## SPORTS

### SPORT DOPE.

BY HAL SHERIDAN.  
(Written for the United Press.)

**NEW YORK, Feb. 1.**—Boxing fans for women simply don't go around these parts. The gentler sex that makes its way home via the New York subway is willing to tackle other things Parisian but when it comes to watching two huskies maul each other around the ring—well, that's another story.

John Westmante, who runs the Broadway Sporting Club in Brooklyn made the bid for the women fight fans. John advertised that he would put on a weekly tea party with boxing strictly on the side. After thorough press-agenting John threw open the club for the first affair at which he promised feminine boxing enthusiasts would gather.

It was pretty tough on John. There were plenty of "gents" in their shirt sleeves, who chewed gum because John had admonished them not to smoke in the presence of "ladies," but there was only one "lady" present. She confessed that she was sent over the bridge by a New York paper.

Princeton graduates and undergraduates are expressing some surprise at the naming of John H. Rush of Cleveland as head coach of the Tiger football team. Rush had held the Princeton record for the 100 yards—34—when he was in school but 1-1-1, his football, at the sidelines. Some of the Princetonians, however, are pointing out that Del. Zuppke, then assistant football coach in 1914, was 1-1-1. So, the west, was not a letter man's football when he attended Wisconsin university.

Football may take on all the aspects of Henley in the English regatta season as the result of the change in the rowing program to become effective at this year's meet. Instead of bunching the freshmen, junior and varsity races in the afternoon as in the past, the two minor events will be rowed in the morning. There were some critics who were of the opinion that this would reduce the size of the crowds. The belief expressed here now is that the arrival of crowds in Poughkeepsie on the night before the big races, the ming-

ling of old friends and the opportunity of making the hike up the river a sort of vacation will transform what formerly was only an afternoon's outing into a real sporting event.

**Injury to Ships Serious.**  
GENEVA, Switzerland, Jan. 29.—Recent reports that the Russian battleships Viribus Unitus and Radetzke had been damaged during the attack by the Anglo-French fleet on Pola were confirmed in a dispatch received by the Geneva Tribune from Trieste.

The message says that both battleships were torpedoed and greatly damaged. They are now docked at Pola and will be useless for a long time.

A dispatch from Venice December 31 said the Viribus Unitus, one of the largest ships of the Austrian navy, had been torpedoed by a French submarine. The Radetzke, a smaller battleship, was said at that time to have been damaged by fire from the Austrian forts at Pola, mistakenly directed against the Austrian warships.

**Mounce Out on Bonds.**  
SALEM, Ore., Feb. 1.—J. F. Mounce well known in the Willamette valley as a railroad promoter, is out on a bond of \$500 to answer to a charge of larceny by bailie, preferred by Bruno Foodgrainmer, who says that Mounce left his automobile with him as security for a loan of \$200 and later borrowed the machine, took it to Portland and sold it. Mrs. Mounce claims that the automobile belonged to her and that she had simply stored it in the garage.

Many a misguided youth imagines that a girl is interested in his welfare, when in reality she is interested only in his farewell.

**Rates are Raised.**  
LIVERPOOL, Feb. 2.—Underwriters raised the insurance rate on steamships engaged in northwest trade from five to twenty shillings per hundred pounds as a result of the recent German submarine raids on merchant vessels.

**5000 Men at Work.**  
PITTSBURGH, Feb. 2.—The Homestead works of the Carnegie steel company resumed operations. Eight thousand men returned to work.

**Commissioner Appointed.**  
WASHINGTON, Feb. 1.—H. C. Cross of Victor, Montana, was among the many commissioners appointed by the president.

## NEMESIS OF THAW NO LONGER ON HIS TRAIL

William Travers Jerome, whose services as special attorney for the prosecution in the case of Harry Thaw have been dispensed with by the Attorney General of New York state. This marks the exit of the man who, next to Thaw himself, has been the most dominating figure in the case. Jerome was district attorney of New York county when Harry K. Thaw, the young millionaire from Pittsburgh shot and killed Stanford White, the noted architect, among the crowded tables on the roof garden of Madison Square. He conducted the prosecution of Thaw in the latter's two trials. It was Jerome who mercilessly grilled the beautiful, girl-bride of Thaw, Evelyn Nesbit Thaw, into a fearful confession of her besmirched life. And all through the nine long years since the night of the tragedy Jerome has loomed as a nemesis behind Thaw, felling him in every one of his many legal battles for freedom. So tenacious and successful has Jerome been in thwarting the attempts of Thaw's lawyers that the public, ever lenient toward the under dog, had gradually come to view every move of Jerome's with antagonism. He expresses himself as being greatly relieved to be out of the case.

## Local Playhouses

WHAT the Press Agent Has to Say of Present and Coming Attractions

**EVELYN THAW AT PASTIME.** "Threads of Destiny" is Fascinating Five-Act Feature.

Evelyn Nesbit Thaw, the little woman on whom the country's eyes have been turned for years, comes to the Pastime today in a thrilling five-act feature, "Threads of Destiny."

Less than a year ago the little actress appeared on the Portland, Ore., stage in a vaudeville skit on her first tour since the tragedy and trials that have brightened her life. For years she remained out of her profession until the storm had blown over and the people began to sympathize more than ever with her as the plaything of the fates.

In "Threads of Destiny" she makes what probably will be her last public appearance on the stage, whether before the footlights or the moving picture camera. For her part in the play she is said to have received \$20,000. She almost has decided to abandon her profession and retire to some estate where she may live in quiet with her son.

**KIAO CHAU REFUGEES FETTERED IN CALIFORNIA.**

LOS ANGELES, Cal. Jan. 28.—More than 70 wives and children of Germans who fought the British and Japanese at Kiao Chau are traveling eastward after a brief visit in Los Angeles, where they made much of the German-American citizens.

The coaches occupied by the refugees were hopped with fruit, flowers, clothing and other gifts. The children were provided with anything they asked for. Also each child was given small German and American flags. Hundreds of Germans crowded about the train, singing German war songs many of them with tear-wet faces.

The husbands and fathers of the refugees are all in Japanese military prisons. But one married German was killed during the siege of Kiao Chau, it was said.

**Medicine "Navies" to Fight.**  
SAN DIEGO, Cal., Feb. 1.—Four thousand Krug Jorgenson rifles and 4,000,000 rounds of ammunition, which arrived here from New York for shipment to Topolobampo on the schooner Annie Larsen, was consigned to a Carranza army which intended an invasion of the state of Sonora, according to secret service agents. The munitions are under surveillance, and there is now little likelihood that it will ever be permitted to leave this port.

The Villa gunboat, Korregan II, is on its way to confiscate the rifles and munitions and to sink the Annie Larsen while the Carranza gunboat Guerrero has been sent to sink the Korregan.

## INS AND OUTS OF WAR TAX SYSTEM LEAD TO A LOT OF CONFUSION

RECORDER IS PUT TO MUCH INCONVENIENCE EXPLAINING METHODS.

Bulletin, Sent Out from Portland. Handles Subject in Way That All May Understand What Instruments Filled for Record Are Taxable Under New Law—Summary is Given.

The operation of the war tax upon instruments filed for record has caused much confusion since it became effective and Recorder Burroughs has had no end of inconvenience in explaining and correcting. He has just received a bulletin from M. A. Miller, collector of internal revenue, which explains just what instruments are taxable and what ones are exempt. For the benefit of those interested, a brief summary of the bulletin is here given.

Deeds or other instruments conveying realty, when the consideration exclusive of any lien or incumbrance exceeds \$100 and does not exceed \$500, are subject to a tax of 50 cents and 50 cents for each additional \$500 or fraction thereof. In the event that a promissory note is given in part payment, the amount of the tax is computed on the basis of the cash received and the note becomes subject to the tax imposed upon such instruments.

In the event that the consideration is given on the instrument at one dollar and other valuable consideration, the tax must be computed upon the actual value of the property conveyed with the amount of the lien deducted.

A deed executed, dated and delivered prior to December 1, 1914, is not subject to tax and may be accepted for record subsequent to that date without the documentary stamp attached. However, a deed dated prior to December 1 and not acknowledged before a notary until after that date is taxable.

A contract for the sale of real estate is not subject to tax if executed by the owner of the property. If executed by a broker, it is subject to a tax of ten cents.

A partition deed used in defining boundaries or in showing location is exempt. A quit claim deed given without consideration for the purpose of correcting a flaw in title, oil leases, mining leases which do not convey title and deeds of release and deeds of trust are exempt from taxation.

Deeds in escrow do not become subject to tax until final delivery is made.

Deeds issued by masters in chancery, sheriffs, etc. to transfer property sold under foreclosure are taxable, the tax to be added to the court costs.

Deeds to burial sites which do not convey title to land, deeds issued to cover gifts of property for nominal considerations, and deeds executed by a debtor covering an assignment of property to be held for the benefit of a creditor are not subject to tax. When the trustee conveys such property, the deeds are taxable.

In the case of an exchange of two properties, the deeds transferring title to each are subject to be computed in each case on the basis of the actual value of the interest or property received, the amount of any lien or incumbrance to be deducted.

Deeds transferring title to a building and loan association to secure a loan and deeds reconveying the same are not taxable and deeds given by a husband and wife to a straw man who immediately executed a deed reconveying the property to a wife, where there is no consideration, are exempt.

A stamp is required upon a bond accompanying a mortgage, it coming under the provision requiring a stamp for a tax of 50 cents upon all bonds of any description, except as such as may be required in legal proceedings.

**HUNDREDS OF WOMEN** nowadays are entering the professions or business world and go to work day after day in bad health, afflicted with some female ailment, dragging one foot wearily after the other, working with an eye on the clock, and wishing for closing time to come.

Women in this condition should take Lydia E. Pinkham's Vegetable Compound, made from roots and herbs. It has brought health and happiness to more women in America than any other remedy. Give it a trial.—Adv.

**Medicine "Navies" to Fight.**  
SAN DIEGO, Cal., Feb. 1.—Four thousand Krug Jorgenson rifles and 4,000,000 rounds of ammunition, which arrived here from New York for shipment to Topolobampo on the schooner Annie Larsen, was consigned to a Carranza army which intended an invasion of the state of Sonora, according to secret service agents. The munitions are under surveillance, and there is now little likelihood that it will ever be permitted to leave this port.

The Villa gunboat, Korregan II, is on its way to confiscate the rifles and munitions and to sink the Annie Larsen while the Carranza gunboat Guerrero has been sent to sink the Korregan.

**5000 Men at Work.**  
PITTSBURGH, Feb. 2.—The Homestead works of the Carnegie steel company resumed operations. Eight thousand men returned to work.

**Commissioner Appointed.**  
WASHINGTON, Feb. 1.—H. C. Cross of Victor, Montana, was among the many commissioners appointed by the president.

THE CENTAUR COMPANY, NEW YORK CITY.

the Gunst cigar store, Fifth and Washington streets.

"We want to get as many Oregonians on board the ship as we can and now that the government has decided to allow us our uniforms and pay in addition, I hope the boys will take advantage of it."

The Oregon is now at San Francisco. She will sail for the canal zone February 1, stopping en route at San Diego. There she will remain at anchor until February 19 and will then proceed directly to the canal.

**Federal Control Advocated.**  
NEW YORK, Feb. 1.—General federal control of industry was advocated by James Mackay, consulting engineer and economist of Cambridge, Mass., before the industrial relations committee. Mackay voiced the opinion that until the government fixes a standard for each industry, a minimum wage rate and provision for division of the surplus between the workers, citizens and corporations, industrial unrest will continue.

## Joyful Anticipation of Motherhood

There is apt to be a latent apprehension of distress to mar the complete joy of expectation. But this is quite overcome by the advice of so many women to use "Mother's Friend." This is an external application designed to soothe and lubricate the muscles and to thus so relieve the pressure resting on the nerves, that the natural strain upon the cords and ligaments is not accompanied by those severe pains said to cause nausea, morning sickness and many local distresses.

Many people believe that those remedies which have stood the test of time, that vary in conditions of age, weight, general health, etc., may be safely relied upon. And judging by the fact that "Mother's Friend" has been in continual use since our grandmother's earlier years and is known throughout the United States it may be easily inferred that it is something that women gladly recommend.

"Mother's Friend" is prepared only in our own laboratory and is sold by druggists everywhere. Ask for a bottle to-day and write for a special book for expectant mothers. Address Bradford Regulator Co., 207 Lamar Bldg., Atlanta, Ga.
