MONDAY CHAT NO. 4

We are delighted with the praise given the first installment of our serial story, "Runaway June." So many have said to us, "We did not expect to see such an interesting and beautiful picture." Everything has been done by the makers to produce a perfect serial. Thrills and comedy, beautiful gowns and artistic settings are all found in this story. Tomorrow we have "The Call of the North," adapted from Stuart Edward White's story "The Conjuror's House," a tale of the Hudson Bay Country. This is a Lasky production and is rated by the critics as being among the best of the year 1914. George Beban, the famous character actor comes to us Friday in "The Italian." Mr. Baum of The People's Amusement Co., Portland, told me that this was one of the finest films they had ever shown. It is from the studio that produced "The Bargain." Next Sunday we will show "The Girl of the Golden West," with a Belasco all-star cast. This is the play that Blanche Bates starred in for two years in New York City. Kindly remember that "June" is in Pendleton on Thursday only. C. M. STYPE, Manager.

If there was a law agin killin' worry, I reckon VELVET would be indit'ed by the grand jury.

There's no need to tell a real pipe smoker that there's no werry killer like tobacco. But here's something for him to bear in mind. When he wants a tobacco that's mild, cool, long burning and bitless—let him say VELVET. The natural qualities of Kentucky's Burley de Luxe and aged-in-the-wood mellowness make VELVET the smoothest Smoking Tobacco.

FACE COVERED WITH PIMPLES ALL HER LIFE

STARCHER MAYOR OF UMATILLA IN COURT'S OPINION

ANTHONY IS HELD TO BE COUNCILMAN—JUDGE PHELPS GIVES DECISION.

E. E. Starcher is mayor of Umatilla if the decision and opinion handed down by Judge Phelps Saturday stands, and E. J. Anthony is likewise a councilman. They were the relators in quo warranto cases brought against H. N. Dryer, who was occupying the mayoralty chair and T. S. Tilson, who was sitting as councilman. Appeal from the decision will probably be made to the supreme court. Both Starcher and Anthony were elected to office last December but failed to qualify for office within 20 days, as specified in the charter. Thereupon the council declared vacancies to exist and named Dryer and Tilson to fill them. In bringing their proceedings, Starcher and Anthony contended that there is another section of the charter which gave them until the second Tuesday in January, the date of the commencement of the new terms, to qualify. In his opinion Judge Phelps sums up as follows: "As a final enactment the intention was to say to the elective officer, 'You take the oath as required; you should file your bond as provided. But you must not only take your oath but you must do all before the commencement of your term of office, or upon failure to do so you will be deemed to have declined, and as a penalty your office shall be considered vacant.' Under this view of the case the relator did not forfeit his right to the office by reason of his failure to take the oath prior to the time he did take it; the sections referred to cannot be considered mandatory so as to cause a vacancy and thereby the penalty."

Home Baking Reduces Cost of Living. THE U. S. Dept. of Agriculture in Experiment Station Bulletin No. 142 says that ten cents worth of wheat supplies almost three times as much protein and ten times as much energy as round steak, and with some other cuts the difference is even greater. If then, one really desires to reduce her weekly meat and grocery bills, she need only make more use of her oven. Who ever heard man, woman or child complain that good home-made biscuits, muffins, cakes and cookies appeared on the table too often? Instead the tendency is "to make a meal of them" and the variety is so great that something you bake yourself could well be the chief feature of every meal.

Home Baking is Simplified by the Use of K C Baking Powder. With K C, you can make things moist and rich yet have them light and feathery, wholesome and digestible. Biscuits may be mixed the night before and baked fresh for breakfast. Muffins need not be dry and heavy. You can make a cake so light that you can hardly get it out of the pan whole, yet it will not fall. K C is not like the old fashioned baking powders. It is double acting and continues to give off leavening gas until the dough is cooked through. K C is sold at a fair price—a large can for 25 cents. This would be no object if strength and purity were sacrificed, but every can is fully guaranteed under State and National Pure Food laws and to please. We take all the chances. Your money back if you do not get better results with K C than any other baking powder you ever used. Include a can in your next grocery order, try some of the new recipes that appear in this paper from time to time. Then you will have gone far toward solving this vexing "Cost of Living" problem.
