Class Meet This P. M.

All the regular track and field events will be "pulled" off with the possible exception of the javelin throw. The meet starts about 4 o'clock.

Buffalo Vernon Pays a Fine.
"I can ride a bucking bronco but darned if I can stick a bucking automobile," was the remark made by Buffalo Vernon, noted bull-dogger of steers and buckaroo, shortly after Chief Kearney took him into custody last evening on a charge of violating the speed limit. This morning he entered a plea of guilty and paid a fine of \$50. Vernon was the driver of the car of Dr. Barbour of Stanfield, Hermiston and Pilot Rock which made a wild and wobbly run up East Court street yesterday afternoon and turned a complete somersault near the Catholic church, spilling the occupants on the street. Dr. Barbour is still in St. Anthony's hospital but will be able to leave tomorrow, the physicians report. Vernon, with "true cowboy luck, escaped with no more scratches than he usually receives in bulldogging a long-horned steer. He went out in the country with some friends while G. W. and Ernest Knight were taking the injured man to the hospital but returned later and was arrested. He had apparently fortified his courage with strong spirits before he had given the dentist an exhibition of rough riding in a motor car. The auto, a Ford, was taken to the garage for treatment and was still bucking when it was taken into the shop.

SOCK PROVES POOR SAVINGS BANK FOR PENNSYLVANIA MAN
READING, Pa., April 21.—Frank Schnader's dainty hospitality proved a poor depository for his \$300 roll. When he drove out of his automobile garage here he had the money in bills tucked away securely, as he thought, but when he returned only a few bills remained. Schnader has offered a reward for the missing currency, which he thinks worked up between sock and calf and blew away, bill by bill. A small army of boys is scurrying among the fields adjacent to the route he took in hope of finding some of the money.

Passage of Fleet Delayed.
WASHINGTON, April 21.—More cold water was thrown on the plans for the Atlantic fleet to pass through the Panama canal on its voyage to San Francisco, Puget Sound and Hawaii when it was announced through the war department that the Panama authorities could give no guarantee that there would be no future slides in the canal. This follows reports that the canal is not deep enough in some places at present to permit a dreadnaught to pass as a result of which definite information was asked from Governor Goethals. The announcement made it appear extremely likely that the proposed voyage of the fleet might be abandoned. As a stoppage of slides cannot be assured, it was stated, part of the vessels might pass through the canal, while the remaining vessels might then be cut off by a slide.

Austrians Demand Bread.
VERONA, via Paris, April 20.—Travelers from the interior of Austria bring reports of increasing unrest resulting from the insufficiency of the bread allowance which, although it has been increased, still is considered inadequate. Demonstrations against the war are said to be increasing in number and violence, especially in Vienna and at points in Bohemia, where mobs are reported to have sacked storehouses in which were stocks of provisions for the army.

THE TORIC LENS FRAUD

Opticians and some oculists not content with a reasonable price for an ordinary lens have fostered upon the public a deep curved glass. They are not only of no benefit but really harmful in the stronger curves on account of the prismatic effect and consequent color change.

The statement that you see straight through the glass in looking down, up, or all around is misleading, you look through the center of any lens, the frame is tilted for reading, the eyes are closed when looking up, and looking all around is intolerable and a violation of police regulations, so—"What's the Use?"
