FOOTNOTES

(Continued from page two.)

Mr. and Mrs. George Peringer, accompanied by their daughter, Miss Muriel, returned this morning from Portland. Carl Peringer, who was operated upon recently in a Portland hospital, left the institution Sunday and will be home in a week or ten days.

The Ladies' Aid of the Presbyterian church will meet tomorrow afternoon at 2:30 at the home of Mrs. R. Raymond, 311 Water street. Mrs. Raymond will be assisted by Mrs. E. L. Power and Mrs. Watt. Matters of special importance are to come before the society and the officers are requesting a full attendance.

WHAT CAUSES INSANITY

The stress and strain, keener competition and congested housing conditions are greater factors in the increase of insanity than are the vice and dissipation of city life, according to a report by Dr. Joseph A. Hill on "The Insane in Institutions," just issued by the federal bureau.

In the six years from 1904 to 1910 covered by the report, there was an increase of 25 per cent in the number of insane persons reported. In the same period the total population increased only 12 per cent.

While the number of insane persons is increasing, there is an increase in the methods of caring for these unfortunate. On this subject the report says:

"At the same time, there has been a great improvement in the agencies for discovering cases of insanity and bringing them under institutional care. These institutions for the insane are becoming more generally accessible, not only by the increase in the number of such institutions, but also by the improvements in the means of transportation and communication."

Impeachment Proceeding to Begin. WASHINGTON, Feb. 9.—Impeachment proceedings against United States District Judge Alston Rayton of West Virginia was authorized by the house. The investigation will be conducted by a special house committee.

Bread Jumps in Gotham

NEW YORK, Feb. 9.—The price of 5 cent loaves of bread will go up to 6 cents in this city. This announcement was made by several of the large bakeries.

The present 10 cent loaves will be two ounces lighter. The high price of flour is given as the cause.

The average man shows up all right at the surface, but few can stand probing.

APPLICATION FOR GRAZING PERMITS

NOTICE is hereby given that all applications for permits to graze cattle, horses and sheep within the WENAH NATIONAL FOREST during the season of 1915 must be filed in my office at Walla Walla, Wash., on or before March 1, 1915. Full information in regard to the fees to be charged and blank forms to be used in making applications will be furnished upon request.

J. M. SCHMITZ, Supervisor.

INVITATION FOR PROPOSALS. TREASURY DEPARTMENT, SUPERVISOR'S OFFICE, WASHINGTON, D. C., February 1, 1915.—SEALED PROPOSALS will be opened in this office at 3 p. m., March 25, 1915, for the construction complete (including mechanical equipment—except elevator, lighting fixtures, and approaches) of the United States Post Office and Court House at Pendleton, Oregon. Three-story and basement, fireproof building; ground area, 5,500 square feet; stone, terra-cotta, and brick facing. Drawings and specifications may be obtained after February 11, 1915, from the Custodian of site at Pendleton, Oregon, or at this office, in the discretion of the Supervising Architect. O. WENDEROTH, Supervising Architect.

PERSONAL MENTION

Carl Newquist of Pilot Rock is at the Bowman.

R. H. Brown of Walla Walla is at the St. George.

Mark A. Startevant is in today from his home at Pilot Rock.

Frank Michael, Jr., of Pilot Rock, visited over night in the city.

Rev. O. F. Jones of Baker is a guest of the Hotel Pendleton today. E. C. Quirk, popular traveling salesman, made Pendleton a visit yesterday.

Mrs. A. R. Gilchrist of Weston was among the visitors in Pendleton yesterday.

Harold Dishon, of Lewiston, formerly of this city and Hermiston, visited over night in the city.

Claud Hampton is home from the University of Oregon visiting his parents during the short period between semesters.

FLYING FISH GAVE HIM IDEA FOR FLYING BOAT

NEW YORK, Feb. 9.—Albert S. Janin, cabinet maker, has quit his job.

It was a good job, and paid him five dollars a day, but he doesn't need the money now. For the next ten years of his life, at least, he can sit back in his easy chair and watch the money roll in.

The other day the board of examiners in chief of the patent office sent Janin a telegram. It informed him that he, and not Glen H. Curtiss, was the inventor of the hydro-aeroplane. The board's decision was unanimous, and now Janin will get royalties on every hydro-aeroplane that has been manufactured, is being built now, or will be built within the next decade.

Janin has been living at Rosebank, Staten Island, and he says he will continue to live there. "We will stay here where I was born and reared," he declared, but no more of these flats for me. The first thing will be to get a home with plenty of ground around it for the kids to play in.

"I've got the knack of inventing things in my blood," he said. "My great-grandfather, Antoine Janin, invented the percussion cap for cartridges, in France years ago. I got my idea for the hydro-aeroplane when I was a cadet on one of the Ward lines coastwise steamers.

Standing on the bridge I used to watch the flying fish and the seagulls, and I wondered why a flying boat could not be invented that would rise in an arc from the surface like a gull. My friends laughed at my first drawings, made in 1900, but one capitalist gave me \$3000 to buy a motor."

And sometimes Dame Nature writes a letter of credit upon a man's face.

To Investigate Freight Rates. WASHINGTON, Feb. 9.—An investigation of the proposed freight rate increase on all commodities on all railroads west of the Mississippi will open in Chicago, March 4, the interstate commerce commission announced. The hearing will continue until April 2.

A small boy's idea of heaven is a place where he can always have a second piece of pie.

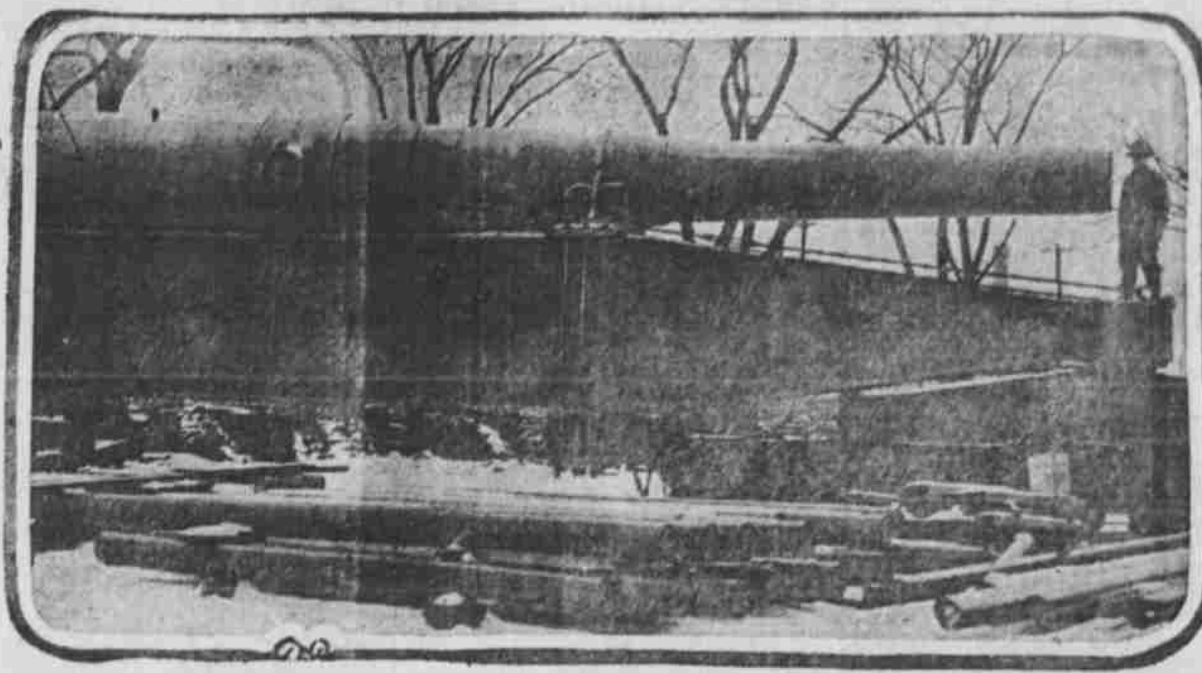

GOOD AMERICAN MAN PREFERRED BY MISS BURKE

Miss Patricia Burke, NEW YORK, Feb. 9.—"American men are best after all," said Miss Patricia Burke, of Los Angeles, Cal., shortly after her arrival here from an extended trip abroad, during which her engagement was twice reported.

once to Prince Ferdinand de Bourbon, a cousin of the King of Spain, and once to the Marquis de Fuensanta. "I'm not thinking of marriage at all," said Miss Burke, "but from what I have seen of titled men, I prefer a good American. They are the best men I know."

LARGEST GUN IN U. S. FOR CANAL

This picture was taken at the Watertown, Mass., arsenal, where the big gun was delivered to have a carriage built for it. The monster is to be added to the Panama Canal fortifications. It fires a shell nearly as large as those propelled from the German 42 centimeter guns, the German shell being only a quarter of an inch larger in diameter.

large as those propelled from the German 42 centimeter guns, the German shell being only a quarter of an inch larger in diameter.

NEWS OF FARM AND RANGE

war has just begun and he refuses to the biggest lots of wheat yet unsold in the local market should be in the vicinity of \$1.47 per bushel. No such price was offered yesterday the buyers talking \$1.45 as the price, though it is said a farmer could have secured more had he wished to sell.

It is all right for a man to know himself, but many a man, if wise, would not boast of the acquaintance.

Russians Drop Zeppelin. LONDON, Feb. 9.—It was officially announced in London that the Zeppelin dirigible balloon which dropped bombs on the Russian port of Libau, in the Baltic Sea, was destroyed and that the members of its crew were taken prisoners.

The admiralty made public the following official statement from the general staff at Petrograd concerning the incident:

"Monday morning a Zeppelin appeared above Libau and had time to drop nine bombs on the undefended part of the town. After being fired at by the forts the Zeppelin fell into the water. Small craft sent out destroyed the Zeppelin and took her crew prisoners."

Reports by way of Copenhagen from Russia say 30 persons were killed and 50 injured in a bombardment of Kielce, Poland recently by Austrian aircraft.

No matter how many cook books the bride owns, she keeps right on cooking things the way her mother taught her.

IDENTIFYING THE DEAD

When a German soldier falls in battle, he is identified by a little metal disc which he carries. This disc bears a number, and this number is telegraphed to Berlin. The soldier's name is determined. This system is as effective as everything else connected with the German army. The British use an aluminum disc that contains, besides marks of identification, the soldier's church affiliation. The Japanese system is similar, each soldier wearing three discs, one around his neck, another on his belt and the third in his boot. The Russians wear a numbered badge which, at the same time, serves as a charm being formally blessed by the priests.

The United States army uses a cloth tab woven into the shoulder strap of the tunic. The French use identification cards stitched inside the tunic. The French once made use of metal identification badges, but these proved an irresistible attraction to the savages whom the French faced in Africa, so the cards were substituted. Austria still uses a badge of gun metal in the form of a locket with parchment leaves inside. Of the nations at war, Turkey alone has no identification badges for her soldiers. Edhem Pasha once explained this omission as follows: "A dead man is of no use to the sultan; why, therefore, trouble with him?"

Filluster Starved by Demos. The senator insisted that the filibuster, which he admitted the republicans were now conducting, had been started by the democrats in their refusal to permit consideration of any other legislation than the shipping bill for several weeks. Now, he said, they were trying to put the measure through by brute force, but would be unable to accomplish their purpose.

Shortly before midnight, many senators who had been attending dinners and theater parties, returned to the chamber in evening dress to relieve those who had been on guard during the evening hours. The latter retired to the improvised bed chambers in committee rooms leaving an order to be called should an effort be made to force the vote.

TO FIGHT FOR BILL

(Continued from page one.) Scores of senators made preparations to spend the night in committee rooms adjacent to the senate chamber.

Renewal of Debate Forced. Republican and democratic insurgents had to renew the debate when Senator Fletcher offered a motion to recommit the bill with instructions to the committee to report it with amendments forthwith. When sought to get a vote on this motion an effort was made by the opposition to take a recess until today. This motion was lost by a vote of 49 to 47 with Senator Kenyon the only absentee. Senator La Follette voted against the recess, while Senators Clarke, Camden, Bankhead, Hardwick, Hitchcock, O'Gorman and Vandaman, the seven democrats revolting, stood solidly with the republican minority. Unable to recess or adjourn the opposition again took up the task of talking the bill to death.

Bill Not to Be Withdrawn. Democratic champions of the bill asserted emphatically that the bill would not be withdrawn and that the great appropriation bills would be left untouched should the opposition insist upon preventing a vote on the pending measure. The president intimated to White House callers during the day that there was no thought of yielding to enemies of proposed legislation.

Bill Not to Be Withdrawn. Democratic champions of the bill asserted emphatically that the bill would not be withdrawn and that the great appropriation bills would be left untouched should the opposition insist upon preventing a vote on the pending measure. The president intimated to White House callers during the day that there was no thought of yielding to enemies of proposed legislation.

PURE, RICH BLOOD MADE BY HOOD'S

Pure blood enables the stomach, liver and other digestive organs to do their work properly. Without it they are sluggish, there is loss of appetite, sometimes faintness, a deformed state of the intestines, and, in general, all the symptoms of dyspepsia.

Hood's Sarsaparilla makes pure blood, and this is why it is so very successful in the treatment of so many ailments. Get it today.

ORPHEUM Tuesday and Wednesday

"Called Back"

A 4 reel drama taken from the novel by Huge Conway, showing the futility of trying to avoid the penalty of sin, and how the sixth sense proved to be fate's avenger.
