CONGRESS OF MOTHERS TO TOUR THE COUNTRY

WASHINGTON, May 4.—The proposed tour of the country in the interest of home education by the National Congress of Mothers and Parent-Teachers associations is arousing widespread interest, according to information given out by the U. S. Bureau of Education.

While child welfare conferences are being held by the state branches of the Congress of Mothers in Alabama, Georgia, Connecticut, Mississippi, Missouri, Maryland, New Hampshire, Utah and Wisconsin, the officers and leaders of the congress, accompanied by representatives of the Bureau of Education, will cross the continent, holding organization meetings in many of the western states. This tour is intended to make the benefits of the annual conference felt as widely as possible.

As many as nine conferences will be held in the proposed tour during May. The first of these will be in Chicago, May 1, where the leaders of the congress from the east and south will meet. St. Paul, Minn., is next on the schedule, where it is expected to organize a state branch. At Huron, S. D., the wife of Gov. Frank M. Byrne will welcome the leaders of the movement and assist in organizing a South Dakota branch. Gov. Stewart and a thousand members of the Mothers' Congress will welcome the crusaders into Montana, and will provide for conferences at Helena and Butte, Seattle, Wash., is next on the list for a conference, then Portland, Ore., where the annual meeting of the organization will convene, May 12-16. The final conference will be held in San Francisco.

This year's work of the congress is in close connection with the home education division of the U. S. Bureau of Education. Mrs. Frederic Schoff, president of the National Mothers' Congress, is director of the home education division, which since its organization in September, 1913, has enrolled over 20,000 women from all parts of the country interested and able to cooperate in organizing parents for study of child nurture and home making.

The plan of the home education work, as revealed in the congress of mothers and in the home education division, is "the organization of the parenthood of the world for study of children's needs and for the promotion of child welfare." In the conferences which the congress proposes to hold, some of the topics to be discussed are: "Peace," "Encouragement in habits of thrift and industry," "Spiritual development of children," and "Helping wayward children."

AUSTIN, Tex., May 4.—The Texas legislature convened today in extra session. In the next thirty days, the legislators will busy themselves with

Still another problem of vital interest to Texas, and to the outside business concerns, is a proposal to change insurance laws, which now are so drastic as to keep outside capital away from Texas investments.
