

WHEAT TRADE IS STRONGER

(Saturday's Market.)
 PORTLAND, Ore.—While the market for wheat at local and other Pacific northwest points was rather erratic for the week, the trend of the trade was somewhat better than at the start with prices higher.

Unexpected announcement of charters to carry the old crop made during the week had a tendency to stiffen the market at times, although there was a noticeable degree of weakness among country holders. Quite a few sales were reported at interior points.

Oats market showed little change either in sentiment or price in the local trade for the week. Some Australian business was reported but it was not sufficient to cause any stir.

Barley strength was rather pronounced during the week with prices generally higher. Some foreign business was reported.

Decline of 20c a barrel in the price of patent flour at the start of the week was characteristic of the sluggishness shown in the trade recently as well as the drop in prices from the extreme mark.

Millstuffs continue very firm and generally higher.

Market for grain bags was showing much strength and fair activity for the week. Higher prices were forced as a result of the fear that early shipments will be delayed.

TRADE ERRATIC IN CHICAGO PIT

(Saturday's Markets)
 CHICAGO.—Action in wheat for the short Saturday session was almost as lively as on previous days of the week. The market started strong and higher, helped by the firmer tone than expected in the cables, prospects of smaller world's shipments for the week. Renewal of demand for headstuffs from the continent and more urgent demand for wheat from foreign milling interests.

Scarcely were the best prices of the morning side occurred in the less bullish tone in the crop news from the southwest. Advices however, are conflicting and it will take another 10 days to really determine the importance of insect damage.

NATIONAL CONFERENCE OF CHARITIES MEETS

BALTIMORE, Md., May 16.—Delegates of charity and correction organizations from all over the country are now in session here. Men and women interested in charitable work of every kind and description have papers to read on the various phases of charity work.

Dr. Edward T. Devine, Ph. D. director of the School of Philanthropy, New York and E. R. A. Seligman, professor of Economics in Columbia University, New York made addresses today.

Unemployment was described as the most serious cause of destitution and dependency during the last winter. Statistics were cited showing that in New York City alone during January and February about 400,000 were unemployed, and evidence given that few sections of the country escaped some share in evil. Unusual unemployment was due to the war, but the winter before unemployment was widespread and reasons were given for considering the problem one of growing seriousness.

The principal causes operating every year were described as changes in centers of production and in industrial methods, and the increasing prevalence of seasonal industries. It was urged that remedies for unemployment due to these causes would also prove valuable aids for dealing with that due to extraordinary causes like the Great War.

HERMANN RIDDER SAYS AMERICA ALWAYS FIRST

NEW YORK, May 16.—The New York Staats Zeitung of which Hermann Ridder is editor, declares: "This is not a time to burden millions of the American people with unjust and unnecessary anguish of mind. The German-Americans must suffer in any conflict between the United States and Germany pains of which their fellow citizens can never know anything. They have fought to uphold the flag in the past and they will do so again against any enemy whatsoever. They deserve the fruits of past loyalty until they have forfeited the right to claim them. There has never been but one flag under which the German-American has fought. There will never be but one flag under which will ever fight and that flag is the Stars and Stripes."

THE JITNEY BUS IS THE POOR MAN'S CAR

KANSAS CITY, MO., May 13.—Why did union labor come to the support of the jitneys when a drastic ordinance threatened to drive the "nickel chasers" from the streets? Every labor leader will answer without hesitation that the jitney is the poor man's auto and labor represents the poor man. Many a laboring man's family never saw the inside of a touring car until the jitney arrived. Now he can take them all for a joy ride in a big touring car for the price they used to spend for street car trips. True, the rides are shorter but they are auto rides just the same and tend to satisfy the craving for a motor ride on the boulevards.

Jitney rides to the parks this summer promises to be an important part of the poor man's outing.

The "rubber neck wagon" has surrendered. Those who want to "see Kansas City" now take the jitneys. Knocked out of their 50 cent business, the sight seeking cars have joined the ranks of the enemy. They have turned "nickel chasers" themselves.
