WEALTHY PORTLAND REALTY DEALER PLUNGES TO DEATH

PORTLAND, Ore., April 24.—Scott Brooke, of the firm of Brooke & Kiernan, one of the foremost realty dealers, capitalists and clubmen of Portland, walked or jumped to death from the second story window at his home, 712 Flanders street last night at 5:20 o'clock. He died at Good Samaritan hospital last night shortly after 7 o'clock.

The fatal plunge was the culmination of a nervous breakdown which began less than a week ago and which it is said, was attributed to business worries. He was worth between \$300,000 and \$1,000,000, much of which was in real estate.

Nations Bid for Warship. NEW YORK, April 25.—The Argentine government recently has refused offers from European countries for the purchase of the super-dreadnought Moreno, which was built at Camden, N. J., and which was ready to sail for the South American republic.

One offer, it is said, came from Greece, the bid being about \$17,500,000. It is understood that the Italian government also tried to buy the battleship. The Moreno, one of the largest warships afloat was built at a cost of \$12,000,000, but a possible profit of \$5,500,000 failed to influence Argentina.

Fishing in City Limits.

In the windows of the Taylor Hardware Co., last evening was pretty evidence that fishermen do not have to go out of the city limits to get a mess of trout. A plate of speckled beauties of all sizes was exhibited, Ira Brown making the catch in the Umatilla river within and just without the city limits.

Wants Round-up Dates.

Joe Eli this morning received a letter from A. G. Long, prominent business man of Portland, asking for the Round-up dates, stating that he has invited some eastern friends to attend the big show with him this year. Mr. Long has been a spectator at the last two Round-ups and is an enthusiastic booster for it.

Raising Money for Team.

The high school boys are making the rounds of the business houses for the purpose of obtaining money to send the track team to La Grande for the eastern Oregon track and field meet to be held there May the eighth. They ask the sum of one dollar from each person. The response is immediate and they hope to soon have enough to send a large and well balanced team to La Grande.

Twilight Leaguers Practice.

Last evening about 20 members of the Presbyterian congregation assembled at Round-up Park for the initial practice preliminary to the beginning of the Twilight league season. Big Light Globe Stolen.

W. N. Matlock of the Pendleton Rubber & Supply Co. is somewhat "peevish" today over the theft of the electric light globe from the ornamental light post in front of his business last night. It only cost four dollars but the wrathful owner declares he will give \$100 to learn the thief's name and \$250 to prosecute him.

McMinnville College Man Speaks.

Dr. Haynes of McMinnville College, spoke at the high school this morning. He made a plea for his college, saying that it is now one of the recognized colleges of Oregon. He ended with an exhortation to the students for them to continue their studies on through college.

Band Boys Practice.

Last evening the band boys of Pendleton met for practice in the old Coffee Club rooms which they have engaged for the summer and will meet regularly once a week hereafter. At present they are practicing for the Cello celebration, having been engaged to play at Umatilla and on the boat down the river. They have hopes that satisfactory arrangements will be made for summer concerts again this year and believe they can develop a better band than they have had for several years, there being several new bandmen in the city. Robert Barney has consented to direct the playing again.

The United States Civil Service commission has announced an examination for the County of Umatilla, on June 12, to be held at Pendleton, Ore., to fill the position of rural carrier at Hermiston, Ore., and vacancies that may later occur on rural routes from other post offices in this county. The active pallbearers were chosen from that lodge, six veteran members, Mark Patton, Walter S. Bowman, L. G. Frazier, Henry Thompson, J. V. Tallman and C. J. Whittaker, being chosen. The hono-

rary pallbearers were chosen from among the business patrons of the deceased, they being Frank Quinlan, W. G. Hovert, C. H. Brown, Fred Schneider, Ed Hayes and Charles Morrison.

Co. has completed arrangements for dirt to make the fill and Mr. O'Brien thinks it probable men will be on the job tomorrow morning.

That the sheep shearing season is on and that new methods have supplanted the old is indicated by the shipment through here by express of several individual sheep shearing machines. Three of these machines were transferred here last evening and they served to make a complete truck load. Patches of wool clinging to the machines show they have been in use.

CITY NOT LIABLE.

(Continued from Page 1.)

ors whose bids for the work may have been higher, calculated, or in a sense speculated on the uncertainty of the material to be excavated, and that had the contract been made to read as the plaintiff would now have it read, some other person or firm might have been the lowest bidder.

There would be no certainty in written contracts if it can be said as a matter of law that because of unforeseen difficulties a contractor may modify the contract to meet the difficulties. It seems to me that the evil consequences following such a contraction would be beyond present

calculation. Would a contractor assent to the same application of the rule should his bid be based upon a "belief" that the material to be excavated consisted of rock, and as a fact it should prove to be dirt? I think not." The plaintiff alleged no fraud or misrepresentation on the part of the city and put forward no claim that the contract had been abandoned or modified. It was alleged only that there was a mutual mistake of fact and that it is a custom among contractors to assume that a test pit in-

dicates the true character of the excavation to be made.

THE TORIC LENS FRAUD

Opticians and some occultists not content with a reasonable price for an ordinary lens have fostered upon the public a deep curved glass. They are not only of no benefit but really harmful in the stronger curves on account of the prismatic effect and consequent color change.

The statement that you see straight through the glass in looking down, up, or all around is misleading, you look through the center of any lens, the frame is tilted for reading, the eyes are closed when looking up, and looking all around is intolerable and a violation of police regulations, so—"What's the Use?"
