

THAT THE PEOPLE MAY KNOW

Owing to the fact that I am permanently located in Pendleton, and not being acquainted in Umatilla County, I take this means of introducing my methods of practicing dentistry.

When a person goes to a dentist, they expect, and have a right to expect 100% value of money invested. This can only be done by the most up-to-date and sanitary methods of Dentistry. To accomplish this the patient must experience no pain.

In dentistry the durability depends upon the skill, experience and judgement of the operator.

The dread and fear of the dental chair as experienced in the past, and at present in some of the so-called up-to-date dental offices, are not experienced in our office.

We do not use cocaine or arsenic as these drugs are deadly poison and belong to the ages past.

You know what it means to have a dentist put arsenic in your tooth to kill the nerve. It means you go home to suffer with the tooth-ache, to come back in three or four days, and have him probe around and tell you it is not dead, "just as if you did not know it."

Ask the people I have worked for and they will tell you I have a painless method of removing nerves in a few minutes, and preparing cavities in the most sensitive teeth without pain.

The price of good Dentistry is soon forgotten, but cheap Dentistry is never forgotten

STOP CATARRH! OPEN NOSTRILS AND HEAD

Says Cream Applied in Nostrils Relieves Head-Colds at Once.

If your nostrils are clogged and your head is stuffed and you can't breathe freely because of a cold or catarrh, just get a small bottle of Ely's Cream Balm at any drug store. Apply a little of this fragrant, antiseptic cream into your nostrils and let it penetrate through every air passage of your head, soothing and healing the inflamed, swollen mucous membrane and you get instant relief. Ah! how good it feels. Your nostrils are open, your head is clear, no more hawking, snuffling, blowing; no more headache, dryness or struggling for breath. Ely's Cream Balm is just what sufferers from head colds and catarrh need. It's a delight.

WEST LOSES POINT WHEN HE IS DENIED A DIRECTED VERDICT

JURY MUST DECIDE CAUSE FOR WHICH GOODS MAY BE TAKEN SAYS COURT.

Judge Anderson at Trial at Baker Declares Overthrow of Civil Government is Not Idea in Grant of Powers—Former Governor West May Defend Himself.

BAKER, Ore., April 17.—Ex-Governor West lost an important point in the damage suit brought against him by William Wiegand, Copperfield saloonkeeper, who is suing the ex-governor for damages alleged to have been caused when Governor West confiscated his liquor and saloon fixtures when martial law was declared following Miss Fern Hobbs' visit to Copperfield in January, 1914.

Circuit Judge Anderson denied the motion of Mr. West's attorneys for a directed verdict.

Mr. West is expected to make an argument before the jury today and it is now believed that the case will go to the jury soon after he finishes. Judge Anderson in his ruling said, in part:

"The principle of this case involves a most vital principle in our government, the preservation of our rights as individuals. The same principles were involved in the Wiegand vs. West injunction proceedings, at the time the court acted on the complaint of William Wiegand, that the defendant had threatened to invade Copperfield and run over property rights by the force of arms. At that time a temporary injunction was granted and an order issued requesting the defendant to appear and show cause why the injunction should not be made permanent. It is needless to review what transpired in that case.

Jury Warned Against Clamor.
"It is sufficient to say that the defendant filed an answer, a demurrer was filed to that answer. A hearing on the demurrer was concluded by a decree overruling the demurrer in this court and the case went to the supreme court.

"This is the type of case that in the past has resulted from overthrow of law and order. Sometimes judges waver at the clamor and pressure brought to bear by the public, and sometimes jurors are prevailed on to swerve from the duty which they would perform if they acted coolly and deliberately. We must be guided by the constitution in this matter.

"It may be argued that the property in question, liquor, is worse than useless, but we must treat the case as if any other form of property were involved, as long as the United States government recognizes it as such.

Military Power Denied.
"In the previous case of this kind in this court I examined many of the cases which counsel for both plaintiff and defendant have cited as precedent, and at first it might appear that there is a hopeless conflict. There is a difference of opinion as to the length which an executive may go in enforcing the law. The governor is invested with the power of discretion in declaring military law, but to overthrow the civil government is not contemplated by the law.

"The court must uphold the law and interpret it and the jury must decide as to facts. The question in this trial is the taking and removing of property.

Judicial Authority Denied.
"The opinion of this court is that the executive is not vested with judicial power to declare cause for which goods may be taken. The jury must say if these causes exist. For these reasons I must deny the motion of the defendant's attorney for a directed verdict."

To eliminate useless arguing before the jury, Judge Anderson gave his opinion as to the element of conversion entering into the case, deciding that the defendant had taken the property of the plaintiff and exer-

cised dominion over it. The fact that a tender of the property had been made, he said, might be used to mitigate damages.

O. A. C. TEAM WINS.

(Continued from page 3.)

the day, poled out a safe one to left center, scoring Hayes. A sacrifice moved the runners along but Sieberts was caught at the plate on Goble's infield ball.

The Bucks jumped into the lead in their half by scoring triplets. Siebert opened with a corking single and stole second standing up with the ball in the pitcher's hands. Ernie Knight sacrificed him along and Peters went out. McGarrick drew a walk and Gordon scored both run-

ners with a triple to right and himself scored a moment later by dashing home on a ball that escaped the catcher's mit.

O. A. C. tied things up in the first of the third, a couple of walks, a couple of bad throws to bases by Peterson and a hissing drive over third by Sieberts, who looked about as sweet as any one on the college team, doing the work. The Bucks came right back in their half and put over a score, Peterson doubling, taking third on Varian's sacrifice and scoring on a passed ball.

The fifth saw the visitors chase over three scores when Fryer poled ball in the pitcher's hands. Ernie Knight sacrificed him along and a hit. Along came the seventh, walk and Gordon scored both run-

Peterson got life when Goble mused up his grounder. Varian walked, filling the bags. Parlett was caught at the plate on Siebert's ground ball to pitcher, leaving the bases still loaded and two down. Ernie Knight, who had falled once before to deliver in a pinch, smote the ball for a single over second and two runs crossed the plate before the running was stopped, tying up the game.

At this point Shortstop Morgan saved the game for his team when he robbed Stranahan of a hit over second by a sensational one-handed stop and perfect throw to first while off his balance. It was as pretty a play as has been seen here for a long time. Had the hit gone through

McCLINTOCK & SIMPSON

Pendleton's New Farm Machinery House, are agents for

The Famous JOHN DEERE Implements

Make Your Wife's Work Easier

Call and see our Washing Machine with Swinging Wringer. Equipped with Electric Motor or for Power Belt.

Their electric motors develop more power than is required for the heaviest washing. The agitator adjusts itself to the size of the wash. The swinging wringer is easily moved into any position—over the rinse water, basket or stationary tub. One operating handle starts, stops and reverses either washer or wringer. Machines guaranteed for three years and if you mean business we will give you a 30 days trial free. We also have small gasoline engines that will run these washers—in fact gasoline engines of every wanted horse power and for every purpose.

These washing machines will soon pay for themselves in saving time, labor and clothes and will make your wife's work far easier. We have these machines set up. Call and see demonstration.

WE ARE HERE TO STAY

It is our aim to carry everything necessary to Umatilla county farmers in the way of dependable farm machinery. We want to become established and enjoy your confidence. We intend to accomplish this by giving all a square deal all of the time. Your patronage is solicited and in return we guarantee you satisfaction.
