WHY HAIR FALLS OUT

Dandruff causes a feverish irritation of the scalp, the hair roots shrink, loosen and then the hair comes out fast. To stop falling hair at once and rid the scalp of every particle of dandruff, get a 15-cent bottle of Dandruff at any drug store, pour a little in your hand and rub well into the scalp. After a few applications all dandruff disappears and the hair stops coming out.

3 IRRIGATION BILLS ARE PASSED IN THE HOUSE

MEASURES WILL HELP IN DEVELOPMENT OF GOVERNMENT POLICY.

SALEM, Ore., Feb. 6.—Three irrigation bills were passed by the house including one that had been defeated Wednesday. This was reconsidered and amended. The measures are all amendments to the present irrigation code, designed to make the laws more in conformity with laws of other states, that the general policy of the government may work out alike to all the states.

Mr. Hunt's suggestion was the amendment of H. B. 296 to make lands contracted for sale by the state subject to assessment and taxation in irrigation districts. As originally drawn, the bill required that state lands in such districts be taxed, which led to its defeat on the ground that the state cannot tax itself.

J. T. Hinkle submitted to the house that there is left little state land, the bill being intended primarily to help the Dead Ox Flats district, which has some such land within its boundaries. Some of the residents have been claiming exemption because the title still rests with the state, which hampers the development of a worthy project, he said.

Other bills affecting irrigation were one allowing the state to purchase irrigation district bonds and another allowing irrigation districts the right to sell electric power developed within the project.

These bills are designed solely to administer the districts already organized and do not affect the larger question of financing new projects which will come before the house later in the session.

UMATILLA COUNTY AGREES COOPERATE IN EXPO PLAN

MAN WILL BE KEPT AT FRISCO DURING PANAMA-PACIFIC FAIR.

By action of the county court Thursday afternoon Umatilla county has agreed to cooperate with other counties of eastern Oregon in keeping a man at the eastern Oregon exhibit at San Francisco during the time allotted to this county. This will be from April 15 to June 15 and from October 15 to December 4. The court has not yet selected a man for the place but there is at least one candidate in the person of C. K. Cranston, secretary of the Pendleton Commercial Club.

As planned at the meeting held at Baker Wednesday, a Wheat Cascade will be one of the features of the eastern Oregon display. The details of the scheme have not yet been worked out but it is believed a creditable exhibit illustrating in a novel way the big resources of eastern Oregon can be provided.

Pay to Women Teachers.

SALEM, Ore., Feb. 5.—Women school teachers will receive the same salaries as men school teachers, when rendering the same service, if a bill introduced by Senator Moser becomes a law.

"In the employment of teachers in the public schools of the state of Oregon," says the bill, "the district school board shall not discriminate between male and female teachers, and for the same and like services shall pay female teachers the same or like compensation as shall be paid to male teachers, taking into consideration the years of successful teaching experience in the districts where the teachers are employed."

Another Inspector Provided.

WASHINGTON, Feb. 6.—The house passed a bill providing for an additional supervising steamship inspector for the Pacific coast.

COMPETITION SAVES LIFE.

PASSAIC FALLS, N. J., Feb. 6.—Charles Steinhever stood at the brink of the falls, melodramatically gesturing his intent to commit suicide. As his swan song he sang "Die Wacht am Rhein."

Patrolman John Jorlett saw him, but could not urge the would-be suicide to leave his perilous position.

Jorlett scratched his head, and started a competitive concert. He sang, "It's a Long Way to Tipperary."

Steinhever got mad and came down to fight. He rests in jail, instead of the river.

"VAGS" WILL HAVE CHANCE TO LEARN SCIENTIFIC FARMING

CLEVELAND, O., Feb. 5.—A plan to give the recent "vag" a hand at scientific farming by putting the 2,000 acres of Warrensville Farm, Cleveland, great corrective institution, under scientific cultivation, is being worked out here today.

Not only the tramp who comes out of the police courts with an enforced vacation tagged on him but every prisoner would be given an opportunity to tend his little patch of onions, carrots, peas, corn or whatever the case might be.

The major portion of the farm will be cut up into plots of forty acres or so in order that experimentation can progress on a larger scale than is now customary on state experimentation farms. A complete and scientific record of the crop from "seed to shock" would be kept by experts.

The proposed project is being put into form on the assumption that western reserve university and Case School of Applied Science here may some day be merged into a municipal university, requiring a course in scientific agriculture.

Indoor Meet Today.

BOSTON, Feb. 6.—Athletes from all colleges and athletic associations of the east will compete here today in the B. A. A. indoor meet.

JEWISH COLONIES ATTACKED BY TURKS

CAIRO, Feb. 4.—Djemal Pasha, commander in chief of the Turkish army intended for an attack on the Suez canal, appears to have undertaken a systematic destruction of the entire work of Jewish colonization by the labor of 30 years and the expenditure of millions of capital.

Three weeks ago a proclamation was issued ordering the destruction under pain of death of all the colonist documents and papers relating to Jewish colonization. In many cases the land settled by Jews was handed over to Arabs and the wheat collected by a relief committee was confiscated. The Moslem peasantry is being armed with weapons discovered in Jewish hands.

The problem presented by the refugees who are pouring into Alexandria from Syrian ports threatens to assume formidable proportions. Seven thousand men, women and children, 95 per cent being Russian Jews, have been landed. The vast majority are absolutely destitute, having been robbed by the Turks of their little money and few paltry belongings.

The United States cruiser Tennessee has been fitted up as a troop ship for the accommodation of 1500 refugees and is plying regularly between Alexandria and Jaffa.

Relief Work at Stoke.
BERLIN, Feb. 4, via London.—Herbert C. Hoover, chairman of the American Belgian relief committee, has arrived in Berlin for an important conference with the German government. So important are these negotiations that it may be said that when they depend whether American relief measures in Poland can be continued or not.

With Mr. Hoover are Dr. Wyckliffe Ross and Ernest Bicknell, who have been investigating conditions in Belgium and eastern Poland on behalf of the Rockefeller foundation and the American Red Cross. These two Americans are in Berlin to consider the establishment of a relief organization for Poland. A condition to the undertaking is the pledge of the German and Austrian governments not to repudiate from the inhabitants any foodstuffs whatever for the use of the German and Austrian armies in Poland.

There is good reason to believe these pledges will be given, but if they are not the relief measures for Poland as at present planned will have to be abandoned.

Much Food Says German.
BERLIN, Feb. 3.—(By wireless to Sayville, N. Y.)—A statistician on the Berliner Tageblatt has added figures to show Germany is in little danger of being starved out in present war. As a result of the new German bread and flour regulation the compiler points out, less than 4,000,000 tons of rye and wheat will be required for bread up to the middle of August.

Last year's harvest, he says amounted to 14,500,000 tons, of which 1,500,000 tons were deducted for seed. This leaves 13,000,000 tons at the beginning of the war, not including the grain on hand from the harvest of 1914.

ITCHING BURNING SKIN TROUBLE

Scatched and It Would Burn and Hurt. Spread Larger and Larger. Used Cuticura Soap and Ointment. In Two Weeks Well.

Joppe, Ill.—"I was annoyed both day and night by itching and burning on my leg. The trouble broke out with a rash something like heat, was raw and began to get worse. It itched very badly. I would scratch until the blood would come and then Oh! how it would burn and hurt. It began to spread larger and larger. It would hurt when my clothing touched it."

"I tried several remedies, such as Salve, etc., without success. I had this trouble about ten months before I began to use Cuticura Soap and Ointment. First I would wash the affected parts with Cuticura Soap and then apply the Cuticura Ointment. In two months I was completely well and it has not returned." (Signed) Roscoe Taylor, July 9, 1914.

Cuticura Soap to cleanse and purify and Cuticura Ointment to soothe and heal are most effective toilet preparations.

Greatest of All Human Blessings

The most wonderful thing in the world is love expressed in the helpless infant.

And among those aids and comforts for expectant mothers is the well known "Mother's Friend."

This is an external application to enable the abdominal muscles to become more pliant, to expand naturally without undue pain from the strain upon cords and ligaments.

Applied as directed upon those muscles involved it soothes the fine network of nerves with which all the muscles are supplied. Thus a great share of the pains so much dreaded may be avoided and the period of expectancy passed in comfort.

There is no question but what such relief has a marked influence upon the general health of the mother.

In a little book sent by mail much useful information is given to inexperienced mothers. It tells how to use "Mother's Friend" and how to avoid ending breasts. It has been prepared in our laboratory for over forty years and is known favorably to most druggists everywhere. Get a bottle to-day and write for book to Bradfield Regulator Co., 839 Lamar Bldg., Atlanta, Ga. Be sure to ask for and see that you get "Mother's Friend."

St. Louis Hears Suffragist.

ST. LOUIS, Feb. 6.—Mrs. Pethwick Lawrence, well known for her suffrage work in London, is here today to address a mass meeting of St. Louis suffragists. Mrs. Rosina Schwinger, of Budapest will occupy the same stage, speaking on "War and Women."
