CITY OF UMATILLA TO HAVE WATER SYSTEM

UMATILLA, Ore., June 1.—After more than a year's filibustering the city and the O-W-R & N. company have reached an agreement whereby the city of Umatilla will have an adequate water supply.
Under an agreement reached by the city council and representatives of the railroad company the company will drive a 12 or 15 inch well to a depth of over 100 feet, install a pumping plant and raise their tanks to a height of 100 feet above the railroad tracks. The company will meter the water to the city from the tank. The city is to install its own distribution system, which will consist of six and four inch cast iron mains and 12 fire hydrants.
Pike & O'Neil, Portland contractors, have been awarded the contract for the distribution system which will cost about \$19,000.
Work will be started within the next 10 days. The railroad company has a well drilling outfit in position for operation.
Special effort will be made to get the entire work done within the next six weeks so as to be able to eliminate the present water supply before the warm weather makes it a menace to health.

Thacker was injured while at work at the Pendleton Roller Mills last Friday at 5 o'clock, by a flying piece of chipped steel piercing the eyeball which necessitated its removal by Doctors Boyden & Boyden, and this morning received a check for \$948, together with hospital and doctor bills, in full settlement of his claim. Thacker was insured by the Pendleton Roller Mills, under a general policy carried by that company with the Maryland Casualty company.

ROUMANIA IS READY TO ENTER THE CONFLICT

PITTSBURG, Pa., June 1.—E. Borcea, official representative of Roumania, is getting bids from Pittsburgh manufacturers on several million dollars' worth of shells and war equipment, and contracts will be closed soon.
"Roumania is ready to go to war at a moment's notice," he said. "I believe war will be declared within the next two or three weeks."
Before coming to Pittsburgh Mr. Borcea visited Chicago and other manufacturing centers, where, he says, he awarded contracts to the amount of \$12,000,000. He stated that during the last 10 months his government had spent approximately \$90,000,000 in Italy, France and the United States for war supplies.
