The couple were married in Astoria, Wn., Nov. 25, 1904. Defendant's cruel treatment began in 1912 plaintiff alleges, and cites specific instances where he assaulted her with his fists and caused her great pain. She also alleges that he deserted her several times, spent his wages on another woman and in February, 1914, filed suit for divorce against her but withdrew the complaint when she filed a cross-complaint. W. M. Peterson is her attorney.

Stole Strawberries; in Jail.
Because he could not resist the temptation offered by the sight of an unguarded dish of strawberries at a Pendleton home, one Walter Ghetto today finds himself an inmate of the city bastille for five days. He was drunk at the time and maybe that explains why his will was weak. Anyway he grabbed the strawberries and "beat it." The owner observed the act and gave pursuit. Just before being overtaken, Ghetto dashed the dish to the walk and shattered it. He was turned over to the police and made no defense of his act in court this morning. The police recommended this incident as a good advertisement for the berries but have not yet learned whether they were grown at Heermiston, Stanfield, Milton-Freewater or in some place outside the county.

GROUND BROKEN FOR NEW LOCAL FEDERAL BUILDING

ACTUAL WORK COMMENCES THIS AFTERNOON ON CITY'S \$100,000 STRUCTURE.

Ground was broken this afternoon for the Pendleton federal building and actual work toward securing for this city the handsome new \$100,000 structure which is to house the local postoffice, the U. S. federal court and the headquarters of the Umatilla forest was begun. J. S. Winters of Portland, the contractor who secured the bid on the construction of the building, arrived this morning and immediately let the sub-contract for excavation to I. Wilkes of this city.

At 1 o'clock Mr. Wilkes had a crew of men on the job and the removing of the dirt began. In all there will be about 2000 yards of dirt to move and much of this will be hauled directly to the depot grounds to be used in filling in for the new park. Mr. Wilkes figures that his contract will require about 30 days to complete.

Mr. Winters will have the materials for the building arriving right along now and will be ready to start construction work just as soon as the excavating is done.

WITHYCOMBE URGES DANGER BE REALIZED

SALEM, Ore., June 1.—That there is real danger in fostering too much national sentimentality; that we should comprehend the inadequateness of our ability for national defense, and that there are prices the United States must never willingly pay for peace, were asserted by Governor Withycombe, in response to an inquiry from the Washington Post. "I agree with your views that public opinion, so far as possible, should remain calm at this crisis," wired the governor. "Moderation on the part of us all will assist the government in its task of working out, dispassionately, the grave problems arising from our relations with the nations at war, and will go far toward averting the possibility of conflict, which at best is a calamity. "On the other hand, it seems to me unwise to shut our eyes to conditions as they actually exist, and to pretend that there is no need to prepare for possible eventualities. Unfortunately as it is, candid truth compels us to realize that there is real danger in fostering over much national sentimentality. I do not favor anything even approaching militarism, but I do sincerely believe that we should comprehend the inadequateness of our ability for national defense. Peace is desirable almost above all else; but there are prices which the United States must never willingly pay for peace."

IF YOU HAVE FREQUENT HEAD-ACHES WHICH MEDICINES DO NOT CURE; if you see distant objects more (or less) clearly, or need to hold printed matter nearer to or further from the eyes than formerly; or need more light.
