham, Spokane glove salesman and father of Louis H. Pinkham, Jr., a former U. of O. football player and coach, spent last night at the Pendleton.
Lymon Rice arrived home this morning from Portland where he had been receiving treatment for his eyes. He went on down to Eugene for a couple of days to visit with college friends.

NEWS OF FARM AND RANGE

Walla Walla Grain Prices—Barley which has been ascending with wheat during the past six days, has outstripped the more widely known cereal, says a report from Walla Walla. Barley is now worth \$20 and there are few offerings on the market. More than half the crop remains to be sold.
About 10 per cent of the wheat crop remains in the valley, but there is a great proportion of this in the hands of mills and warehouse companies. Most of the farmers have come to the belief that the limit has just about been reached, and are slowly turning their grain on the market.
Dealers are now offering \$1 for the present season's crop, with an advance of 23 1-2 per cent cash on contract. One offer of \$1.10 with 25 per cent cash down was offered last week, it is said. Few farmers are willing to contract, however, with prices at the present level.

VOICE TRAVELS FOR 3400 MILES ON TELEPHONE WIRE

LOCAL OFFICE CATCHES CONVERSATION BETWEEN FRANCISCO AND NEW YORK.
1875 Boston to Cambridge 2 miles
1882 Boston to Providence 45 miles
1884 New York to Boston 225 miles
1882 New York to Chicago 900 miles
1911 New York to Denver 2,100 miles
1915 New York to San Francisco 2,400 miles

New York has talked to San Francisco and San Francisco has answered. The human voice, spoken into a telephone transmitter and propelled by the almost infinitesimal power of the breath, has traveled 2,400 miles. Manager Mable of the local telephone plant last evening received over the wire copies of the messages sent across the continent almost as soon as they were transmitted.

The conversation over the wire yesterday was the formal opening of the first transcontinental telephone line joining the Pacific and Atlantic. It is fitting that the first conversation over the wires should be between Alexander Graham Bell, the inventor of the telephone, and Thomas A. Watson, who made the first telephone and who first heard a spoken word over the wire.

Mr. Bell was in the office of the American Telephone & Telegraph company at 15 Bay Street, while Mr. Watson was on the sixth floor of the Grant Avenue building at San Francisco.

Following the conversation between San Francisco and New York, Theodore N. Vail, president of the American Telephone & Telegraph company telephoned from his home at Jekyll Island off the coast of Georgia, 1,200 miles south of New York, to Thomas A. Watson at San Francisco. Mr. Vail's voice rang out clear and distinct over 4,600 miles of wire.

Mr. Watson congratulated Mr. Vail upon the wonderful organization which had made transcontinental telephone service possible. Mr. Henry T. Scott, chairman of the board of directors of the Pacific Telephone and Telegraph company then addressed Mr. Vail. Later in the afternoon President Wilson from the White House in Washington, telephoned to Mr. C. C. Moore, president of the Panama-Pacific international exposition.

Still, no literacy test will bear out the man who looks for a gas leak with a lighted match.

Public Dance Next Friday.
Big public dance Friday night, January 29th in Moose hall. United Orchestra. All are invited. Good time assured. Admission 50c.—Adv.

MOVIE FILMS TAKE THE PLACE OF SCHOOLBOOKS

CLEVELAND, Jan. 26.—Education under forced draught, founded on the theory that "seeing is believing" and taught exclusively with motion picture films is the purpose of the latest institution of learning here.

Reading, writing, arithmetic, geography, domestic science with all its branches and many other subjects will be taught with the aid of films. Pupils will be enrolled as in other schools. Pencils and paper will be used only for examination at various intervals and all papers will be graded in the customary manner. The scheme is headed by C. G. Thompson, manager of a film service and is backed by representative business men.

NEW GRAVITY WATER SYSTEM AT MULINO

MULINO, Ore., Jan. 26.—Springs two miles distant, at an elevation of 200 feet, have made possible a gravity water system for residents of Mulino. The elevation furnishes 110 pounds pressure. The capacity of the present plant is sufficient to secure a flow of 50,000 gallons a day. The water from these springs is stored in a concrete reservoir. Three inch mains are tapped for resident use. Local capital has financed and put in the system at a cost to date of nearly \$2600. There will be some additional expense necessary.

CHURCH WORKERS ASK THAT ALABAMA BE DRY

MONTGOMERY, Ala., Jan. 26.—To frame a law providing for statewide prohibition, hundreds of delegates to the Alabama Anti-Saloon league convention are in session here today. Church and Sunday school workers are predominant. The convention will last two days and will urge the passage of the law by the state legislature.

SEED AMENDMENT KILLED IN THE HOUSE

WASHINGTON, Jan. 26.—By a vote of 66 to 29, the house killed the amendment to the agricultural appropriation bill intended to end government distribution of free seeds through congressmen.

HOLD DEPUTIES FOR KILLING IN STRIKE RIOT

The Alexander Dept. Store

Pendleton's Biggest and Best Dept. Store.
We give S. & H. Green Trading Stamps.

3400-Mile Line Ready.
SAN FRANCISCO, Jan. 26.—Mayor Rolph will "call up" Mayor Michel, of New York, and, over 3400 miles of desert, mountain, snow and water, extend a cordial invitation to visit San Francisco to see the exposition.

The brief ceremony of opening the transcontinental telephone line will be witnessed by a large gathering of city, state, federal and exposition officials, citizens and members of the Pacific Telephone & Telegraph company.

It is predicted that the event and those who participated actively in the inauguration will become a subject of historical interest. The officials of the telephone company have arranged to make the opening of the wire an auspicious occasion. The room in which the telephone is located in the company building has been decorated. A special program, including several features, has been arranged.

It is believed there will be no difficulty in establishing a connection between San Francisco and New York although officials of the company say that the test is being made at a

time of the year when severe climatic conditions have to be contended with.

When a man falls he never seems to hit the bottom.

THE PRICE SHE PAYS.
There is hardly an American woman nowadays who can keep pace with the demands made upon her time and energy without paying the penalty of ill-health. It may be that dreadful backache, dragging pains, headaches, nervousness or the tortures of a displacement. It is the price she pays. To women in this condition Lydia E. Pinkham's Vegetable Compound comes as a boon and a blessing. A simple remedy made from roots and herbs which brings glorious health to suffering women.—Adv.
