COTTON LOAN POOL BENEFIT EXPIRES TODAY.

WASHINGTON, Feb. 1.—Benefit of the federal "cotton loan pool" expire today. This is the last day for applications for loans for the \$135,000,000 fund voluntarily pooled by national banks. The federal reserve board decided that it was unfair to the banks to have money tied up awaiting cotton loan applications longer than today, believing that all cotton growers warehousemen or brokers hit by the war have had time to ask and receive money from the pooled funds by this time.

The federal reserve board which had in its unofficial capacity as the central committee to handle the cotton loan fund subscribed by all national banks, thinks the situation is now well in hand. Only a comparatively small part of the \$135,000,000 subscribed has been loaned out.

Insurance Given on Rain.

PITTSBURGH, Jan. 29.—If there happens to be rain about 4 o'clock on the afternoon of next June 21, 22 and 23 on the campus of Allegheny College at Meadville, a nice little check for \$5000 will change hands as a result. But if the sun goes down over the hill in a guaranteed saffron glow it will be quite different, for in that case the historical pageant, which is to mark the 100th anniversary of the founding of the college, will be assured the natural lighting effects which are absolutely necessary for its production.

They have insured the climatic conditions for the days of the pageant with Lloyd's who will distribute the \$5000 insurance among various insurance companies. The guarantee fund subscribed by 50 alumni will be partly applied to cover the cost of the premiums.

The course is "etiquette" and the peoples will be taught how to manipulate a menu from soup to nuts.

How to secure hotel service without embarrassment and how to properly enter and leave a Pullman car are other features of the unique course.

CHAMPIONS TANGO ON THE ICE

Here is a winter sport which has aroused considerable interest. Mr. Wilson, a champion ice skater of England, with Miss Claire Cassel, a tennis champion, are shown tangoing on the ice. Of course both are expert skaters and the dance comes easy to them. Amateurs find it difficult, yet the dance is easy and graceful for a good skater.

GLOOM GONE FROM PITTSBURGH INDUSTRY

PITTSBURGH, Feb. 1.—"Hard times" talk is rapidly being purged from the atmosphere of the Pittsburgh district. The European war has proven the extensive to increased industry and plants that were running on only part time and others that were not even doing that are operating at full blast.

Steel is the commodity to which the newborn boom owes its being and promise.

Secrecy essentially surrounds most of the operations of the plants, big and little, in this vicinity. But that the plants are running there can be no doubt. Nor that men are back at work. Two months ago there was not a bulletin board before any newspaper office at which crowds could not be found, night and day. They were steel workers, the majority of them, and war and hard times were the two topics of discussion. Today a half dozen or a dozen is the usual extent of the gatherings.

That is, until night. Then there are larger crowds. They are dressed better, smoke better tobacco, chew "tobies" (stogies) instead of black plug and wear bright expressions where gloom was implanted before.

All of the big plants are operating on full time or nearly on full time. At New Castle, Sharon, Tarentum, Vandergrift, McKeesport, Swissvale and other big steel towns in the Pittsburgh district the mills are working full time with a long and steady run assured. Down the river at Morgantown, Parkersburg, Martin's Ferry, Moundsville, Riverside and other West Virginian and Ohio cities the boom is on. The bulletin-board crowds have diminished—but more papers are being sold and more of the things advertised in the newspapers, too.

WILSON REFUSES TO SUBMIT CORRESPONDENCE

WASHINGTON, Feb. 2.—Declaring it was "incompatible with public interest" the president refused to send to the senate the state department's correspondence with foreign governments over the seizure of copper shipments. The information was asked for in a resolution introduced by Senator Walsh, calling also for the correspondence relative to making copper conditional or absolute contraband. The president refused, for the same reason to send the senate correspondence concerning making naval stores contraband.

SHAVING PARLOR IN THE HOTEL DE GINK

The Hotel De Gink, recently opened in New York City for the winter accommodation of men who cannot find work, has not all the modern conveniences. The city gave one of its buildings to the committee in charge, but the building contained little more than bare rooms sufficient to take care of about 150 men. The nobo shown in the illustration found a piece of broken looking glass in an ash barrel. He borrowed a cheap safety razor, then the shaving parlor was as complete as the average hobo wishes. One man had to shave at a time, and sometimes he had to use charge, but the building contained little more than bare rooms sufficient to take care of about 150 men. The nobo shown in the illustration found

The snowfall has been light though there is some snow on the ground now and the cold has been unusually noticeable, due he thinks to the dry season.

J. Sheerman Here.—Jacob Sheerman, well known wool buyer, is here today upon his first trip here this season. It is reported he is here for the purpose of contracting wool if possible, but he says it is too early to tell what the price of wool will be.

Swiss Farmers Coming.—The passenger department of the O.-W. R. & N. Company received advice yesterday from A. L. Werder of St. Paul, Minn., that he has bought three sections of land in Harney county, which will serve as the nucleus for a colony of Swiss farmers.
