

Stagnant Blood Given A Quick Impulse

Wonderful Activity Imparted by a Famous Remedy.

The appearance of pimples, boils, skin eruptions and all evidence of impure blood, calls for S. S. S., the famous blood purifier.

No amount of bile will destroy certain germs which cause blood and skin eruptions. They are away down deep in the tissues, perhaps in the very marrow of the bones. And such a condition calls for the searching influence of S. S. S. It is indeed a remarkable remedy, since it is taken up by the blood stream and never loses its medicinal influence. On and on it goes, through and through the entire system and always with the same definite action to dislodge germs, destroy their activity and stimulate the liver, lungs, kidneys, bowels and skin to throw them out completely.

It stimulates stagnant blood, provides a rational exhilaration to the nerve centers and thereby the natural functions of the body are wrenched to cast out intruders, no matter how strongly entrenched they may be. It refutes the ancient theory that to destroy within us the germs that eat into our vital cells for drugs that destroy our very existence. Get a bottle of S. S. S. today at any drugstore and for special advice on severe blood disorders write at once to the Medical Adviser, The Swift Specific Co., 103 Swift Bldg., Atlanta, Ga. Do not accept a substitute. Insist upon what you ask for.

If a man has plenty of nerve he'll get the cold.

How He Does It

DR. DARRIN TELLS HOW EASILY MEN AND WOMEN ARE MADE OVER.

HE SAYS NO ONE NEEDS TO SUFFER; THAT HEALTH, STRENGTH AND VIGOR CAN BE REGAINED.

Those who have called on Dr. Darrin at the Hotel St. George say that he is one of the most interesting men to converse with. His language is short, terse and right to the point. The following is an example of his convincing manner of speaking:

"Give me a man broken down from dissipation, hard work or worry, from any cause which has sapped his vitality. Let him follow my advice and I will make him as vigorous in every respect as any man of his age.

"I can give back to any man what he has lost by violating the laws of nature and I can stop all drain upon his vitality in a short time. A man who is nervous, whose brain and body are weak, who sleeps badly, awakes more tired than when he went to bed, who is easily discouraged, inclined to brood over imaginary troubles, who has lost ambition and energy to tackle problems can easily be cured, as he lacks nerve force, on which the whole vitality of the body is dependent.

"Further, give me a man or woman with pains in the back, a dull ache in the muscles or joints, come-and-go pains in the shoulders, chest and side, sciatica in the hip, lumbago, rheumatism, or any other ache or pain, and I can pour the oil of life into the aching body and drive out every sign of pain, for no pain can exist after I have thoroughly treated the case.

"When I declare that my record in treating chronic ailments is a series of splendid successes, I am not boasting nor making any false pretenses. I am merely stating facts which are known to be true by many besides those whom I have cured and made happy. I am always glad to explain my strictly modern method of treatment to any one consulting me—why my cures are safe, rapid and permanent, and why I am successful in so many cases that have resisted the treatment of others."

An Open Statement.

The following card is from Mr. Scofield, a well known and favorably known citizen, and his word should go far to convince the skeptics as to the skill of Dr. Darrin:

Dear Sir: This is to certify that after having suffered much from indigestion, with great pain in my stomach, back and sides, complicated with other ailments, I have received great relief under Dr. Darrin's treatment, and I am confident that I will soon entirely recover permanently. It is my desire to recommend other sufferers to the doctor who has done so much for me.

AMERICAN RESIDENTS IN BERLIN BEING TABULATED

BERLIN, May 20.—Postcards were sent to all Americans in the Berlin district today by Consul General Lay asking for their full names, addresses, telephone numbers, date and number of their passports, their occupation and future plans. Other American consuls in Germany are doing likewise.

FRECKLES

Don't Hide Them With a Veil; Remove Them With the Othine Prescription.

This prescription for the removal of freckles was written by a prominent physician and is usually so successful in removing freckles and giving a clean, beautiful complexion that it is sold by druggists under guarantee to refund the money if it fails.

Don't hide your freckles under a veil; get an ounce of othine and remove them. Even the first few applications should show a wonderful improvement, some of the lighter freckles vanishing entirely.

Be sure to ask the druggist for the double strength othine; it is this that is sold on the money-back guarantee.

Why Not?

KC is pure. KC is healthful. It really does make lighter, nicer biscuits, cakes and pastry than the old fashioned single acting baking powders.

And you pay only a fair price for it. No baking powder should sell for more.

OPENING OF CELILO CANAL INSPIRES WEST END TO BUILD ROADS

JOINT MEETING IS HELD AT HERMISTON AND HIGHWAY PLANS MADE.

Delegates from Echo, Stanfield, Hermiston and Umatilla Draw Up Agreement Toward Construction of West End Highway Connecting These Towns—Much Enthusiasm.

(Special Correspondence.) HERMISTON, Ore., May 21.—The opening of the Celilo canal has inspired the people of the west end more than before to build more and better roads through this section.

A joint meeting of committees from Echo, Stanfield, Hermiston and Umatilla was held in Hermiston this week and the following agreements were made:

It is hereby agreed by the members of the Special committees appointed by the Commercial Clubs of Echo, Stanfield, Hermiston and Umatilla to select the route for the west end highway connecting the above named cities, in meeting at Hermiston, May 18, 1915, as follows:

1st.—That the road shall run through the Main streets of the four cities.

2nd.—From Echo to Stanfield: Start at west end of Umatilla river bridge; then following the present county road to northeast corner of Fred Andrews place; thence due north to the south end of Main street in Stanfield; thence west on Coe avenue over R. R. crossing at depot to the present county road.

3rd.—From Stanfield to Hermiston, commencing at intersection of county road and Coe avenue in Stanfield; thence along the present county road past the Peulmuder place on across the present overhead crossing on the east side of the government feed canal, thence following the route of said canal to the telephone line, thence diagonally along the telephone line to the crossing of the feed canal above Hermiston; thence on the main county road as now constructed on Fourth street to Main street, thence on Main street to First street, thence north on first street to Ridgeway.

The above route was adopted unanimously with the understanding that it ultimately be reduced to a four per cent grade as near as practicable.

4th.—From Umatilla to Hermiston: Starting at Main street in Umatilla, following up the river on the west side of the R. R. right of way and across the drainage cut to the first road crossing, thence across the track and thence along the west side of the R. R. right of way to Hermiston, terminating at Ridgeway or the Baptist church.

5th.—It is agreed that the Hermiston-Ridgeway district shall complete its obligation to the people in that the graveling of the north road as now constructed shall be completed to the Umatilla Road District line.

Committees—Echo, O. E. Teel, T. M. Johnson; Stanfield, E. E. Cotant, G. J. Barringer; Hermiston, F. C. McKensie, J. T. Hinkle; Umatilla, D. C. Brownell, A. G. Means.

Stories From the War Zone

LONDON, May 12.—(By Mail to New York.)—What is needed most to end the war quickly?

"Men, more men, and still more men!" said Lord Kitchener.

"Munitions, munitions, more munitions!" said Field-Marshal Sir John French.

"Sandbags, sandbags, more sandbags!" says Lt.-Colonel J. A. Tyler, of the Royal Field Artillery.

In an appeal to the "Sister States" who have been sewing shirts and knitting socks, mufflers, and body belts for soldiers, Col. Tyler not only emphasizes the fact that sandbags are quite as emphatic as munitions in this war, but now that the weather has begun to moderate are far more useful than mufflers and such in the trenches.

"We need hundreds of millions of sandbags," he says. "The number required for a single battery, for the protection of guns, officers and men, runs into the tens of thousands. A mile of trenches requires something like 100,000 and for each little post observation station, or shelter of any kind behind the trenches so many more are needed. Then every house, barn, or other locality occupied in the area in which shells fall, for a distance of two or three miles behind the trenches ought to have its own dugout for use when necessary, into the making of which the sandbag enters. Furthermore, when we advance we have not time to empty out sandbags and carry them on. We require fresh ones."

The sandbags used by the British army are about 2 feet by 2 feet, and the material is coarse linen or canvas.

Sir Edward Grey is another British statesman who has been accused of indulging in humor, but an English newspaperman tells the story of how—as many others have done since the war started—he fruitlessly besought the foreign secretary for an interview.

"It isn't so much an interview that you want," observed Grey, with a cold clear smile, after the young man had stated the object of his visit. "What you really care for was to induce me to help you run your newspaper. I am very sorry, but you know I am an awful amateur in newspaper work."

Grey's platform manner gives no indication of his social affability. He is really a good story teller, and at times he borders on the frivolous. At a recent social gathering, in illustrating a point he was making, he recited with much solemnity the following verse:

"A father heard his children scream,
And promptly dropped them in the stream.

Saying as he dropped the third, "Children should be seen, not heard."

The first member of parliament to enlist in the new army as a private was Stephen Gwynne, one of the Irish leaders. Gwynne owes his privilege of wearing khaki to Lord Kitchener. He was first rejected, as he is 51, well over the military age. But he wrote a personal appeal to K. of K. asking him to set aside the question of age and allow him to join the colors.

Kitchener consented, and Gwynne donned the uniform.

The British sense of humor has begun to trickle in from the trenches and battlefields.

Though the London public accepts as gospel truth most tales of valor depicted in soldier letters to London newspapers, it is taking the latest with just a pinch of salt.

One "Tommy" had told how a horse picked up his fallen rider with his mouth and carried him to safety. The story reached the trenches and another "Tommy" having read it wrote the following:

"I should like to add a few words further to enhance this noble steed's deeds on that memorable day."

"It was during the retreat from Mons that I saw this happen."

"After the horse had saved his rider, we were hard pressed, when this noble steed again showed his pluck. He picked up a loaded rifle, and holding it between his fore feet, he worked the bolt and pulled the trigger with his tongue and thus kept about thirty Germans at bay. After this bold horse had expended all the ammunition in the rifle he drew the sword [which was in the saddle at his back] with his teeth and gallantly charged the few Germans who still remained alive."

"I might mention that before we went to the front this horse used to throw his rider and then trot to the guardroom and fetch the stretcher."

Some wives rush in where their husbands fear to tread.

Man Takes His Own Medicine.
He has absolute faith in his medicine—he knows when he takes it for certain ailments he gets relief. People who take Dr. King's New Discovery for an irritating cold are optimists—they know this cough remedy will penetrate the linings of the throat, kill the germs, and open the way for Nature to act. You can't destroy a cold by superficial treatment—you must go to the cause of the trouble. Be an optimist. Get a bottle of Dr. King's New Discovery today.—Advt.

SPORTLAND SPARKLES

The Pendleton Bucks will meet the Pilot Rock Pebbles at Pilot Rock Sunday and the result will spoil either Pendleton's 500 average. The Stanfield-Echo club will play Hermiston at Hermiston.

In spite of the auto races at Walla Walla Sunday, the Walla Walla Elks will send over a big delegation of fans to the game with the Pendleton Elks in this city, according to J. H. Sturiga who passed through the city this morning en route back to Walla Walla from Portland.

The winner of the game this evening between the Presbyterians and the Methodists will step in first place in the race while the loser will be relegated to the cellar. The Presbyterians will be crippled by the absence of Captain Clarence Penland and Don Saunders, both of whom are on the sick list. They will probably line up as follows: Hayes, p.; Hatch, 1c.; Sturdivant, 2b.; Woodsworth, 3b.; Rose, cf.; Boyden, c.; Martin, lf.; Young or Sayre, rf. The Methodists announce their lineup as follows: Fowler, 1b.; Guerrant, 2c.; Harget, 2b.; Norman, 3b.; Richardson, lf.; Ulrich, cf.; Hinderman, p.; Harget, c.

Accused Spy Hangs Himself.
LONDON, May 20.—Antone Kuepferie, formerly of Brooklyn, New York, who was on trial charged with being a German spy, suicided by hanging himself in his cell in Brixton prison. Kuepferie left a note saying in part: "I am a soldier with a rank I don't desire to state. I have had a fair trial, but am unable to stand the strain any longer. I'm taking the law into my own hands. I don't wish to ascend the scaffold."

Trout Fishing Opens.
DENVER, Colo., May 20.—This is the first day of the open season for trout fishing in Colorado this year. Special trains from all the principal towns have carried more than 20,000 eager sportsmen to the hills, it is estimated. The open season is from May 20 to October 31.

Oil Treatment for Stomach Trouble

A simple prescription made up of a combination of pure vegetable oils is producing wonderful results for sufferers from stomach, liver and intestinal troubles. The remedy, which is said to have originated in France, where it has been used for years by the peasantry, was introduced into this country by George H. Mayr, a leading Chicago druggist, who cured himself of severe stomach, liver and intestinal troubles by its use. Those who have used it say the first dose is sufficient to convince any one of its remarkable merit, and that within twenty-four hours the sufferer feels like a new person. This medicine, which has become known as Mayr's Wonderful Remedy, is sold by leading druggists everywhere with the positive understanding that your money will be refunded without question or quibble if ONE bottle fails to give you absolute satisfaction.

Queen Alexandria and other members of the royal family have visited the brave fellows blinded by the war in the temporary hospital at St. Dunstons, a beautiful house in Regents Park, lent by an American banker for the care of the soldier-blind.
