INDUSTRIES BUILDING AT FAIR IS FULL OF WONDERFUL EXHIBITS

MANY ARTICLES ARE MANUFACTURED THERE FOR BENEFIT OF VISITORS.

Beautiful Displays Are Made of Jewelry, Silverware, Cutlery and Other Handsome Articles—Foreign Countries Have Exhibits There Which Add to Attractiveness.

(By W. E. Meacham.)

SAN FRANCISCO, Cal., April 13.—The varied industries building is full of wonderful and interesting exhibits. Many articles are manufactured there. For instance you can see them making neckties, weaving sofa pillows in various designs, making the Oregon Woolen Mills blankets, manufacturing envelopes, making shoes towels.

Beautiful displays are made of jewelry, silverware, cutlery, porcelain.

Several of the foreign countries have fine exhibits here, including Denmark, which has a beautiful display of Copenhagen china.

Argentina with a fine display of leather and cloth goods. The Balkan states with a large display of fancy rugs and tapestries and Germany and Spain are installing their exhibits which will be comprehensive ones. The display of domestic arts and crafts is a splendid one and attracts much attention. Much time can be spent profitably in this building.

The mines building contains a large and varied exhibit. You will see here the mineral resources of the different states and the products of various manufacturing plants.

Missouri has a large zinc and lead display; Montana, copper ores and finished article; Idaho has display of copper, lead and gold ores and miniature mountain range in background; Utah has a large pyramid of coal; Alaska has display of various ores and relief map of the country; New York has interesting display of graphite, carbonadium and products, salt and oil; Nevada has relief map of the state and display of different ores and some old timers taken from the Comstock mine, that have been underground for years and compressed in the course of time into strange shapes.

The California exhibit is not installed yet and the Oregon exhibit is on its way. Oregon has a small space reserved compared to the rest of the states, having only one thousand square feet, however we expect the quality of our display to offset this.

Tiffany & Co. has a beautiful display of amethysts, agates and other stones. Of the foreign countries, Argentina, Japan and China have large and comprehensive exhibits of their mineral resources. The United States Steel Co. has a large and interesting display of the various kinds of mining machinery made by them.

The Standard and other oil companies have large displays of products.

The U. S. government has a display that is at once interesting and instructive. It has a model postoffice in full working order and handles all the mail for the exposition grounds.

The mint is in operation, but makes souvenir coins and currency instead of the real thing.

An assay office and sampling works is also in full working order. One of the most interesting things in the building however is the model mine operated by the government.

BUTTE, Mont., April 13.—Fearing he would see someone he liked better while he was in Alaska, a young woman forced Charles Hyland to enter a contract to marry March 1, 1915, providing he matches her \$5,000 with an equal sum. The latter provision was Hyland's who did not want to accept any money from his bride-to-be, and was going to "make his" pile in Alaska. He gave her a plain gold wedding ring to be worn for the first time March 1, 1915, if he is successful in his chase for gold. The authorities would not reveal the girl's name.

MEN ARE DISCHARGED FOR JOINING UNIONS

CHICAGO, April 13.—President Carlton of the Western Union Telegraph company told the federal relations commission it was becoming the general policy of the corporation to discharge men for belonging to unions. He declared the Western Union employed 40,000 workers. The door, Carlton asserted, was always open for employees with grievances and in about 60 per cent of complaint cases a decision was rendered in favor of the employe. Cross examining the witness, Chairman Walsh asked: "Did your company in 1908 demand that the United Press terminate its agreement with unions under a threat of having its leased wires taken away from it?" "I can't say about that," replied the witness. "That was before I became president."

Baby of Future is Considered

Much thought has been given in late years to the subject of maternity. In the cities there are maternity hospitals equipped with modern methods. But most women prefer their own homes and in the towns and villages must prefer them. And since this is true we know from the great many splendid letters written on the subject that our "Mother's Friend" is a great help to expectant mothers. They write of the wonderful relief, how it seemed to allow the muscles to expand without undue strain and what a splendid influence it was on the nervous system. Such helps as "Mother's Friend" and the broader knowledge of them should have a helpful influence upon babies of the future.

In a little book for such women these points are more thoroughly brought out and a copy will be mailed to anyone who will send us their name and address.

"Mother's Friend" is sold in all drug stores and highly recommended for its timely usefulness, its safety and the real help it affords. Ask for it at the store and write us for the book. Bradford Regulator Co., 211 Lamar Bldg., Atlanta, Ga.

Not every morning in the year maybe, but every morning when the ostriches are laying well. As the photograph shows, an ostrich egg is about the size of a large orange, and is pretty well stuffed with meat. Two of them make "some breakfast." Mr. Sands owns a herd of ostriches.

WHO CAN DOUBT SWORN TESTIMONY OF HONEST CITIZENS?

Some time ago I began the use of your Swamp-Root with the most remarkable results. For years I was almost a wreck and was a great sufferer. I was so bad at times I would faint away and had sinking spells. Finally a new doctor was called in and he said that I had kidney trouble and gave me medicine, of which I took several bottles. I obtained some relief from this but I was getting weaker all the time; I could not sleep and suffered so much pain that my husband and children had to lift me in and out of bed. After this time two friends sent me word to try Swamp-Root, which I did, and I am glad to state that the first dose gave me great relief. After taking the third dose I was helped into bed and slept half of the night. I took several bottles of Swamp-Root and I feel that I owe my life to this wonderful remedy. The two family doctors said that I could not live three months. I would have to be helped in and out of bed ten to twenty times every night. After taking Dr. Kilmer's Swamp-Root for two days I was entirely free from getting up and could sleep soundly.

MRS. D. E. HILEMAN, Tunnelton, W. Va. Personally appeared before me, this 11th of September, 1909, Mrs. D. E. Hileman, who subscribed the above statement and made oath that the same is true in substance and in fact. JOSEPH A. MILLER, Notary Public.

Here is Good News for Stomach Victims

Some very remarkable results are being obtained by treating stomach, liver and intestinal troubles with pure vegetable oils, which exert a cleansing, soothing and purifying action upon the lower bowels, removing the obstructions of poisonous fecal matter and gases and preventing their absorption by the blood. This done, the food is allowed free passage from the stomach, fermentation ceases and stomach troubles disappear.

George H. Mayr, for twenty years a leading Chicago druggist, cured himself and many of his friends of stomach liver and intestinal troubles of years standing by this treatment, and so successful was the remedy he devised that it has since been placed in the hands of druggists all over the country, who have sold thousands of bottles.

Though absolutely harmless, the effect of the medicine is sufficient to convince any one of its remarkable effectiveness, and within 24 hours the sufferer feels like a new person. Mayr's Wonderful Remedy is sold by leading druggists everywhere with the positive understanding that your money will be refunded without question or quibble if ONE bottle fails to give you absolute satisfaction.
