**PRETTY COSTUMES ARE FEATURE OF OPPERETTA**

Pretty costumes and good dancing are the principal features of merit about "A Modern Eve" shown here at the Oregon last evening. It is credited as the latest Berlin operetta but the only German touch about the performance consisted in one joke about a frankfurter.

Parisian in name, style and morality, the operetta is woven around Madame Niniche Cascadier, her two daughters and her husband. Madame Cascadier is a strong character and rules her husband with such firmness she finally refuses to allow him to receive company in the kitchen. Her daughters are trained in the way of their mother but eventually fall victims to cupid's darts.

Interesting features in the performance are rival parties given in the garden of the Pontignards, an affair being a stage and the other a suffragette festival, and the divorce scene which precedes the finale.

Following are some of the musical numbers in the operetta: "Hello, Sweetheart," "Goodbye, Everybody," "Everyday Is Christmas When You Are Married," "Excuse Me, Certainly" and "Rita, My Marguerita."

**Determined Track Walker.**  
Reports from Pilot Rock Junction tell of a peculiar acting man who makes a daily habit of walking the track in that vicinity. The man is always bareheaded and usually bare-footed. He will walk the rails and refuses to give up to the track for anything short of a train. If a section gang chances to be in his way he will order them off the track and one time disputed for the track with a hand car. People living near the Junction fear the man is demented.

**SUBMARINE F-4 TOWED MANY YARDS INSHORE**

HONOLULU, April 20.—The United States submarine F-4, submerged on the ocean floor outside the harbor since March 25, was raised 12 feet and towed inshore until it rested on the upward-inclining bottom.

The salvaging crew worked all night accomplishing this and postponed further work until the lifting tackle was strengthened.

The satisfactory work done thus far in towing the submarine, it is believed, will make unnecessary the pontoon method of raising the craft.

Diver Doughman, who became entangled in the lifting cables Saturday and was rescued by Chief Gunner's Mate Crilly at a depth of 229 feet after four hours' work, is recovering slowly from the effects of his experience.

**Berlin Replies to Dutch.**

"Germany announces, however," the correspondent adds, "that she has decided to submit the question of justification to a prize court as soon as possible. Assurances are given in the German reply that there is no question of any change in the political attitude of Germany toward Holland."

WASHINGTON, April 20.—President Wilson and Secretary Bryan had under consideration a draft of a reply to be made to the memorandum of Count von Bernstorff, the German ambassador, relative to the question of preventing shipments of arms to the allies unless foodstuffs were permitted to reach Germany's civilian population.

**Why Should Your Glasses Be Changed?**

The eye is practically developed at 7 years. Under-development in length means far sight, overdevelopment means near sight; one diameter of the cornea longer than another means astigmatism.

The attempt to overcome these errors by the accommodation or focusing power, is eye strain, this power changes with age, the errors are always the same and must be corrected with glasses.

Therefore, the only reason why glasses should be changed is a commercial one. Opticians by giving away a smattering of medical knowledge as a blind are enabled to sell glasses at an enormous profit.

In a Tale of Our Northwest  
**"JACK CHANTY"**

A virile American tale of the big outdoors, of red blooded men, of a woman's love and a man's hate enacted. In the heart of the forest and on the rugged sides of the Sierra Madre.

Malcolm Piers, a son of an old and aristocratic family, after losing his wealth as a stock broker turns over valuable securities belonging to his clients to Garrod, his secretary, and sets out alone for the land of forests and gold in the Northwest. The secretary, false to his trust, gambles with these securities left in his charge, loses them, and allows his departed employer to be accused of being an absconder.

Piers arrives, his only possessions being a merry heart, a banjo and the determination to carve a new fortune out of the wild.

Dropping his old name, he is dubbed Jack Chanty, by his new associates and because of his good fellowship, wit and honesty is looked up to by miner, woodsmen and half-breed.

Then he meets the girl of the wilderness. Later the girl from civilization comes into his life. Which does he choose at last?
