Newsy Notes of Pendleton

Student Injures Finger.

While working in the manual training department of the high school yesterday, Eugene Hampton cut his finger rather badly. The cut severed the nail and reached the bone.

Young Man Cuts Arm.

Irvin Mann, son of Mr. and Mrs. L. L. Mann, this morning suffered a painful cut in his right forearm when he accidentally plunged it through a glass door at the high school. He came down town at once and had the wound sewed up.

Verdict for Defendant.

The jury in the case of J. J. Gummi vs. Walter S. Ferguson, Jessie M. Ferguson, William A. Ferguson and Florence Ferguson, involving several notes alleged to have been lost, returned a verdict last evening for the defendant.

Gave Whiskey to Indian.

This morning in police court Harry Hart, a more or less frequent offender, was given his choice of a \$40 fine or 20 days in jail when he pleaded guilty to giving liquor to Joe Hays, an Indian. Said Hart is not the notorious dog catcher, much to the regret of some of the dog owners of the city.

Church Committee to Meet.

The "Come to Church Sunday" publishing committee is called to meet at the First Methodist church Friday evening, April 16 at 7:30 o'clock. The following comprise the committee: A. J. Owen, Gilbert Mowery, J. B. Coleman, Mary C. Harry, E. L. Powers, Bert Parlette, E. C. Funk and Si Reetz.

Laboratory Equipment Obtained.

The science department of the high school has obtained a static machine from Dr. Boyden. This machine has attachments which make it useful in a medical way. An electric shower may be secured or X-ray photos may be taken. A series of experiments will be undertaken by the science classes on the generation of electricity and its application to the human body for medicinal purposes.

Church to Have Nursery.

Hereafter on Sunday mornings a nursery and kindergarten will be maintained in the basement of the Presbyterian church during services so that mothers who have young children, may attend church. Members of the Sunday school classes of Mrs. Frank Boyden and Mrs. E. L. Power will take charge of the babies during the services.

Holiday on Reservation.

Tomorrow will be a legal holiday on the Umatilla reservation in commemoration of the fiftieth anniversary of the death of Abraham Lincoln, the "great emancipator." Supt. E. L. Swartzlander this morning received a telegram from the U. S. bureau of Indian affairs in Washington appraising him of the observance of the day. Accordingly the agency office and school will be closed.

Funeral Arrangements Changed.

Instead of being sent to Colfax for burial as first planned, the body of John C. Monahan, one of the Hotel Pendleton proprietors, who died Monday evening, will be taken tomorrow to Bellingham, Wash., where it will be held until the arrival of the only son of the deceased, John Monahan, Jr., from Alaska, before being interred. Tom Monahan, brother of the deceased, arrived last evening and made the change in the arrangements.

Round-up Buffalo at Large.

"Letta," the Round-up buffalo cow that was left a widow recently when her mate "Buck" succumbed to the ravages of distemper, is wandering about somewhere in the south end of the county as free for the time being as her shaggy ancestors. She escaped night before last from Round-up Park when someone left the gate open. Yesterday she was seen on McKay creek and later in the Combs canyon section but this morning T. D. Taylor and S. R. Thompson, president and livestock director respectively of the Round-up, made a futile search for her. However they expect to run across her trail soon.

MILLIONAIRES WILL ATTEND HORSE SHOW

OAKLAND, Cal., April 14.—A number of eastern millionaires, lovers of fine horseflesh, have asked for information concerning the big horse show that is to be held in Oakland's new \$1,000,000 municipal auditorium in August, just before the big stadium meet at the Panama-Pacific exposition. They have in most cases already stated their willingness to participate in the Oakland show. The Oakland Stadium Club, which is behind the movement to give the horse another chance before the automobile relegation him to the scrap heap, has appointed committees to make arrangements for the show. Society leaders, sportsmen and breeders are strongly back of it, and it is more than probable that visitors to Oakland will have the opportunity to see the pick of the entire country in riding and driving horses and polo ponies.

The holding of the horse show is in line with the plans of the Oakland Stadium association to establish a permanent stadium near the big auditorium. A petition signed by nearly 10,000 residents in favor of this plan already is before the city council.

Berlin Assumes Responsibility.

WASHINGTON, April 14.—Unofficial dispatches received by the state department indicated that the Berlin foreign office will assume responsibility for Ambassador Von Bernstorff's note to the United States accusing this country of violating the spirit of neutrality by permitting the shipment of munitions of war to the allies. No official report has been received yet from American Ambassador Gerard in Berlin. Members of the cabinet declare the president's reply will show the note was an "unfriendly utterance" although those words will not be used by the president.

Apparently a man never gets to be so old that he ceases to be surprised when women's fashions change.

GENERAL FUNSTON WILL ASK THAT FIGHTING STOP

BULLETS ARE FALLING TOO FREQUENTLY ON AMERICAN TERRITORY.

WASHINGTON, April 14.—General Funston wired the war department today he is going from San Houston to Brownsville to look into the situation there which is said to be very acute because of the Mexican battle raging across the border.

Rifle bullets fell near the Brownsville pumping station, endangering the lives of many Americans. It is believed Funston intends to demand that hostilities cease. The fighting is so desperate that it is not believed likely the belligerents will comply.

OAKLAND WILL SOON BE A PORT OF CALL

OAKLAND, Cal., April 14.—That the opening of the Panama canal soon will mean an enormous increase in ocean freights is definitely shown in announcements by steamship companies that in future Oakland will be made a port of call for their vessels.

The first is that of three big steamer lines controlled by Scandinavian capital, which will operate a fleet of vessels from Copenhagen, Christiania and Goteberg, Sweden, to the Pacific coast. The information came from Harold Gybed, of Christiania, now in California collecting commercial data. Gybed represents the firm of Storm & Bull, Limited, big manufacturers and ship owners, and he said the first of the steamers would start from Christiania in three weeks. All will dock at Oakland on their way to the northern Pacific coast ports.

A second announcement that means much to California came by telegraph to an Oakland firm from Chicago. It stated that officers of the Chicago, St. Louis & Gulf Transportation company will early in May begin the shipment of freight from Chicago to Oakland by way of the Gulf of Mexico and the Panama canal.

The eastern freight is to be sent from Chicago by rail to La Salle, Ill., and there placed on barges, which will carry it to the mouth of the Mississippi river, where it will be loaded into ocean steamships. These vessels, after making calls at all important points, steam northward and discharge their cargoes at Oakland's municipal wharves.

Will any war-reformed European nation deliberately go back to hard drinking when the fighting is over?

FRAUDULENT DETECTIVE AGENCY PUT UNDER BAN

POSTOFFICE AUTHORITIES DESCEND ON PINKERTON AND COMPANY.

Pinkerton and Company, a detective company whose collection agents are said to have separated several Pendleton business men from some good money, appear to have been put out of business by an order issued by Postmaster General Burleson, a copy of which was received at the local postoffice as well as at all other post-offices in the country. This company is not the original Pinkerton company, which is known as the National Detective Agency, but is said to have adopted its name to confuse the public. By a clever joker in its contract with business men as well as by misrepresentation, the company is said to have been reaping \$90,000 a month at the time the government stepped in and it is claimed that it had secured \$1,000,000 through its fake scheme.

The following is a copy of the order issued by the postmaster general: "It having been made to appear to the postmaster general that Pinkerton & Co., United States Detective Agency, and its officers and agents

If you are economical, and are looking for high grade, crisp new merchandise you will find it only at this big busy store at prices to your liking. When it comes to value giving every day in the year we have no competition; we are knockers of high prices.

WE have the most complete and up-to-date grinding plant in Eastern Oregon, and can duplicate your broken lens in a few minutes. W. H. HILL, Optician with Wm. Hanscom, THE Jeweler

THROUGH EYE STRAIN Thousands are wasting nerve energy equal to the amount consumed by hard labor, which results in headache, dizziness, pains in or about the eye or in the nape of the neck, twitching or inflamed eyelids, cross eyes, squinting, etc. Such sufferers often cannot understand why they should need glasses so long as they see well. Those who see best are most apt to suffer from strain—because if their optical defect is so great that the muscles of the eyes cannot overcome it, they may be permanently weakened, and the case becomes one of poor sight. The ordinary test by letters is useful for determining sharpness of vision, but is useless as a test for eye-strain, the full extent of which can only be determined by a skilled refractionist. Proper fitting glasses are the only safe, sane and logical means of relieving eyestrain. Dale Rothwell Exclusive Optician American Nat'l Bank Bldg. I grind lenses and can duplicate broken ones on short notice.

Why Should Your Glasses Be Changed? The eye is practically developed at 7 years. Under-development in length means far sight, overdevelopment means near sight; one diameter of the cornea longer than another means astigmatism. The attempt to overcome these errors by the accommodation or focusing power, is eye strain, this power changes with age, the errors are always the same and must be corrected with glasses. Therefore, the only reason why glasses should be changed is a commercial one. Opticians by giving away a smattering of medical knowledge as a blind are enabled to sell glasses at an enormous profit. D. N. REBER, M. D. Eye, Ear, Nose and Throat Specialist. Schmidt Building, Pendleton

Pastime 'From Headquarters' EARL WILLIAMS and ANITA STEWART in Vitagraph Broadway Star Feature Today Coming Thursday Pathe Presents 'The Boundary Rider' A 5 Part Production of The Northland.

Two Wonderful Pictures "The Castles in Society Dances" "The Jungle" The Castles, the most famous exponents of society dancing, are shown in their own restaurant on Broadway, New York City, in society's latest fads. A very beautiful film. "The Jungle" is adopted from Upton Sinclair's famous book and is an expose of the methods of the large meat packing plants. Strong in realism.
